

school, then it may be used as the basis for research, design, and evaluation of interventions for schools seeking to prevent or reduce the occurrence of crime and violence by providing information related to (re)designing physical features of the environment and changing policies and procedures related to using the school environment.

In addition, an exploratory purpose of this research is to determine whether the CSA items can be divided reliably into supposedly distinct variables reflecting each of the CPTED principles. If we produce practical support for the

assessment of these “CPTED variables,” then we will also assess validity by determining whether these variables are logically related to our measures of fear, violence and climate in schools.

Survey data from 75 students (25 each from 6th, 7th, and 8th grades) per school site will be collected from 50 middle schools selected and recruited from 13 school districts in the metro-Atlanta, Georgia area (approximately 3,750 total student participants), in addition to the observational (CSA) data collection. The student survey will assess variables such as school climate, and actual and

perceived levels of school violence at each school. In addition, archival/ administrative data will be collected from each of the 50 schools on a School Site Data Form providing information on neighborhood and school characteristics from various sources (e.g., school site information reported by the school administrator, school district data available on the Web, U.S. Census data, and school disciplinary records). There are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents	Number of responses per respondent	Average burden response (in hours)	Total burden (in hours)
CPTED Student Survey	3,750	1	1	3750
CPTED Student Survey Data Collection Checklist (DCC)	150	1	0.5	75
CPTED School Site Data Form	50	1	2	100
Total				3925

Dated: December 9, 2010.

Carol E. Walker,

Acting Reports Clearance Officer, Centers for Disease Control and Prevention.
