

**§ 75.363 Hazardous conditions and violations of mandatory health or safety standards; posting, correcting, and recording.**

(a) Any hazardous condition found by the mine foreman or equivalent mine official, assistant mine foreman or equivalent mine official, or other certified persons designated by the operator for the purposes of conducting examinations under this subpart D, shall be posted with a conspicuous danger sign where anyone entering the areas would pass. A hazardous condition shall be corrected immediately or the area shall remain posted until the hazardous condition is corrected. If the condition creates an imminent danger, everyone except those persons referred to in section 104(c) of the Act shall be withdrawn from the area affected to a safe area until the hazardous condition is corrected. Only persons designated by the operator to correct or evaluate the condition may enter the posted area. Any violation of a mandatory health or safety standard found during a preshift examination, a supplemental examination, an on-shift examination, or a weekly examination shall be corrected.

(b) A record shall be made of any hazardous condition and any violation of a mandatory health or safety standard found. This record shall be kept in a book maintained for this purpose on the surface at the mine. The record shall be made by the completion of the shift on which the hazardous condition or violation of a mandatory health or safety standard is found and shall include the nature and location of the hazardous condition or violation of the mandatory health or safety standard and the corrective action taken. This record shall not be required for shifts when no hazardous conditions or violations of mandatory health or safety standards are found, or for hazardous conditions and violations of mandatory health or safety standards found during the preshift or weekly examinations inasmuch as these examinations have separate recordkeeping requirements.

(e) *Review of citations and orders.* The mine operator shall review with mine examiners on a quarterly basis citations and orders issued in areas where preshift, supplemental, on-shift, and weekly examinations are required.

6. The introductory text of paragraph (b) and paragraphs (d) and (h) of § 75.364 are revised to read as follows:

**§ 75.364 Weekly examination.**

\* \* \* \* \*

(b) *Hazardous conditions and violations of mandatory health or safety*

*standards.* At least every 7 days, an examination for hazardous conditions and violations of mandatory health or safety standards at the following locations shall be made by a certified person designated by the operator:

\* \* \* \* \*

(d) Hazardous conditions shall be corrected immediately. If the condition creates an imminent danger, everyone except those persons referred to in section 104(c) of the Act shall be withdrawn from the area affected to a safe area until the hazardous condition is corrected. Any violation of a mandatory health or safety standard found during a weekly examination shall be corrected.

\* \* \* \* \*

(h) *Recordkeeping.* At the completion of any shift during which a portion of a weekly examination is conducted, a record of the results of each weekly examination, including a record of hazardous conditions and violations of mandatory health or safety standards found during each examination and their locations, the corrective action taken, and the results and location of air and methane measurements, shall be made. The results of methane tests shall be recorded as the percentage of methane measured by the examiner. The record shall be made by the person making the examination or a person designated by the operator. If made by a person other than the examiner, the examiner shall verify the record by initials and date by or at the end of the shift for which the examination was made. The record shall be countersigned by the mine foreman or equivalent mine official by the end of the mine foreman's or equivalent mine official's next regularly scheduled working shift. The records required by this section shall be made in a secure book that is not susceptible to alteration or electronically in a computer system so as to be secure and not susceptible to alteration.

BILLING CODE 4510-43-P

**DEPARTMENT OF HOMELAND SECURITY**

**Coast Guard**

**33 CFR Part 117**

[Docket No. USCG-2010-1055]

RIN 1625-AA09

**Drawbridge Operation Regulation; Rainey River, Rainer, MN**

**AGENCY:** Coast Guard, DHS.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** The Coast Guard proposes to establish drawbridge operating procedures for the Canadian National Railway Bridge across the Rainey River at Mile 85.0 at Rainer, Minnesota. This proposed rule is intended to establish standard bridge operating conditions for the drawbridge, including dates of operation.

**DATES:** Comments and related material must reach the Coast Guard on or before January 26, 2011.

**ADDRESSES:** You may submit comments identified by docket number USCG-2010-1055 using any one of the following methods:

(1) *Federal eRulemaking Portal:* <http://www.regulations.gov>.

(2) *Fax:* 202-493-2251.

(3) *Mail:* Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590-0001.

(4) *Hand delivery:* Same as mail address above, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The telephone number is 202-366-9329.

To avoid duplication, please use only one of these four methods. See the "Public Participation and Request for Comments" portion of the **SUPPLEMENTARY INFORMATION** section below for instructions on submitting comments.

**FOR FURTHER INFORMATION CONTACT:** If you have questions on this proposed rule, call or e-mail Mr. Lee D. Soule, Bridge Management Specialist, U.S. Coast Guard; telephone 216-902-6085, e-mail [lee.d.soule@uscg.mil](mailto:lee.d.soule@uscg.mil), or fax 216-902-6088. If you have questions on viewing or submitting material to the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202-366-9826.

**SUPPLEMENTARY INFORMATION:**

## Public Participation and Request for Comments

We encourage you to participate in this rulemaking by submitting comments and related materials. All comments received will be posted, without change to <http://www.regulations.gov> and will include any personal information you have provided.

