The area described contains 303.66 acres, more or less, in Clark County.

The parcel is located in the northwest part of the Las Vegas Valley and contains the geologic feature known locally as Lone Mountain. The park is generally south of the intersection between Lone Mountain Road and the Bruce Woodbury Beltway.

In accordance with the R&PP Act, Clark County has filed an application in which it proposes to develop the above-described land as a regional park with a recreation center, swimming pool, library, ball fields, tennis courts,

basketball courts, playground, children's play area, restrooms, picnic areas, trailhead facilities, walking and jogging trails, parking lot, turf establishment, landscaping, lighting, utilities and ancillary equipment. Additional detailed information pertaining to this application, plan of development, and site plan is located in case file N-75701, which is available for review at the BLM Las Vegas Field Office at the above address.

Clark County is a political subdivision of the State of Nevada and is therefore a qualified applicant under the R&PP Act.

Subject to limitations prescribed by law and regulation, prior to patent issuance the holder of any right-of-way grant within the lease area may be given the opportunity to amend the right-of-way grant for conversion to a new term, including perpetuity, if applicable.

The land identified is not needed for any Federal purpose. The lease and/or conveyance is consistent with the BLM Las Vegas Resource Management Plan dated October 5, 1998, and would be in the public interest. Clark County has not applied for more than the 640-acre limitation for public purpose uses in a year and has submitted a statement in compliance with the regulations at 43 CFR 2741.4(b).

The lease and/or conveyance, when issued, will be subject to the provisions of the R&PP Act and applicable regulations of the Secretary of the Interior, and will contain the following reservations to the United States:

1. A right-of-way thereon for ditches or canals constructed by the authority of the United States, Act of August 30, 1890 (43 U.S.C. 945); and
2. All minerals shall be reserved to the United States, together with the right to prospect for, mine, and remove such deposits from the same under applicable law and such regulations as the Secretary of the Interior may prescribe.

Any lease and/or conveyance will also be subject to valid existing rights, will contain any terms or conditions required by law (including, but not limited to, any terms or conditions required by 43 CFR 2741.4), and will contain an appropriate indemnification clause protecting the United States from claims arising out of the lessee's/patentee's use, occupancy, or operations on the leased/patented lands. It will also contain any other terms and conditions deemed necessary and appropriate by the Authorized Officer. Any lease and/or conveyance will also be subject to:

1. Right-of-way N-66444 for road and sewer purposes granted to the City of Las Vegas, its successors or assigns,

pursuant to the Federal Land Policy and Management Act (FLPMA) of October 21, 1976 (43 U.S.C. 1761);

2. Right-of-way N-52803 for detention basin purposes granted to the City of Las Vegas, its successors or assigns, pursuant to FLPMA;

3. Right-of-way N-62096 for water pipeline purposes granted to the Las Vegas Valley Water District, its successors or assigns, pursuant to FLPMA;

4. Right-of-way N-66793 for telephone line purposes granted to the Central Telephone Co., its successors or assigns, pursuant to FLPMA; and

5. Right-of-way N-74688 and Nev043546 for power line purposes granted to Nevada Power Co., its successors or assigns, pursuant to FLPMA;

On December 29, 2010 the land described above will be segregated from all other forms of appropriation under the public land laws, including the general mining laws, except for lease and/or conveyance under the R&PP Act, leasing under the mineral leasing laws, and disposals under the mineral material disposal laws.

Interested parties may submit written comments on the suitability of the land for a regional park. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with State and Federal programs.

Interested parties may submit written comments regarding the specific use proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching the decision, or any other factor not directly related to the suitability of the land for R&PP use.

Only written comments to the Field Manager, BLM Las Vegas Field Office, will be considered properly filed. Any adverse comments will be reviewed by the BLM Nevada State Director who may sustain, vacate, or modify this realty action. In the absence of any adverse comments, the classification of the land described in this notice will become effective on February 28, 2011. The land will not be available for lease or conveyance until after the classification becomes effective.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time.

Bureau of Reclamation

Change in Discount Rate for Water Resources Planning

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of change.

SUMMARY: The Water Resources Planning Act of 1965 and the Water Resources Development Act of 1974 require an annual determination of a discount rate for Federal water resources planning. The discount rate for Federal water resources planning for fiscal year 2011 is 4.125 percent. Discounting is to be used to convert future monetary values to present values.

DATES: This discount rate is to be used for the period October 1, 2010, through and including September 30, 2011.

FOR FURTHER INFORMATION CONTACT: Brooke Miller-Levy, Water and Environmental Resources Division, Denver, Colorado 80225; telephone: 303-445-2889.

SUPPLEMENTARY INFORMATION: Notice is hereby given that the interest rate to be used by Federal agencies in the formulation and evaluation of plans for water and related land resources is 4.125 percent for fiscal year 2011.

This rate has been computed in accordance with Section 80(a), Public Law 93-251 (88 Stat. 34) and 18 CFR 704.39, which: (1) specify that the rate will be based upon the average yield during the preceding fiscal year on interest-bearing marketable securities of the United States which, at the time the computation is made, have terms of 15 years or more remaining to maturity (average yield is rounded to nearest one-eighth percent); and (2) provide that the rate will not be raised or lowered more than one-quarter of 1 percent for any year. The U.S. Department of the Treasury calculated the specified average to be 4.1620 percent. This average value is then rounded to the

nearest one-eighth of a point, resulting in 4.125 percent.

The rate of 4.125 percent will be used by all Federal agencies in the formulation and evaluation of water and related land resources plans for the purpose of discounting future benefits and computing costs or otherwise converting benefits and costs to a common-time basis.

Dated: December 3, 2010.

Roseann Gonzales,

Director, Policy and Administration, Denver Office.
