Census Bureau

Proposed Information Collection; Comment Request; 2012 Economic Census Covering the Retail Trade and Accommodation and Food Services Sectors

AGENCY: U.S. Census Bureau.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995,

Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: To ensure consideration, written comments must be submitted on or before March 21, 2011.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Fay Dorsett, U.S. Census Bureau, Service Sector Statistics Division, HQ-8K071, 4600 Silver Hill Road, Washington, DC 20233-0001 (301-763-2687 or via the Internet at rcb@census.gov).

SUPPLEMENTARY INFORMATION:

I. Abstract

The economic census, conducted under authority of Title 13, United States Code (USC), is the primary source of facts about the structure and functioning of the Nation's economy. Economic statistics serve as part of the framework for the national accounts and provide essential information for government, business, and the general public. Economic data are the Census Bureau's primary program commitment during nondecennial census years. The 2012 Economic Census covering the Retail Trade and Accommodation and Food Services sectors (as defined by the North American Industry Classification System (NAICS)) will measure the economic activity of more than 1.7 million establishments. The information collected will produce basic statistics by kind of business on the number of establishments, sales, payroll, and employment. It will also yield a variety of subject statistics, including sales by product line, sales by class of customer, and other industry-specific measures. Primary strategies for reducing burden in Census Bureau economic data collections are to increase reporting through standardized questionnaires and broader electronic data collection methods.

II. Method of Collection

Mail Selection Procedures

Establishments in the Retail Trade and Accommodation and Food Services sectors of the economic census will be selected from the Census Bureau's Business Register for a mail canvass. To be eligible for selection, an establishment will be required to satisfy

the following conditions: (i) It must be classified in the Retail Trade or Accommodation and Food Services sector; (ii) it must be an active operating establishment of a multi-establishment firm (*i.e.*, a firm that operates at more than one physical location), or it must be a single-establishment firm with payroll (*i.e.*, a firm operating at only one physical location); and (iii) it must be located in one of the 50 States or the District of Columbia. Mail selection procedures will distinguish the following groups of establishments:

1. Establishments of Multi-Establishment Firms

All active operating establishments of multi-establishment firms will be included in the mail component of the potential respondent universe. We estimate that the 2012 Economic Census mail canvasses for the Retail Trade and Accommodation and Food Services sectors will include approximately 710,000 establishments of multi-establishment firms.

2. Single-Establishment Firms With Payroll

As an initial step in the selection process, we will conduct a study of the potential respondent universe. This study will produce a set of industry-specific payroll cutoffs that we will use to distinguish large versus small single-establishment firms within each industry or kind of business. This payroll size distinction will affect selection as follows:

a. Large Single-Establishment Firms

All single-establishment firms having annualized payroll (from Federal administrative records) that equals or exceeds the cutoff for their industry will be included in the mail component of the potential respondent universe. We estimate that the 2012 Economic Census mail canvasses for the Retail Trade and Accommodation and Food Services sectors will include approximately 274,000 large single-establishment firms.

b. Small Single-Establishment Firms

A sample of single-establishment firms having annualized payroll below the cutoff for their industry will be included in the mail component of the potential respondent universe. Sampling strata and corresponding probabilities of selection will be determined by a study of the potential respondent universe conducted shortly before the mail selection operations begin. We estimate that the 2012 Economic Census mail canvasses for the Retail Trade and Accommodation and

Food Services sectors will include approximately 217,000 small single-establishment firms selected in this sample.

All remaining single-establishment firms with payroll will be represented in the census by data from Federal administrative records. Generally, we will not include these small employers in the census mail canvasses. However, administrative records sometimes have fundamental industry classification deficiencies that make them unsuitable for use in producing detailed industry statistics by geographic area. When we find such a deficiency, we will mail the firm a census classification form. We estimate that the 2012 Economic Census mail canvasses for the Retail Trade and Accommodation and Food Services sectors will include approximately 133,000 small single-establishment firms that receive these forms.

III. Data
