[Docket No. USCG-2010-1142]

Drawbridge Operation Regulation; Chickasaw Creek, AL

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Eighth Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the CSX Railroad Swing Span Bridge across Chickasaw Creek, mile 0.0, in Mobile, Alabama. The deviation is necessary to replace railroad ties on the bridge. This deviation allows the bridge to remain closed for nine hours with a one-hour mid-day opening on February 8 and 9, 2011.

DATES: This deviation is effective from 7 a.m. on Tuesday, February 8, 2011 until 4 p.m. on Wednesday, February 9, 2011.

They are also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION: The CSX Transportation has requested a temporary deviation from the operating schedule for the Swing Span Bridge across Chickasaw Creek, mile 0.0, in Mobile, Alabama. The bridge has a vertical clearance of 6 feet above mean high water in the closed-to-navigation position and unlimited in the open-to-navigation position.

In accordance with 33 CFR 117.5, the bridge currently opens on signal for the passage of vessels. This deviation allows the bridge to remain closed to navigation for two (2) four-hour periods on two consecutive days with a one-hour opening in the middle of the closures. The bridge will remain closed to navigation from 7 a.m. until 11 a.m. and from noon until 4 p.m. on Tuesday, February 8, 2011 and Wednesday, February 9, 2011. At all other times, the bridge will open on signal for the passage of vessels.

The closure is necessary in order to change out railroad ties on the bridge. This maintenance is essential for the continued operation of the bridge. Notices will be published in the Eighth Coast Guard District Local Notice to Mariners and will be broadcast via the Coast Guard Broadcast Notice to Mariners System.

Navigation on the waterway consists mainly of tugs with tows and ships. As a result of coordination between the Coast Guard and the waterway users, this closure has been scheduled to minimize the possibility of any significant effects on these vessels. There are no alternate routes available to vessel traffic. The bridge will not be able to open for emergencies.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the

end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: January 3, 2011.

David M. Frank,

Bridge Administrator.

Approval and Promulgation of One-Year Extension for Attaining the 1997 8-Hour Ozone Standard for the New Jersey Portion of the Philadelphia-Wilmington-Atlantic City Moderate Nonattainment Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving an extension from June 15, 2010 to June 15, 2011 of the applicable attainment date for the New Jersey portion of the Philadelphia-Wilmington-Atlantic City 1997 8-hour ozone nonattainment area (Philadelphia Area), which is classified as moderate nonattainment for the 1997 8-hour ozone national ambient air quality standard (NAAQS). This extension is based in part on complete, quality-assured air quality data recorded during the 2009 ozone season. In accordance with requirements for a 1-year extension, the Philadelphia Area’s 4th highest daily 8-hour monitored ozone value during the 2009 ozone season at each monitor in the area is less than 0.084 parts per million (ppm). EPA is revising the table with regard to the 8-hour ozone attainment date for the New Jersey portion of the Philadelphia Area.

DATES: *Effective Date:* This rule is effective on February 22, 2011.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA–R02–OAR–2010–0688. All documents in the docket are listed on the <http://www.regulations.gov> Web site. SUPPLEMENTARY INFORMATION:

I. Background

On June 23, 2010, the State of New Jersey requested a one-year attainment date extension for the Philadelphia Area. The Philadelphia Area, which is classified as moderate for the 1997 8-hour ozone National Ambient Air Quality Standards (NAAQS), consists of Cecil County in Maryland; Bucks, Chester, Delaware, Montgomery and Philadelphia Counties in Pennsylvania; the entire State of Delaware; and Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Mercer, Ocean, and Salem Counties in New Jersey. Since this area was classified as a moderate ozone nonattainment area, the statutory ozone attainment date, as prescribed by section 181(a) of the Clean Air Act (CAA), is June 15, 2010. New Jersey requested that the attainment date be extended to June 15, 2011.

On November 9, 2010 (75 FR 68733), EPA proposed to approve New Jersey’s request based upon:

(1) New Jersey has complied with all requirements and commitments pertaining to the area in the applicable ozone implementation plan. New Jersey’s applicable ozone implementation plan can be found at 40 CFR 52.1570; and

(2) The maximum 4th highest daily 8-hour monitored value at any monitoring site in the Philadelphia area during the 2009 ozone season was 0.074 ppm, which is below the 0.084 ppm criteria.

II. Comments

EPA received one comment in response to the proposal which supported the decision to approve an attainment date extension.

III. Final Action

Pursuant to CAA section 181(a) and 40 CFR 51.907, EPA is approving an attainment date extension from June 15, 2010 to June 15, 2011 for the New Jersey portion of the Philadelphia Area, which is classified as moderate for the 1997 8-hour ozone NAAQS. The table in 40 CFR 81.331 will be modified to reflect EPA’s approval of New Jersey’s
