SUPPLEMENTARY INFORMATION:

I. Abstract

Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), NOAA is

responsible for management of the Nation's marine fisheries. In addition, NOAA must comply with the United States' (U.S.) obligations under the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971 *et seq.*). A Certificate of Eligibility (COE) for Billfishes is required under 50 CFR part 635 to accompany all billfish, except for a billfish landed in a Pacific state and remaining in the state of landing. This documentation certifies that the accompanying billfish was not harvested from the applicable Atlantic Ocean management unit (described on the NOAA sample certificate at <http://www.nmfs.noaa.gov/sfa/hms/GPEA/0216%20Billfish%20COEform.pdf>), and identifies the vessel landing the billfish, the vessel's homeport, the port of offloading, and the date of offloading. The certificate must accompany the billfish to any dealer or processor who subsequently receives or possesses the billfish. The certificate is required for all first receivers of billfish, and dealers or processors who subsequently receive or possess billfish must also retain a copy of the certificate while processing or handling the billfish. A standard certificate format is not currently required to document the necessary information, provided it contains all of the information required. The continuation of this collection is necessary to implement the Consolidated Highly Migratory Species Fishery Management Plan, which contains an objective to reserve Atlantic billfish for the recreational fishery.

II. Method of Collection

A paper document is required to be completed by respondents. The document must be signed, dated, and retained by each dealer or processor who subsequently receives or possesses the billfish.
