

Time-lapse video monitoring was conducted of this launch. Some harbor seals and sea otters were observed on the rocks between 1.5 and 4 hours prior to the launch. However, nearly 30 minutes before the launch, the video did not reveal the presence of any marine mammals because the incoming tide and surf was washing over the rocks. None were present at the time of the launch. Nearly 1.5 hours post-launch, the rocks were still abandoned.

No northern elephant seals were observed. On two occasions, individual California sea lions hauled out on the rocks and nearby beach. On another occasion, one was noted swimming immediately offshore. In summary, there was no evidence of injury, mortality, or abnormal behavior in any of the monitored pinnipeds at VAFB as a result of the MDA launch.

Minuteman III Launch (June 16, 2010)

Because this launch occurred during the harbor seal pupping season on VAFB, biological monitoring at VAFB was required. However, its westerly trajectory did not require any sonic boom modeling or monitoring at SMI. Pre-launch monitoring was conducted from Jun 13–15, 2010. Zero to five harbor seals were hauled out at Lion's Head during these counts. Zero to one seal was hauled out the day of the launch, and the following day, up to three harbor seals were hauled out. No harbor seal pups were seen. Only one sea lion was noted swimming a short distance offshore. No northern elephant seals were sighted. Since this launch occurred during darkness, no time-lapse video monitoring was conducted. In summary, there was no evidence of injury, mortality, or abnormal behavior of the monitored pinnipeds on VAFB as a result of this launch.

Minuteman III Launch (June 30, 2010)

Because this launch occurred during the harbor seal pupping season on VAFB, biological monitoring at VAFB was required. However, its westerly trajectory did not require any sonic boom modeling or monitoring at SMI. Pre-launch monitoring was conducted from June 27–29, 2010. Zero to four harbor seals were counted during pre-launch surveys. On the day of the launch, the count was zero to three animals, as it was during the post-launch monitoring. No harbor seals were sighted during the two-week follow-up count because the rocks were awash. No harbor seal pups were seen during any of these surveys. No California sea lions or elephant seals were seen during these surveys. Since this launch occurred during darkness,

no time-lapse video monitoring was conducted. In summary, there was no evidence of injury, mortality, or abnormal behavior in any monitored harbor seals on VAFB resulting from this launch.

Authorization

The USAF complied with the requirements of the 2010 LOA, and NMFS has determined that the marine mammal take resulting from the 2010 launches is within that analyzed in and anticipated by the associated regulations. Accordingly, NMFS has issued a LOA to the 30th Space Wing, USAF, authorizing the take by harassment of marine mammals incidental to space vehicle and test flight activities at VAFB. Issuance of this LOA is based on findings described in the preamble to the final rule (74 FR 6236, February 6, 2009) and supported by information contained in VAFB's 2010 annual report that the activities described under this LOA will have a negligible impact on marine mammal stocks. The provision requiring that the activity not have an unmitigable adverse impact on the availability of the affected species or stock for subsistence uses does not apply for this action.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2) and 41 CFR 51–2.3. Its purpose is to provide interested persons an opportunity to submit comments on the proposed actions.

Addition

If the Committee approves the proposed addition, the entities of the Federal Government identified in this notice will be required to procure the service listed below from nonprofit agency employing persons who are blind or have other severe disabilities.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. If approved, the action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will provide the service to the Government.
2. If approved, the action will result in authorizing small entities to provide the service to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the service proposed for addition to the Procurement List.

Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification on which they are providing additional information.
