SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a guidance that provides recommendations related to reports under section 905(j) of the FD&C Act (21 U.S.C. 387e(j)), as amended by the Family Smoking Prevention and Tobacco Control Act (the Tobacco Control Act) (Pub. L. 111–31). Section 905(j) authorizes FDA to establish the form for the submission of information related to substantial equivalence. The guidance is intended to assist persons submitting reports under section 905(j) of the FD&C Act. It explains, among other things, FDA’s interpretation of the statutory sections related to substantial equivalence, and provides recommendations on the form and content of section 905(j) reports. The guidance also provides information on FDA’s review of 905(j) reports.

II. Significance of Guidance

FDA is issuing this guidance document as a level 1 guidance consistent with FDA’s CGPs (§ 10.115 (21 CFR 10.115)). The guidance discusses premarket statutory requirements that include certain submissions to be made to FDA no later than March 22, 2011. This guidance document is being implemented immediately without prior public comment under § 10.115(g)(2) because the Agency has determined that prior public participation is not feasible or appropriate, as interested parties need clarity as to FDA’s expectations regarding 905(j) reports and sufficient time to prepare submissions in advance of the statutory deadline.

Manufacturers of tobacco products first introduced or delivered for introduction into interstate commerce for commercial distribution after February 15, 2007, and prior to March 22, 2011, must submit the report no later than March 22, 2011, or the tobacco product can no longer be legally marketed. If a 905(j) report is submitted prior to March 23, 2011, the tobacco product may continue to be marketed unless FDA issues an order that the tobacco product is not substantially equivalent to the predicate tobacco product (section 910(a)(2)(B) of the FD&C Act (21 U.S.C. 387j(a)(2)(B)), as amended by the Tobacco Control Act). It is important that this guidance be available in advance of March 23, 2011, to assist manufacturers in preparing 905(j) reports.

For 905(j) reports for tobacco products first marketed between February 15, 2007, and March 22, 2011 (many of which are from small manufacturers) that are submitted prior to March 23, 2011, FDA intends to allow manufacturers who have acted diligently in preparing their submissions a reasonable amount of time to supplement their initial submissions, provided these manufacturers submit a 905(j) report by the statutory deadline. FDA intends to determine what constitutes a reasonable period of time on a case-by-case basis. This guidance does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statute and regulations.

III. Paperwork Reduction Act of 1995

This guidance contains information collection provisions that are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The collection of information in this guidance was approved under OMB control number 0910–0673.

IV. Comments

This guidance document is being implemented immediately without prior public comment under § 10.115(g)(2) because the Agency has determined that prior public participation is not feasible or appropriate, as interested parties need clarity as to FDA’s expectations regarding 905(j) reports and sufficient time to prepare submissions in advance of the statutory deadline.

Managers of tobacco products may, upon request, be entitled to receive written comments on this document from interested parties. The comments must be submitted to the Division of Dockets Management (see ADDRESSES) either electronic or written comments regarding this document. It is only necessary to send one set of comments. It is no longer necessary to send two copies of mailed comments. Identify comments with the document number found in brackets in the heading of this document. Received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday. FDA will review any comments we receive and revise the guidance document when appropriate.
