What information collection activity or ICR does this apply to?

Docket ID No. EPA-HQ-OAR-2004-0082.

Affected entities: Entities potentially affected by this action are those which produce, process, transport, and distribute natural gas and that join the Natural Gas STAR Program.

Title: Reporting and Recordkeeping Requirements Under EPA's Natural Gas STAR Program.

ICR numbers: EPA ICR No. 1736.06, OMB Control No. 2060-0328.

ICR status: This ICR is currently scheduled to expire on 7/31/2011. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Natural Gas STAR is an EPA-sponsored, voluntary program that encourages oil and natural gas companies to adopt cost-effective technologies and practices for reducing methane emissions. By joining, Natural Gas STAR partners agree to implement cost-effective technologies and practices to reduce methane emissions, which will save money, improve operational efficiency, increase natural gas supply, and improve environmental quality. EPA needs to collect information to monitor Program participation and to obtain general information on new Natural Gas STAR partners. EPA also uses the information collected to evaluate a partner's progress and performance, assess overall Program accomplishments, and develop additional technical guidance documents to benefit the industry. Information collection is accomplished through the use of an annual reporting process that allows partner companies to report their accomplishments in either a traditional hard-copy format or electronically. Natural Gas STAR partners may designate information submitted under this ICR as

Confidential Business Information (CBI). EPA will treat all such information as CBI and will not make the company or agency-specific information collected under this ICR available to the general public. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 35 hours per respondent. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 149.

Frequency of response: 149.

Estimated total average number of responses for each respondent: varies.

Estimated total annual burden hours: 5,201.

Estimated total annual costs: \$477,657.

Are there changes in the estimates from the last approval?

The overall reporting burden for respondents has decreased from the previous ICR. Burden hours decreased from 5,610 to 5,201 hours per year and costs decreased from \$550,677 to \$477,657. This change is largely a result of a decrease in the number of new program partners enrolling each year.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue

another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Environmental Impacts Statements; Notice of Availability

Responsible Agency: Office of Federal Activities, General Information (202) 564-1399 or <http://www.epa.gov/compliance/nepa/>.

Weekly receipt of Environmental Impact Statements filed 01/24/2011 through 01/28/2011 pursuant to 40 CFR 1506.9.

Notice

In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public. Historically, EPA met this mandate by publishing weekly notices of availability of EPA comments, which includes a brief summary of EPA's comment letters, in the **Federal Register**. Since February 2008, EPA has included its comment letters on EISs on its Web site at: <http://www.epa.gov/compliance/nepa/eisdata.html>. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA's comments on EISs available to the public. Accordingly, on March 31, 2010, EPA discontinued the publication of the notice of availability of EPA comments in the **Federal Register**.

Notice of Intent To Suspend Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice, pursuant to section 6(f)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), announces notices of intent to suspend issued by EPA pursuant to section 3(c)(2)(B) of FIFRA. The Notices of Intent to Suspend were issued following the Agency's issuance of a Data Call-In notice (DCI), which required the registrants of the affected pesticide products containing a certain pesticide active ingredient to take appropriate steps to secure certain data, and following the registrant's failure to submit these data or to take other appropriate steps to secure the required data. The subject data were determined to be required to maintain in effect the existing registrations of the affected products. Failure to comply with the data requirements of a DCI is a basis for suspension of the affected registrations under section 3(c)(2)(B) of FIFRA.

DATES: The Notice of Intent to Suspend included in this **Federal Register** notice will become a final and effective suspension order automatically by operation of law 30 days after the date of the registrant's receipt of the mailed Notice of Intent to Suspend or 30 days after the date of publication of this notice in the **Federal Register** (if the mailed notice of intent to suspend is returned to the Administrator as undeliverable, if delivery is refused, or if the Administrator otherwise is unable to accomplish delivery to the registrant after making reasonable efforts to do so), unless during that time a timely and adequate request for a hearing is made by a person adversely affected by the Notice of Intent to Suspend or the registrant has satisfied the

Administrator that the registrant has complied fully with the requirements that served as a basis for the Notice of Intent to Suspend. Unit IV explains what must be done to avoid suspension under this notice (i.e., how to request a hearing or how to comply fully with the requirements that served as a basis for the Notice of Intent to Suspend).