### Submitting Comments

If you submit a comment, please include the docket number for this rulemaking (USCG–2010–1055), indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. You may submit your comments and material online (<http://www.regulations.gov>), or by fax, mail or hand delivery, but please use only one of these means. If you submit a comment online via <http://www.regulations.gov>, it will be considered received by the Coast Guard when you successfully transmit the comment. If you fax, hand deliver, or mail your comment, it will be considered as having been received by the Coast Guard when it is received at the Docket Management Facility. We recommend that you include your name and a mailing address, an e-mail address, or a phone number in the body of your document so that we can contact you if we have questions regarding your submission.

To submit your comment online, go to <http://www.regulations.gov>, click on the “submit a comment” box, which will then become highlighted in blue. In the “Document Type” drop down menu select “Proposed Rules” and insert “USCG–2010–1055” in the “Keyword” box. Click “Search” then click on the balloon shape in the “Actions” column. If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit them by mail and would like to know that they reached the Facility, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period and may change the rule based on your comments.

### Viewing Comments and Documents

To view comments, as well as documents mentioned in this preamble as being available in the docket, go to <http://www.regulations.gov>, click on the “read comments” box, which will then become highlighted in blue. In the

“Keyword” box insert “USCG–2010–1055” and click “Search.” Click the “Open Docket Folder” in the “Actions” column. You may also visit the Docket Management Facility in Room W12–140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. We have an agreement with the Department of Transportation to use the Docket Management Facility.

### Privacy Act

Anyone can search the electronic form of comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review a Privacy Act notice regarding our public dockets in the January 17, 2008, issue of the **Federal Register** (73 FR 3316).

### Public Meeting

We do not now plan to hold a public meeting. But you may submit a request for one using one of the four methods specified under **ADDRESSES**. Please explain why one would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a later notice in the **Federal Register**.

### Basis and Purpose

The drawbridge has been remotely operated for numerous years, but does not have explicit approval by the Commander, Ninth Coast Guard District, to be operated from a remote location. The Coast Guard has recently been informed that the drawbridge is routinely unresponsive to signals from vessels for bridge openings. The unreliability of the bridge for vessel traffic may have a direct effect on the development of business and commerce in the cities of Rainer and International Falls, Minnesota. In addition, the presence of government and public vessels operating between Rainey River and Rainey Lake have magnified the need for the drawbridge to be responsive and reliable for all vessel traffic so the Coast Guard will not currently consider remote operation. Rainey River and Rainey Lake serve as the border between the United States of America and Canada. This bridge is a single leaf bascule type railroad bridge that provides a horizontal clearance of 125 feet. The water level on Rainey Lake and under the bridge is controlled by a hydro-electric dam facility at International Falls, Minnesota, thus charted datum is based on the water

level surface of Rainey Lake when the gauge at Fort Frances, Canada reads 1107.0 feet resulting in a variable vertical clearance of 6 to 10 feet in the closed position. The railroad bridge carries significant train traffic across the international border. Rainer is a customs port-of-entry.

### Discussion of Proposed Rule

Between May 1 and October 15 each year, the proposed regulation would require the bridge to be manned by a drawtender and open on signal, 24 hours a day, 7 days a week. Significant rail traffic may require the bridge to remain closed for periods, but shall be expected to be opened to vessel traffic within reasonable times, as needed, after rail traffic has passed. The bridge shall open on signal as soon as practicable for all Federal, State, local government vessels, commercial vessels, vessels seeking shelter from severe weather, and vessels in distress. The proposed regulation also establishes a permanent winter operating schedule by requiring vessels to provide at least 12 hours’ advance notice for a bridge opening during winter, or during the traditional non-boating season, between October 16 and April 30 each year. Additionally, a clearance gauge would be required to indicate to vessels the water levels and clearance while the bridge is in the closed position.

### Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

### Regulatory Planning and Review

This proposed rule is not a “significant regulatory action” under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. This determination is expected to improve intermodal transportation at the bridge crossing and does not exclude either vessel or train traffic.

### Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently

owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. The proposed regulation is expected to increase availability of the drawbridge for vessel traffic and potentially increase access by, and to, small entities on the waterway.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (*see ADDRESSES*) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

#### Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact Mr. Lee D. Soule, Bridge Management Specialist, U. S. Coast Guard; telephone 216–902–6085, e-mail [lee.d.soule@uscg.mil](mailto:lee.d.soule@uscg.mil), or fax 216–902–6088. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

#### Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

#### Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

#### Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions

that may result in the expenditure by a State, local, or Tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

#### Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

#### Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

#### Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

#### Indian Tribal Governments

This proposed rule does not have Tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian Tribes, on the relationship between the Federal Government and Indian Tribes, or on the distribution of power and responsibilities between the Federal Government and Indian Tribes.

#### Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

#### Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (*e.g.*, specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

#### Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01, and Commandant Instruction M16475.ID which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment because it simply promulgates the operating regulations or procedures for drawbridges. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

#### List of Subjects in 33 CFR Part 117

Bridges.

