SUPPLEMENTARY INFORMATION: The Commission has requested comment on a release proposing amendments to its rules to implement Section 1504 of the Dodd-Frank Wall Street Reform and Consumer Protection Act. Section 1504 added Section 13(q) to the Securities Exchange Act of 1934, which requires the Commission to issue rules requiring resource extraction issuers to include in an annual report information relating to any payment made by the issuer, or by a subsidiary or another entity controlled by the issuer, to a foreign government or the Federal Government for the purpose of the commercial development of oil, natural gas, or minerals. Section 13(q) requires a resource extraction issuer to provide information about the type and total amount of payments made for each project related to the commercial development of oil, natural gas, or minerals, and the type and total amount of payments made to each government. In addition, Section 13(q) requires a resource extraction issuer to provide certain information regarding those payments in an interactive data format, as specified by the Commission. This release was published in the **Federal Register** on December 23, 2010.

The Commission originally requested that comments on the release be received by January 31, 2011. The nature of the proposed disclosure requirements differs from the disclosure traditionally required by the Exchange Act, and the proposal requested comment on a variety of significant aspects of the proposed rules. The Commission has received requests for an extension of time for public comment on the proposal to, among other things, allow for the collection of information and to improve the quality of responses.¹ The Commission believes

that providing the public additional time to consider thoroughly the matters addressed by the release and to submit comprehensive responses to the release would benefit the Commission in its consideration of final rules. Therefore, the Commission is extending the comment period for Release No. 34-63549 "Disclosure of Payments by Resource Extraction Issuers" for 30 days, to Wednesday, March 2, 2011.

By the Commission.

Dated: January 28, 2011.

Secretary.

Subpart C, published in 2000 as part of the final regulations to implement the provisions of the Act, establishes the methodology for determining the split between the Federal and District obligations. Pursuant to regulation, the effective date of subpart C was delayed pending completion of Treasury's new automated retirement system, "System to Administer Retirement" (STAR), which replaced the District's legacy automated retirement system. While the new system has been completed, the proposed amended subpart C will
