AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule; public comment period and opportunity for public hearing on proposed amendment.

SUMMARY: We are announcing receipt of a proposed amendment to the Maryland program (the “Maryland program”) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act) (Administrative Record No. 588.00). Maryland added provisions to regulate coal combustion byproducts (CCBs) and to establish requirements pertaining to the generation, storage, handling, processing, disposal, recycling, beneficial use, or other use of CCBs within the State. In total these regulations pertain to all CCB activities in the State. However, a section of the Code of Maryland Regulations (COMAR) specifically pertains to the surface coal mining and reclamation operations. The regulation specific to surface coal mining and reclamation operations is a new regulation, Regulation .08 under COMAR 26.20.24, Special Performance Standards. Maryland is requesting approval of this section that it submitted as an amendment on June 24, 2010.

IV. Procedural Determinations

I. Background on the Maryland Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its program includes, among other things, “a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of this Act * * *; and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act.” See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior approved the Maryland program on February 18, 1982. You can find background information on the Maryland program, including the Secretary’s findings, the disposition of comments, and conditions of approval of the Maryland program in the February 18, 1982, Federal Register (47 FR 7214–7217). You can also find later actions concerning the Maryland program and program amendments at 30 CFR 920.12, 920.15, 920.16.

II. Description of the Amendment

By letter dated June 24, 2010, Maryland sent us an amendment to its program, Administrative Record Number MD–588.00, under SMCRA (30 U.S.C. 1201 et seq.). Maryland added regulations to regulate coal combustion byproducts and to establish requirements pertaining to the generation, storage, handling, processing, disposal, recycling, beneficial use, or other use of coal combustion byproducts (CCB) within the State. In total, these regulations pertain to all CCB activities in the State, not just surface coal mining and reclamation operations. However, a section of the added regulations specifically pertains to surface coal mining and reclamation operations and are proposed to be part of Maryland’s Federally approved state program. The regulation specific to surface coal mining and reclamation operations has been added as a new regulation, Regulation .08 under COMAR 26.20.24, Special Performance Standards.

Specifically, Maryland’s Regulation .08 Utilization of Coal Combustion Byproducts will include paragraphs A–H on the Purpose and Scope, Conditions for Utilization, and Testing and Monitoring. Additionally, Maryland is adding a Coal Combustion Byproducts Utilization Request requirement that will require a solids analysis of the CCBs and a Toxicity Characteristics Leaching Procedure (TCLP) leachate analysis of the CCBs. Maryland may also impose additional controls or conditions on the use of CCBs as it sees fit for the protection of human health and the environment.

The full text of the program amendment is available for you to read at the locations listed above under ADDRESSES.
III. Public Comment Procedures

Under the provisions of 30 CFR 732.17(h), we are seeking your comments on whether the submission satisfies the applicable program approval criteria of 30 CFR 732.15. If we approve the amendment, it will become part of the Maryland program.

Electronic or Written Comments

If you submit written comments, they should be specific, confined to issues pertinent to the proposed regulations, and explain the reason for any recommended change(s). We cannot ensure that comments received after the close of the comment period (see DATES) or sent to an address other than those listed above (see ADDRESSES) will be included in the docket for this rulemaking and considered.

If you are in the audience and have not been scheduled to speak and wish to do so, you will be allowed to speak after those who have been scheduled. We will end the hearing after everyone scheduled to speak and others present in the audience who wish to speak, have been heard.

Public Meeting

If there is only limited interest in participating in a public hearing, we may hold a public meeting rather than a public hearing. If you wish to meet with us to discuss the submission, please request a meeting by contacting the person listed under FOR FURTHER INFORMATION CONTACT. All such meetings are open to the public and, if possible, we will post notices of meetings at the locations listed under ADDRESSES.
