The hourly rate is an estimate based on an average annual salary of $62,000 for developers and mortgagees.

In accordance with 5 CFR 1320.8(d)(1), HUD is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Interested persons are invited to submit comments regarding the information collection requirements in this proposal. Comments must be received by January 21, 2011.

Comments must refer to the proposal by name and docket number (FR–5354–N–02) and must be sent to: HUD Desk Officer, Office of Management and Budget, New Executive Office Building, Washington, DC 20503, Fax number: (202) 395–6947; and Paperwork Reduction Act Program Manager, Office of the Chief Information Officer, Department of Housing and Urban Development, 451 Seventh Street, SW., Room 4178, Washington, DC 20410.

Dated: December 17, 2010.
David H. Stevens,
Assistant Secretary for Housing—Federal Housing Commissioner.

Watercress Darter National Wildlife Refuge, Jefferson County, AL

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability: Final comprehensive conservation plan and finding of no significant impact.

SUMMARY: We, the Fish and Wildlife Service (Service), announce the availability of our final comprehensive conservation plan (CCP) and finding of no significant impact (FONSI) for the environmental assessment for Watercress Darter National Wildlife Refuge (NWR). In the final CCP, we describe how we will manage this refuge for the next 15 years.

ADDRESSES: You may obtain a copy of the CCP by writing to: Mr. Stephen A. Miller, Refuge Manager, Mountain Longleaf NWR, P.O. Box 54087, Anniston, AL 36205. The CCP may also be accessed and downloaded from the Service’s Web site: http://southeast.fws.gov/planning/ under “Final Documents.”

FOR FURTHER INFORMATION CONTACT: Mr. Mike Dawson, Refuge Planner, Jackson, MS; telephone: 601/965–4903, ext. 20; fax: 601/965–4010; e-mail: mike_dawson@fws.gov.

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we finalize the CCP process for Watercress Darter NWR. We started this process through a notice in the Federal Register on March 12, 2007 (72 FR 11048).

Watercress Darter NWR, near the city of Bessemer, Jefferson County, Alabama, was established by the Service in 1980, to provide protection for the endangered watercress darter. The refuge is only about 24 acres of ponds, mixed pine-hardwood forest, and a residence, and contains Thomas Spring. A second pond was constructed on the refuge in 1983, to provide additional watercress darter habitat. The refuge is unstaffed and administered by Mountain Longleaf NWR.

We announce our decision and the availability of the final CCP and FONSI for Watercress Darter NWR in accordance with the National Environmental Policy Act (NEPA) [40 CFR 1506.6(b)] requirements. We completed a thorough analysis of
impacts on the human environment, which we included in the Draft Comprehensive Conservation Plan and Environmental Assessment (Draft CCP/EA).

The CCP will guide us in managing and administering Watercress Darter NWR for the next 15 years. Alternative C, as we described in the final CCP, is the foundation for the CCP.

The compatibility determinations for wildlife observation and photography and environmental education and interpretation are also available in the final CCP.

Background

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd–668ee) (Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation, wildlife photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Administration Act.

Comments

We made copies of the Draft CCP/EA available for a 30-day public review period as announced in the Federal Register on April 16, 2010 (75 FR 79988). We received five comments on the Draft CCP/EA.

Selected Alternative

The Draft CCP/EA identified and evaluated three alternatives for managing the refuge. After considering the comments we received and based on the professional judgment of the planning team, we selected Alternative C for implementation. Under Alternative C, we will optimize habitat management and visitor services throughout the refuge.

Threats to the refuge are becoming more prominent as development activities occur in the city of Bessemer, Alabama. Watercress Darter NWR is a small system that can be greatly compromised by activities a distance away from its boundary. We fully recognize the impact these activities could have on the integrity of the refuge. In addition to our current management, we will extend beyond the immediate neighbors to address issues associated with the aquifer and spring recharge area, watershed, and biota exchange pathways. Extensive resource sharing and networking with other protected areas, state agencies, local governments, organizations, specialists, researchers, and private citizens will expand the knowledge base and assist in developing cooperation between interest groups.

Restoration of natural systems, native communities, and healthy environments will be emphasized, promoting regionally a high-quality of life. Monitoring environmental parameters and flora and fauna will be incorporated into an integrated study to gain knowledge on the health of the refuge ecosystem. Education and outreach will be expanded, with an emphasis on cultural and historical resources. Staffing will be developed to meet the needs of partners and the greater number of interest groups and accommodate data and resource sharing. An increase in staff is presented in this alternative so that Watercress Darter NWR can be managed with a greater emphasis on landscape management. Additional staff members needed to fully implement this alternative at the highest quality level includes one position at Watercress Darter NWR and four positions shared between Cahaba River NWR and Watercress Darter NWR.

Authority: This notice is published under the authority of the National Wildlife Refuge System Improvement Act of 1997, Public Law 105–57.

Mark J. Musaus,
Acting Regional Director.

Agency Information Collection Activities: Comment Request

AGENCY: U.S. Geological Survey (USGS), Interior.

ACTION: Notice of extension of an existing information collection (1028–0056).

SUMMARY: We (the U.S. Geological Survey) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act (PRA) of 1995, and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC. This IC is scheduled to expire on March 31, 2011.

DATES: Submit written comments by February 22, 2011.

ADDRESSES: Please submit a copy of your comments to Phadrea Ponds, Information Collection Clearance Officer, U.S. Geological Survey, 2150–C Centre Avenue, Fort Collins, CO 80526–8118 (mail); 970–226–9445 (phone); 970–226–9230 (fax); or pondsp@usgs.gov (e-mail). Please reference Information Collection 1028–0070 in the subject line.

FOR FURTHER INFORMATION CONTACT: Lisa Zolly at 703–648–4277 or by mail at U.S. Geological Survey, Biological Informatics Office, 12201 Sunrise Valley Drive, MS 302, Reston, VA 20192.

SUPPLEMENTARY INFORMATION:

I. Abstract

Beginning in 1997, the U.S. Geological Survey has collected voluntary data regarding amphibian malformations. Sightings are reported via an electronic form (1028–0056). The form is sent to the USGS National Biological Information Infrastructure (NBII) program, which manages the North American Reporting Center for Amphibian Malformations (NARCAM). Each malformation occurrence, submitted is carefully reviewed by trained professional herpetologists for quality and accuracy. Data associated with the validated reports, including species, malformation type, and geospatial information, are made accessible to the public via the NARCAM Web site. Information may be used by scientists and resource managers within Federal, State, and local agencies, as well as the general public, to identify areas where malformed amphibians have been reported, and the rates of occurrence. The NARCAM dataset is the only publicly available, national dataset on amphibian malformations.

We will be requesting OMB approval for an extension of the current form used for the NARCAM data collection efforts.
