Nature and Extent of Confidentiality: There is no need for confidentiality with this information collection.

Privacy Act Impact Assessment: No impact(s).

Needs and Uses: On December 18, 2007, the Commission adopted a *Report and Order and Third Further Notice of Proposed Rulemaking* (the "Order") in MB Docket Nos. 07-294; 06-121; 02-277; 04-228; MM Docket Nos. 01-235; 01-317; 00-244; FCC 07-217. The Order adopted rule changes designed to expand opportunities for participation in the broadcasting industry by new entrants and small businesses, including minority- and women-owned businesses. Consistent with actions taken by the Commission in the Order, the following changes are made to Form 303-S: The instructions have been revised to incorporate a definition of "eligible entity," which will apply to the Commission's existing Equity Debt Plus ("EDP") standard, one of the standards used to determine whether interests are attributable. Section II includes a new certification for licensees to certify that their advertising sales agreements do not discriminate on the basis of race or ethnicity and that all such agreements held by the licensee contain nondiscrimination clauses. The instructions for Section II have been revised to include a new description of the certification.

Second, Section III includes a new question, Item 4, requiring licensees to certify that, during the preceding license term, the station has not been silent (or operating for less than its prescribed minimum operating hours) for any period of more than 30 days, consistent with the Commission's rules. If a licensee cannot so certify, it must submit an exhibit specifying the exact dates in the preceding license term on which the station was silent or operating for less than its prescribed minimum hours. See 47 CFR 73.1740 (Commercial Broadcast Stations); 47 CFR 73.561 (Noncommercial Educational FM Stations); 47 CFR 73.850 (Low-power FM Stations); and 47 CFR 73.1745(b); 47 CFR 73.1740(b) (Noncommercial Educational AM Stations). See also 47 U.S.C. 309(k) (Statutory Standards for Broadcast Renewal Procedures); *Birach Broadcasting Corp.*, 16 FCC Rcd 5015, 5020 (2001) (holding that a station's failure to provide any service during the license term is material to whether it served the public interest, convenience, and necessity pursuant to Section 309(k)). Consistent with the holding in *Birach*, the Commission's rules for minimum operating schedules, and the renewal standards set forth in Section 309(k), Section III includes the new certification and the instructions to include a new description of the certification.

Section III, Item 7 (previously Item 6), has been revised to eliminate the requirement that full power AM and FM licensees submit an exhibit to demonstrate compliance with the Commission's maximum permissible radio frequency ("RF") electromagnetic exposure limits, in the event that they are unable or not eligible to use the RF worksheets contained in the instructions of the Form. All applicants continue to be required to certify that their facilities comply with the Commission's maximum permissible RF limits. The elimination of the exhibit requirement for radio broadcasters, conforms the question so it is now consistent with the requirements for licensees of broadcast television stations, translator (FM and TV stations), and low-power FM stations, who are not required to submit an exhibit. The instructions for Section III, Item 7 and Worksheet #1 Environmental have been revised accordingly.

Section V, Item 4 has been revised to clarify that Low Power TV ("LPTV") stations still need to file Form 396 with the renewal application, but that they may or may not need to file a public file report and post it to their Web site. The word "as" has been replaced with the word "if." The old version stated that stations are required to certify that they have created a public file report and posted it to their Web sites "as" required by regulation. The instructions have been revised to explain that for Section V, Item 4, only LPTV stations that are part of a station employment unit with full-power stations, where the unit employs at least five or more full-time employees, needs to file a public file report and post it to the station Web site. Other LPTV stations do not have to create a public file report because they do not have a public file.

Additionally, a small number of typographical errors have been corrected throughout the instructions and form.

Finally, the burden hours and burden costs published in the **Federal Register** on October 13, 2010 (75 FR 62816) have been reduced to reflect that only applicants for renewal of commercial broadcast stations are required to complete the new certification in Section II, Item 7 that their advertising sales agreements do not discriminate on the basis of race or ethnicity and that all such agreements contain nondiscrimination clauses.

On October 14, 2010, the Advisory Committee on Diversity for Communications in the Digital Age ("Advisory Committee") formally recommended that the Federal Communications Commission ("Commission") undertake a notice of proposed rulemaking to consider how the Commission could design, adopt, and implement an additional new preference program in its competitive bidding process. Under the proposed preference, persons or entities who have overcome substantial disadvantage would be eligible for a bidding credit. The Advisory Committee explains that the new preference "would expand the pool of designated entities to include those qualified applicants who have overcome substantial disadvantage," noting that the proposed program is
