

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement. The Northern Hills Ranger District will also provide a letter including a description of the proposed action and soliciting comments on the proposal to local land owners, interested tribal entities, permittees that use the project area, and others who have expressed interest in projects similar to this one. A public meeting will be held at the Piedmont Fire Department in Piedmont, South Dakota during the comment period. Forest Service personnel will be on hand to answer questions about the project, and large-scale maps of the proposed action will be available for review.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered, however.
