II. Background

A. What action is the agency taking?

The Agency is announcing the issuance of a Pesticide Registration Notice (PR-2011-1) that addresses the data development efforts of the Residential Exposure Joint Venture (REJV). When registering or periodically reviewing an existing registration, the Agency evaluates the potential risks to people from exposure to the pesticide in and around the home. The REJV was formed to develop information on the actual use patterns of residential pesticides that can be used by EPA, and other regulatory agencies responsible for assuring the safety of pesticides. The purpose of the PR Notice is to describe what data the REJV plans to generate, to describe how EPA expects to use the data, and to inform registrants of the opportunity to join REJV.

B. What is the agency's authority for taking this action?

The PR Notice discussed in this notice is intended to provide information to EPA personnel and decision makers and to pesticide registrants. While the requirements in the statutes and Agency regulations are binding on EPA and the applicants, this PR Notice is not binding on either EPA or pesticide registrants, and EPA may depart from the guidance where circumstances warrant and without prior notice. Likewise, pesticide registrants may assert that the guidance is not appropriate generally or not applicable to a specific pesticide or situation.