For the reasons discussed in the preamble, the Coast Guard proposes to amend 33 CFR part 117 as follows:

#### PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for part 117 continues to read as follows:

**Authority:** 33 U.S.C. 499; 33 CFR 1.05–1; Department of Homeland Security Delegation No. 0170.1.

2. Add § 117.664 to read as follows:

#### § 117.664 Rainey River, Rainey Lake and their tributaries.

The draw of the Canadian National Bridge, mile 85.0, at Rainer, shall open on signal; except that, from October 16 to April 30, the draw shall open on signal if at least 12-hours advance notice is provided. The commercial phone

number to provide advance notice shall be posted on the bridge so that it is plainly visible to vessel operators approaching the up or downstream side of the bridge. The owners of the bridge shall provide and keep in good legible condition two board gauges painted white with black figures to indicate the vertical clearance under the closed draw at all water levels. The gauges shall be so placed on the bridge that they are plainly visible to operators of vessels approaching the bridge either up or downstream.

Dated: November 23, 2010.

**M.N. Parks,**

*Rear Admiral, U.S. Coast Guard, Commander,  
Ninth Coast Guard District.*

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[EPA-R07-OAR-2010-0945, FRL-9243-9]

#### Approval and Promulgation of Implementation Plans; Nebraska: Prevention of Significant Deterioration; Greenhouse Gas Permitting Authority and Tailoring Rule Revision

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to approve revisions to the Nebraska State Implementation Plan (SIP), which were recently submitted by the Nebraska Department of Environmental Quality (NDEQ). These revisions include proposed changes to Nebraska's Prevention of Significant Deterioration (PSD) program, submitted by NDEQ to EPA on November 19, 2010; and proposed changes to Nebraska's greenhouse gas (GHG) construction permit related regulations, submitted by NDEQ to EPA on October 19, 2010 (that NDEQ requested parallel processing for on September 30, 2010). The proposed SIP revision (Chapters 1, 2, 5, 14, 15, 17 and 19 of Title 129 of the Nebraska Administrative Code) to Nebraska's Prevention of Significant Deterioration (PSD) program includes Nebraska's adoption of portions of EPA's 2002 new source review (NSR) rule, which we call the NSR Reform Rule, and which we issued by notice dated December 31, 2002, 67 FR 80186. The proposed SIP revision also provides the state of Nebraska with authority to regulate GHG emissions under the PSD program and incorporates the GHG emission

thresholds established in EPA's "PSD and Title V Greenhouse Gas Tailoring Final Rule," which EPA issued by notice dated June 3, 2010, 75 FR 31514. EPA is proposing approval of both submittals and is proposing approval of the GHG portion of the proposed SIP revision through a parallel processing action. In the alternative, EPA is soliciting comments from the public on whether it should initially only approve Nebraska's October 19, 2010 submittal with respect to the revisions to the GHG construction permit regulations, and address Nebraska's November 19, 2010 submittal related to NSR Reform in a subsequent final action.

**DATES:** Comments must be received on or before January 26, 2011.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-R07-OAR-2010-0945, by one of the following methods:

1. <http://www.regulations.gov>: Follow the on-line instructions for submitting comments.

2. *E-mail:* [gonzalez.larry@epa.gov](mailto:gonzalez.larry@epa.gov).

3. *Fax:* (913) 551-7844.

4. *Mail:* Air Planning and Development Branch, Air and Waste Management Division, U.S. Environmental Protection Agency, Region 7, 901 North 5th Street, Kansas City, Kansas 66101.

5. *Hand Delivery or Courier:* Mr. Larry Gonzalez, Air Planning and Development Branch, Air and Waste Management Division, U.S. Environmental Protection Agency, Region 7, 901 North 5th Street, Kansas City, Kansas 66101. Such deliveries are only accepted during the Regional Office's normal hours of operation. The Regional Office's official hours of business are Monday through Friday, 8 a.m. to 4:30 p.m., excluding Federal holidays.

*Instructions:* Direct your comments to Docket ID No. EPA-R07-OAR-2010-0945. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit through <http://www.regulations.gov> or e-mail, information that you consider to be CBI or otherwise protected. The <http://www.regulations.gov> Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment.

If you send an e-mail comment directly to EPA without going through <http://www.regulations.gov>, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA's public docket visit the EPA Docket Center homepage at <http://www.epa.gov/epahome/dockets.htm>.

*Docket:* All documents in the electronic docket are listed in the <http://www.regulations.gov> index. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in <http://www.regulations.gov> or in hard copy at the Air Planning and Development Branch, Air and Waste Management Division, U.S. Environmental Protection Agency, Region 7, 901 North 5th Street, Kansas City, Kansas 66101. EPA requests that if at all possible, you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office's official hours of business are Monday through Friday, 8:30 a.m. to 4:30 p.m., excluding Federal holidays.

**FOR FURTHER INFORMATION CONTACT:** For information regarding the Nebraska SIP, contact Mr. Larry Gonzalez, Air Planning and Development Branch, Air and Waste Management Division, U.S. Environmental Protection Agency, Region 7, 901 North 5th Street, Kansas City, Kansas 66101. Mr. Gonzalez's telephone number is (913) 551-7041; e-mail address: [gonzalez.larry@epa.gov](mailto:gonzalez.larry@epa.gov).
