## DEPARTMENT OF STATE

[Public Notice: 7286]

### Notice of Receipt of Application for a Presidential Permit To Operate and Maintain Pipeline Facilities on the Border of the United States

Notice is hereby given that the Department of State received on May 14, 2010 an updated application from Dome Petroleum Corp., a North Dakota corporation ("Dome Petroleum"), with its registered office at 30600 Telegraph Road, Bingham Farms, Michigan 48025, and its principal offices at 240n 4th Avenue, SW., Calgary, Alberta, Canada T2P 2H8, for a Presidential permit, pursuant to Executive Order 13337 of April 30, 2004, to operate and maintain six (6) cross-border pipelines Dome Petroleum acquired from Dome Pipeline Corporation ("Dome Pipeline"). These pipelines carry, or are permitted to carry, liquefied hydrocarbons under pressure between the United States and Canada. The pipelines cross from the City of Sarnia in Canada to the United States underneath the St. Clair River, terminating on the American shore in the City of Marysville, Michigan at a property commonly known as Tax Parcel No. 74-03-032-2002-000, and also underneath the adjacent River Road.

According to the application, on March 15, 2007, Dome Pipeline was sold to Kinder Morgan Energy Partners LP, a master limited partnership with its principal office in Houston, Texas, by Dome Petroleum, the former parent corporation of Dome Pipeline. The application states that the sale was a stock sale, with the provision that some of the assets held by Dome Pipeline were to be transferred back to its former parent Dome Petroleum, and that, under

the terms of the sale, the ownership of the pipelines which are the subject of this Application, and any related permits, easements, licenses and leases, were transferred back to Dome Petroleum.

Because of the transfer of ownership of the pipelines and related real properties, leases, licenses, easements and permits, Dome Petroleum now seeks to have new permits issued in its name to reflect the transfer of ownership of the pipelines and permission to operate, maintain and repair these pipelines underneath the St. Clair River.

The present Application would supersede an authorization to cross the border granted by President Woodrow Wilson on June 10, 1918 with regard to permit No. 88253/18 granted by the Secretary of War on June 8, 1918 for two pipelines (discussed below—Two Pipelines). It would also cover four additional pipelines permitted from the U.S. Army Corps of Engineers (discussed below—Four Pipelines).

#### Existing Permit No. 88253/18—Two Pipelines

A permit for two pipelines to cross the international border was issued by the U.S. Secretary of War to the Imperial Pipe Line Company on June 8, 1918. According to records provided with the application, the Imperial Pipeline Company assigned its pipeline permit rights to the Transit and Storage Company on December 28, 1936 and the Transit and Storage Company was acquired by Buckeye Pipe Line Company in 1953. The records also appear to show that Buckeye Pipe Line sold these pipelines to Dome Pipeline Corporation on June 28, 1971. The records provided to the Department with the application also include a letter from the Office of the Legal Adviser at the U.S. State Department dated June 1, 1971, acknowledging notice of the sale to Dome Petroleum and not objecting to the sale/purchase of the two pipelines.

The existing permit allows these pipelines to transport crude oil. However, according to the application, the pipelines are not actively carrying product currently, but rather are being held in reserve to be used in the event of an increase in demand or as backup to the active pipelines operated under Permit 73-12-19 (discussed below). The application states that the pipelines are not abandoned but are maintained under pressure with an inert gas, and continue to receive cathodic protection to protect against corrosion.

#### Existing Permit No. 73-12-19—Four Pipelines

On October 16, 1973, Dome Pipeline Corporation received Permit No. 73-12-19 from the U.S. Army Corps of Engineers (COE) to construct up to four (4) additional pipelines to carry liquefied hydrocarbons. According to the application, all four (4) pipelines were constructed prior to the December 31, 1976 deadline set forth in Permit 73-12-19. The application goes on to state, however, that only two of these pipelines currently actively transport liquefied hydrocarbons under pressure and that the remaining two pipelines are being held in reserve to be used in the event of an increase in demand or alternate method of transporting product is required. The application asserts that the latter two pipelines are not abandoned but rather are maintained under pressure with an inert gas, and continue to receive cathodic protection to protect against corrosion.

According to the **Federal Register** notice issued on May 31, 2005, transferee entities are required to submit applications for new permits that contain "information explaining the nature of the entity, its ownership, its place of incorporation or organization, information concerning its acquisition of relevant facility, bridge or border crossing from the prior permit holder and any other relevant information concerning its operation of the facility, bridge or border crossing." (70 FR 30990). In addition, the notice provides that, if the "transferee commits to abiding by the relevant terms and conditions of the previously-issued permit and further indicates that the operations of the relevant facility, bridge or border crossing will remain essentially unchanged from that previously permitted, the Department of State, pursuant to 22 CFR 161.7(b)(3), does not intend to conduct an environmental review of the application under its regulations implementing the National Environmental Policy Act, 22 CFR part 161, unless information is brought to its attention in connection with the application process that the transfer potentially would have a significant impact on the quality of the human environment."

