SUPPLEMENTARY INFORMATION: Title:

Upcoming Projects Considering the Use of Outer Continental Shelf Sand, Gravel, and Shell Resources for Coastal Restoration and/or Beach Nourishment.

OMB Control Number: 1010-NEW.

Abstract: BOEMRE, under the authority delegated by the Secretary of the Interior, is authorized pursuant to section 8(k)(2) of the OCS Lands Act (43 U.S.C. 1337(k)(2)), to convey rights to OCS sand, gravel, and shell resources by noncompetitive negotiated agreement (NNA) for use in shore protection and beach and coastal restoration, or for use in construction projects funded, in whole or part by, or authorized by the Federal Government.

Since 1995, 22 shore protection or beach and coastal restoration projects have been completed using OCS sand

resources. Recently, the program has seen an increase in projects and need for OCS resources due to the decreasing amounts of sand located in State waters. Because of this increase, BOEMRE needed to develop a mechanism to plan for future projects and anticipated workload. Therefore, BOEMRE will issue an annual call for information about resources and locations from interested parties to develop an annual NNA Project Schedule. The NNA Project Schedule will help BOEMRE determine appropriate future resource allocation, conduct environmental analyses, develop NNAs, and meet all necessary environmental and legal requirements.

Responses are submitted to BOEMRE annually and are to obtain or retain a benefit (43 U.S.C. 1337). No questions of a sensitive nature are asked. BOEMRE will protect any proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR 2).

Frequency: Annually.

Description of Respondents:

Approximately 9 States and 50 counties associated with the States.

Estimated Reporting and Recordkeeping Hour Burden: The estimated annual hour burden for this information collection is a total of 95 hours. Individual County Compilation: 50 counties × 1 hour/county = 50 hours; Individual State Compilation: 9 States × 5 hours/State = 45 hours (50 county hours and 45 State hours = 95 total burden hours). In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified no paperwork non-hour cost burdens associated with the collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *" Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is
