### Federal Aviation Administration

#### 14 CFR Part 71

[Docket No. FAA-2010-1029; Airspace Docket No. 10-AGL-17]

#### Amendment of Class E Airspace; Lafayette, Purdue University Airport, IN

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action amends Class E airspace at Lafayette, IN, to accommodate new Area Navigation (RNAV) Standard Instrument Approach Procedures (SIAP) at Clarian Arnett Heliport, Lafayette, IN. The FAA is taking this action to enhance the safety and management of Instrument Flight Rule (IFR) operations at the heliport.

**DATES:** Effective date: 0901 UTC, May 5, 2011. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

#### SUPPLEMENTARY INFORMATION:

##### History

On November 8, 2010, the FAA published in the **Federal Register** a notice of proposed rulemaking to amend Class E airspace for Lafayette, IN, creating controlled airspace at Clarian Arnett Heliport (75 FR 68554) Docket No. FAA-2010-1029. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA.

No comments were received. Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9U dated August 18, 2010, and effective September 15, 2010, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

#### The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by amending Class E airspace extending upward from 700 feet above the surface to accommodate the new COPTER RNAV (POINT-IN-SPACE) standard instrument approach procedures at Clarian Arnett Heliport, Lafayette, IN. This action is necessary for the safety and management of IFR operations at the heliport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it adds

controlled airspace at Clarian Arnett Heliport, Lafayette, IN.
