SUPPLEMENTARY INFORMATION:

- I. Background on the New Mexico Program
- II. Description of the Proposed Amendment
- III. Public Comment Procedures
- IV. Procedural Determinations

I. Background on the New Mexico Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its State program includes, among other things, “a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of this Act * * *, and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act.” See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the New Mexico program on December 31, 1980. You can find background information on the New Mexico program, including the Secretary’s findings, the disposition of comments, and the conditions of approval of the New Mexico program in the December 31, 1980, **Federal Register** (45 FR 86459). You can also find later actions concerning New Mexico’s program and program amendments at 30 CFR 931.10, 931.11, 931.13, 931.15, 931.16, and 931.30.

II. Description of the Proposed Amendment

By letter dated September 1, 2010, New Mexico submitted the proposed amendment in response to OSM’s September 3, 2009, letter sent in accordance with 30 CFR 732.17(c). The letter notified New Mexico that changes and additions promulgated by OSM’s October 28, 1994, December 19, 2000, and December 3, 2007, amendments to the existing ownership and control rules, at 30 CFR 701, 773, 778, 840, 843 and 847, had been upheld in court and the State must respond by submitting changes to its Ownership and Control rules. New Mexico was thereby required to submit amendments to ensure its program remains consistent with the Federal program. This amendment package is intended to address all required rule changes pertaining to Ownership and Control.

Specifically, New Mexico proposes to amend its administrative rules at 19.8.1 NMAC, Section 7 (Definitions); 19.8.7 NMAC, Section 701 (Identification of Interests); 19.8.11 NMAC, Sections 1105 (Review of Permit Applications) and

1114 (Conformance of Permit); 19.8.20 NMAC, Section 2010 (Hydrologic Balance: Water Quality Standards and Effluent Limitations); 19.8.30 NMAC, Sections 3000 (Cessation Orders), 3003 (Service of Notices of Violation and Cessation Orders) and 3004 (Informal Hearings); 19.8.31 NMAC, Sections 3103 (Assessment of Separate Violation for Each Day) and 3109 (Individual Civil Penalties); and 19.8.34 NMAC Sections 3402 (Application Requirements and Procedures) and 3408 (Revocation and Enforcement).

Additionally, New Mexico proposes the adoption of new sections in 19.8.11 NMAC Sections 1119 (Post-Permit Issuance Requirements and other Actions Based on Ownership, Control and Violation Information), 1120 (Post-Permit Issuance Information Requirements for Permittees) and 1121 (Certifying and Updating Existing Permit Application Information); and 19.8.31 NMAC, Section 3113 (Criminal Penalties). The full text of the program amendment is available for you to read at the locations listed above under

ADDRESSES.

III. Public Comment Procedures

Under the provisions of 30 CFR 732.17(h), we are seeking your comments on whether the amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If we approve the amendment, it will become part of the New Mexico program.

Electronic or Written Comments

If you submit written comments, they should be specific, confined to issues pertinent to the proposed regulations, and explain the reason for any recommended change(s). We appreciate any and all comments, but those most useful and likely to influence decisions on the final regulations will be those that either involve personal experience or include citations to and analyses of SMCRA, its legislative history, its implementing regulations, case law, other pertinent Tribal or Federal laws or regulations, technical literature, or other relevant publications.

We cannot ensure that comments received after the close of the comment period (*see DATES*) or sent to an address other than those listed above (*see ADDRESSES*) will be included in the docket for this rulemaking and considered.

Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your

personal identifying information—may be made publicly available in the electronic docket for this rulemaking at <http://www.regulations.gov>. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Public Hearing

If you wish to speak at the public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT** by 4 p.m., m.d.t. on February 9, 2011. If you are disabled and need reasonable accommodations to attend a public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT**. We will arrange the location and time of the hearing with those persons requesting the hearing. If no one requests an opportunity to speak, we will not hold the hearing. If only one person expresses an interest, a public meeting rather than a hearing may be held, with the results included in the docket for this rulemaking.

To assist the transcriber and ensure an accurate record, we request, if possible, that each person who speaks at a public hearing provide us with a written copy of his or her comments. The public hearing will continue on the specified date until everyone scheduled to speak has been given an opportunity to be heard. If you are in the audience and have not been scheduled to speak and wish to do so, you will be allowed to speak after those who have been scheduled. We will end the hearing after everyone scheduled to speak and others present in the audience who wish to speak, have been heard.

IV. Procedural Determinations

Executive Order 12866—Regulatory Planning and Review

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

Other Laws and Executive Orders Affecting Rulemaking

When a State submits a program amendment to OSM for review, our regulations at 30 CFR 732.17(h) require us to publish a notice in the **Federal Register** indicating receipt of the proposed amendment, its text or a summary of its terms, and an opportunity for public comment. We conclude our review of the proposed amendment after the close of the public comment period and determine whether the amendment should be approved, approved in part, or not approved. At that time, we will also make the

determinations and certifications required by the various laws and executive orders governing the rulemaking process and include them in the final rule.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R08-OAR-2011-0036; FRL-9256-6]

Approval and Disapproval and Promulgation of Air Quality Implementation Plans; Colorado; Revision to Definitions; Common Provisions Regulation

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to partially approve and partially disapprove State Implementation Plan (SIP) revisions submitted by the State of Colorado on June 20, 2003. The intended effect of this proposal is to approve and make federally enforceable those portions of the revisions to Colorado's Common Provisions that are consistent with the Clean Air Act (CAA). Primarily, the revisions involved changes designed to fix ambiguous language, to make the definitions more readable or to delete obsolete definitions. In addition, a number of definitions were revised to reflect developments in federal law or were deleted to eliminate duplicative provisions that appear in other Colorado regulations. EPA is proposing to approve parts of the revision that delete duplicative or obsolete definitions, or that clarify existing definitions in a manner consistent with the CAA. In addition, EPA proposes to disapprove those portions of the rule revisions that EPA determined are inconsistent with the CAA. This action is being taken under section 110 of the CAA.

DATES: Comments must be received on or before February 24, 2011.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R08-OAR-2011-0036, by one of the following methods:

If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.
