Priorities for Addressing Risks to the Reliability of the Bulk-Power System; Notice of Technical Conference

Take notice that the Federal Energy Regulatory Commission will hold a Technical Conference on Tuesday, February 8, 2011 from 10 a.m. to 5 p.m. This Commissioner-led conference will be held in the Commission Meeting Room at the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. The conference will be open for the public to attend and advance registration is not required. The purpose of the conference is to discuss policy issues related to reliability of the Bulk-Power System, including priorities for addressing risks to reliability.

The agenda for this conference will be issued at a later date. Information on this event will be posted on the Calendar of Events on the Commission’s Web site, http://www.ferc.gov, prior to the event. The conference will be Webcast. Anyone with Internet access who desires to listen to this event can do so by navigating to http://www.ferc.gov’s Calendar of Events and locating this event in the Calendar. The event will contain a link to the webcast. The Capitol Connection provides technical support for webcasts and offers the option of listening to the meeting via phone-bridge for a fee. If you have any questions, visit http://www.CapitolConnection.org or call 703–993–3100.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an e-mail to accessibility@ferc.gov or call toll free 1–866–208–3372 (voice) or 202–208–1659 (TTY), or send a FAX to 202–208–2106 with the required accommodations.

For more information about this conference, please contact: Sarah McKinley, Office of External Affairs, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, (202) 502–8368, sarah.mckinley@ferc.gov.

Notice of Staff Attendance at Southwest Power Pool Markets and Operation Policy Committee and Strategic Planning Committee Meetings

January 5, 2011.

The Federal Energy Regulatory Commission hereby gives notice that members of its staff may attend the meetings of the Southwest Power Pool, Inc. (SPP) Markets and Operations Policy Committee (MOPC) and the Strategic Planning Committee (SPC), as noted below. Their attendance is part of the Commission’s ongoing outreach efforts.

SPP MOPC

January 11, 2011 (1 p.m.–5 p.m.), January 12, 2011 (8 a.m.–3 p.m.), Doubletree Hotel, 300 Canal Street, New Orleans, LA 70130. 504–581–1300.

The discussions may address matters at issue in the following proceedings:

Docket No. ER09–659, Southwest Power Pool, Inc.
Docket No. ER09–1050, Southwest Power Pool, Inc.
Docket No. OA08–61, Southwest Power Pool, Inc.
Docket No. OA08–104, Southwest Power Pool, Inc.
Docket No. ER10–659, Southwest Power Pool, Inc.
Docket No. ER10–696, Southwest Power Pool, Inc.
Docket No. ER10–941, Southwest Power Pool, Inc.
Docket No. ER10–1069, Southwest Power Pool, Inc.
Docket No. ER10–1254, Southwest Power Pool, Inc.

Project No. 13863–000

Mount Storm Hydro, LLC; Notice of Preliminary Permit Application
Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

January 6, 2011.

On October 14, 2010, Mount Storm Hydro, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Mount Storm Pumped Storage Project to be located near Maysville, in Grant County, West Virginia. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners’ express permission.

The project would consist of two artificial, lined reservoirs created by the construction of embankments. Two options for the upper reservoir site are proposed. The Option A upper reservoir would be joined with the lower reservoir by approximately 7,600 feet of conduit. Equipment would consist of one 200-megawatt (MW), one 100-MW, and one 50-MW reversible pump-turbines, totaling 350 MW of generating capacity, with up to 100 MW of additional pumping capacity, for a total of 450 MW pumping capacity. Annual energy production is projected to be approximately 1,073,100 megawatt-hours (MWh).

The Option B upper reservoir would be joined with the lower reservoir by approximately 13,870 feet of conduit. Maximum hydraulic head would be one 1,470 feet. Equipment would consist of one 150-MW, one 100-MW, and one 50-MW reversible pump-turbines, totaling 300 MW of generating capacity, with up to 100 MW of additional pumping capacity, for a total of 400 MW pumping capacity. Annual energy production is projected to be approximately 919,800 MWh.

For either option, the project would interconnect with either of three possible 500-kilovolt (kV) lines on the Allegheny Power system via a new, single-circuit 230-kV line about 4 miles in length. These 500-kV lines include the Greenwood Gap-Meadow Brook line, the Mt. Storm-Doubs line, and the planned Trans-Allegheny Interstate line.

Applicant Contact: Matthew Shapiro, CEO, Gridflex Energy, LLC, 1210 W. Franklin St., Ste. 2, Boise, ID 83702; phone: (904) 216–0254, e-mail: mshapiro@gridflexenergy.com.

FERC Contact: John Mudre (202) 502–8902 or john.mudre@ferc.gov.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent may meet the requirements of 18 CFR 4.36. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(ii) and the instructions on the Commission’s Web site http://www.ferc.gov/docs-filing/efiling.asp. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at http://www.ferc.gov/docs-filing/ecomment.asp. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

More information about this project, including a copy of the application, can be viewed or printed on the “eLibrary” link of the Commission’s Web site at http://www.ferc.gov/docs-filing/elibrary.asp. Enter the docket number (P–13863–000) in the docket number field to access the document. For assistance, contact FERC Online Support at FERCONlineSupport@ferc.gov; call toll-free at (866) 208–3676; or, for TTY, contact (202) 502–8659.

Kimberly D. Bose,
Secretary.

(Docket No. CP11–55–000)

Gulf South Pipeline Company, LP; Notice of Request Under Blanket Authorization

January 5, 2011.

Take notice that on December 20, 2010, Gulf South Pipeline Company, LP (Gulf South), 9 Greenway Plaza, Suite 2800, Houston, Texas 77046, filed in Docket No. CP11–55–000, a prior notice request pursuant to sections 157.205 and 157.2216 of the Federal Energy Regulatory Commission’s regulations under the Natural Gas Act (NGA) and Gulf South’s blanket certificate for authorization to construct, operate, and maintain one new 8,180 horsepower (hp) compressor unit at the existing Hall Summit Compressor Station located in Bienvenue Parish, Louisiana. Specifically, Gulf South seeks to enhance service provided to customers from its Bistinieu Storage Field (Bistinieu) by increasing pressure of the gas flowing on its line Index 266–17 from Bistinieu to allow it to enter Gulf South’s high pressure 42-inch pipeline. Gulf South avers that the new unit will operate only as a pressure management unit and no new capacity will be created, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at http://www.ferc.gov using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCONlineSupport@ferc.gov or call toll-free, (866) 208–3676 or TTY, (202) 502–8659.