According to the application, Dome Petroleum has, in written correspondence to the Department of State, committed to abide by the relevant terms and conditions of the permits previously issued to Dome Pipeline or its predecessors-in-interest with regard to these six (6) pipelines. Further, Dome Petroleum has indicated in correspondence that there have been

no substantial changes in the operations of all six (6) pipelines than those originally authorized and further stated that the future operation of the pipelines will remain essentially unchanged from that previously permitted. Therefore, in accordance with 22 CFR 161.7(b)(3) and the Department's Procedures for Issuance of a Presidential Permit Where There Has Been a Transfer of the Underlying Facility, Bridge or Border Crossing for Land Transportation (70 FR 30990, May 31, 2005), the Department of State does not intend to conduct an environmental review of the application unless information is brought to its attention that the transfer potentially would have a significant impact on the quality of the human environment.

As required by E.O. 13337, the Department of State is circulating this application to concerned Federal agencies for comment.

**DATES:** Interested parties are invited to submit, in duplicate, comments relative to this application on or before February 4, 2011 to Michael P. Stewart, Office of International Energy and Commodity Policy (EB/ESC/IEC/EPC), Department of State, Washington, DC 20520; or by telephone at (202) 647-1291; or by e-mail at [StewartMP@State.gov](mailto:StewartMP@State.gov). The application and related documents that are part of the record to be considered by the Department of State in connection with this application are available for inspection in the Office of International Energy and Commodities Policy during normal business hours.

**FOR FURTHER INFORMATION CONTACT:** For information regarding environmental concerns and permitting, contact Alex Yuan at (202) 647-4284; or by e-mail at [YuanAW@State.gov](mailto:YuanAW@State.gov). For all other concerns, contact Michael P. Stewart, Office of International Energy and Commodity Policy (EB/ESC/IEC/EPC), Department of State, Washington, DC 20520; or by telephone at (202) 647-1291; or by e-mail at [StewartMP@State.gov](mailto:StewartMP@State.gov).

Dated: December 29, 2010.

**DEPARTMENT OF TRANSPORTATION**

**Federal Aviation Administration**

**Commercial Space Transportation Advisory Committee—Public Teleconference**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of Commercial Space Transportation Advisory Committee Teleconference.

**SUMMARY:** Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C. App. 2), notice is hereby given of a teleconference of the Commercial Space Transportation Advisory Committee (COMSTAC). The teleconference will take place on Thursday, January 20, 2011, starting at 1:30 p.m. Eastern Standard Time. Individuals who plan to participate should contact Susan Lender, DFO, (the Contact Person listed below) by phone or e-mail for the teleconference call in number.

The proposed agenda for this teleconference is to review the structure of the COMSTAC Working Groups. The Committee will examine the current Working Groups and discuss whether it should make changes to the current structure. If changes are necessary, what should they be?

Interested members of the public may submit relevant written statements for the COMSTAC members to consider under the advisory process. Statements may concern the issues and agenda items mentioned above or additional issues that may be relevant for the U.S. commercial space transportation industry. Interested parties wishing to submit written statements should contact Susan Lender, DFO, (the Contact Person listed below) in writing (mail or e-mail) by January 14, 2011, so that the information can be made available to COMSTAC members for their review and consideration before the January 20, 2011, teleconference. Written statements should be supplied in the following formats: one hard copy with original signature or one electronic copy via e-mail.

An agenda will be posted on the FAA Web site at <http://www.faa.gov/go/ast>.

Individuals who plan to participate and need special assistance should inform the Contact Person listed below in advance of the meeting.

**FOR FURTHER INFORMATION CONTACT:** Susan Lender (AST-100), Office of Commercial Space Transportation (AST), 800 Independence Avenue, SW., Room 325, Washington, DC 20591, telephone (202) 267-8029; E-mail

[susan.lender@faa.gov](mailto:susan.lender@faa.gov). Complete information regarding COMSTAC is available on the FAA Web site at: [http://www.faa.gov/about/office\\_org/headquarters\\_offices/ast/advisory\\_committee/](http://www.faa.gov/about/office_org/headquarters_offices/ast/advisory_committee/).

Issued in Washington, DC, December 29, 2010.

**Federal Highway Administration**

[Docket No. FHWA-2010-0180]

**Agency Information Collection Activities: Request for Comments for a New Information Collection**

**AGENCY:** Federal Highway Administration (FHWA), DOT.

**ACTION:** Notice and request for comments.

**SUMMARY:** The FHWA has forwarded the information collection request described in this notice to the Office of Management and Budget (OMB) for approval of a new information collection. We published a Federal Register Notice with a 60-day public comment period on this information collection on September 7, 2010. We are required to publish this notice in the **Federal Register** by the Paperwork Reduction Act of 1995.

**DATES:** Please submit comments by February 4, 2011.

**ADDRESSES:** You may send comments within 30 days to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention DOT Desk Officer. You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burden; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. All comments should include the Docket number FHWA-2010-0180.

**FOR FURTHER INFORMATION CONTACT:** Kathleen Bergeron, (202) 366-5508, Office of Infrastructure, Federal Highway Administration, Department of Transportation, 1200 New Jersey
