**Background and Purpose**

The Coast Guard Maritime Transportation Act (CGMTA) of 2006 (section 421) authorized United States–documented purse seine vessels fishing for highly migratory species (under a license issued pursuant to the 1987 South Pacific Tuna Treaty [SPTT]) to use foreign citizens, except for the master, to meet manning requirements if no United States citizen personnel are readily available. The manning exemption was only applicable to vessels operating in and out of American Samoa. That authorization was for a 48-month period and ended on July 11, 2010.

Section 904 of the 2010 Coast Guard Authorization Act (CGAA), signed into law (Pub. L. 111–281) on 15 October 2010.
2010, reauthorized for a period of two years the use of foreign citizens (excluding the master) on United States-documented purse seine vessels in the Distant Water Tuna Fleet (DWTF). This reauthorized manning exemption also only applies to vessels operating in and out of American Samoa. In addition, the 2010 CGAA added a safety examination requirement such that a vessel’s owner/operator may not employ a foreign citizen to meet a manning requirement unless it first successfully completes an annual dockside safety examination by an individual authorized to enforce part B of subtitle II of title 46, United States Code. Furthermore, the 2010 CGAA also amended 46 U.S.C. 4502 establishing requirements for an individual in charge of a vessel to keep a record of equipment maintenance and required instruction and drills, and for a vessel to be issued a certificate of compliance upon successfully completing a dockside safety examination. The reauthorization retained the restriction that a foreign officer engaged to fill a position must hold a valid license or certificate issued in accordance with the International Convention on Standards of Training, Certification, and Watchkeeping for Seafarers, as amended, standards and by an authority recognized by the Coast Guard. The manning exemption reauthorization is set to expire December 31, 2012.

We are requesting your comments for consideration in preparing the final Coast Guard policy that is intended to clarify the requirements enabling a DWTF vessel to take advantage of the temporary manning exemption.

SUPPLEMENTARY INFORMATION: The Towing Safety Advisory Committee (TSAC) (“Committee”) is a Federal advisory committee under 5 U.S.C. App. (Pub. L. 92–463). It was established under authority of the Act to establish a Towing Safety Advisory Committee in the Department of Transportation, Public Law 96–380, which was most recently amended by section 621 of the Coast Guard Authorization Act of 2010, Public Law 111–281. The Committee advises the Secretary of Homeland Security on matters relating to shallow-draft inland and coastal waterway navigation and towing safety. This advice also assists the Coast Guard in formulating the position of the United States regarding the towing industry in advance of International Maritime Organization meetings.

The Committee meets at least twice a year either in the Washington DC area or in cities with large towing centers of commerce and populated by high concentrations of towing industry and related businesses. It may also meet for extraordinary purposes. Subcommittees and workgroups may conduct intercessional telephonic meetings when necessary for specific tasking. The 18 members include:

- Seven members representing the Barge and Towing industry (reflecting a regional geographical balance);
- One member representing the offshore mineral and oil supply vessel industry;
- One member representing holders of active licensed Masters or Pilots of towing vessels with experience on the Western Rivers and the Gulf Intracoastal Waterway;
- One member representing the holders of active licensed Masters of towing vessels in offshore service;
- One member representing Masters who are active ship-docking or harbor towing vessel;
- One member representing licensed or unlicensed towing vessel engineers with formal training and experience;
- Two members each representing the following sectors:
  - Port districts, port authorities or terminal operators;
  - Shippers (of whom one must be engaged in the shipment of oil or hazardous materials by barge);
- Two members representing the General Public.

The Coast Guard is currently considering applications for eight positions, four current positions that will become vacant on September 30, 2011 and four newly created active-credentialed positions, resulting from amendments to the committee membership by section 621 of the 2010 Coast Guard Authorization Act, Public Law 111–281:

- Two representatives from the Barge and Towing industry;
  - One representative from port districts, port authorities or terminal operators;
  - One holder of an active license as Master or Pilot of towing vessels with experience on the Western Rivers and the Gulf Intracoastal Waterway;
  - One holder of an active license as Master of towing vessels in offshore service.
- One active Master of a ship-docking or harbor towing vessel;
- One licensed or unlicensed towing vessel engineer with formal training and experience.
- One member from the General Public.

To be eligible, applicants should have expertise, knowledge, and experience relative to the position in the towing industry, marine transportation, or business operations associated with shallow-draft inland and coastal waterway navigation and towing safety. Registered lobbyists are not eligible to serve on Federal advisory committees. Registered lobbyists are lobbyists required to comply with provisions
