

using the USPTO Design Classification system has continually improved through internal and external review of the coding and through internal training and quality-review procedures. The USPTO Design Classification system provides more accurate results, is available to all members of the public through the Internet, and is exclusively used by the examining attorneys at the USPTO.

Accordingly, the USPTO hereby gives notice of its intent to discontinue coding design marks with paper search designations. Any interested member of the public is invited to provide comments on this plan within thirty (30) days. The USPTO is providing this opportunity for public comment because the USPTO desires the benefit of public comment on the proposal; however, notice and an opportunity for public comment are not required under 5 U.S.C. 553(b) or any other law. See *Cooper Techs. Co. v. Dudas*, 536 F.3d 1330, 1336–37 (Fed. Cir. 2008) (stating that 5 U.S.C. 553, and thus 35 U.S.C. 2(b)(2)(B), does not require notice and comment rule making for “interpretative rules, general statements of policy, or rules of agency organization, procedure, or practice.” (quoting 5 U.S.C. 553(b)(A)). Persons submitting written comments should note that the USPTO may not provide a “comment and response” analysis of such comments as notice and an opportunity for public comment are not required.

Such subcommittees shall not work independently of the chartered Board, and shall report all their recommendations and advice to the Board for full deliberation and discussion. Subcommittees have no authority to make decisions on behalf of the chartered Board; nor can they report directly to the Department of Defense or any Federal officers or employees who are not Board members.

Subcommittee members, who are not Board members, shall be appointed by the Secretary of Defense according to governing DoD policy and procedures. Such individuals, if not full-time or part-time government employees, shall be appointed to serve as experts and consultants under the authority of 5
