Public Water Supply Supervision Program; Program Revision for the State of Alaska

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of tentative approval.

SUMMARY: Notice is hereby given that the State of Alaska has revised its approved State Public Water Supply Supervision Primacy Program. Alaska has adopted regulations analogous to EPA’s Stage 2 Disinfectants and Disinfection Byproducts Rule; Long Term 2 Enhanced Surface Water Treatment Rule; and Lead and Copper Short-Term Regulatory Revisions and Clarifications Rule. EPA has determined that these revisions are no less stringent than the corresponding Federal regulations. Therefore, EPA intends to approve these State program revisions. By approving these rules, EPA does not intend to affect the rights of Federally recognized Indian Tribes within “Indian country” as defined by 18 U.S.C. 1151, nor does it intend to limit existing rights of the State of Alaska.

DATES: All interested parties may request a public hearing. A request for a public hearing must be submitted by February 28, 2011 to the Regional Administrator at the EPA address shown below. Frivolous or insubstantial requests for a hearing may be denied by the Regional Administrator. However, if a substantial request for a public hearing is made by February 28, 2011, a public hearing will be held. If no timely and appropriate request for a hearing is received and the Regional Administrator does not elect to hold a hearing on his own motion, this determination shall become final and effective on February 28, 2011. Any request for a public hearing shall include the following information: (1) The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; (2) a brief statement of the requesting person’s interest in the Regional Administrator’s determination and a brief statement of the information that the requesting person intends to submit at such hearing; (3) the signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

Section 13.217 requires that each Commercial Operator License Examination Manager (COLEM) recovering fees from examinees who took the Commercial Operator Examination must maintain records of expenses and revenues, frequency of examinations administered, and examination pass rates. These records must cover the period from January 1 to December 31 of the preceding year, be maintained for one year, and be made available to the Commission upon request. This recordkeeping requirement is in place in order to assist the Commission in detecting any wrongdoing within the commercial operator examination program.

The records are journal entries showing revenues collected and expenses incurred. The records may be inspected by FCC field investigators. The records will provide a vehicle for the FCC to cancel the designation of a person or organization as an examination manager. If the information were not maintained, it is conceivable that fraud and abuse could occur in the commercial operator examination program.
