Dated: January 6, 2011.
Carol E. Walker,
Acting Reports Clearance Officer, Centers for Disease Control and Prevention.

The burden is calculated based on the assumption of querying at most 100% of all available State, territorial (60) and county (3000) health officials/employees and a representative sample of at most 100 municipal/city employees. CDC estimates that it will conduct up to 48 queries with State, territorial or tribal health officials/employees, 6 queries with county health employees, and 6 queries with municipal health employees each year. The total annualized burden hour estimate is 40,080. There are no costs to respondents other than their time.
