

Year 2012 Budget to support EPA research needs. The SAB work group and the SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Background: The chartered SAB conducts a review of the EPA research budget annually and provides written comments to the EPA Administrator and to Congress, as requested, on the adequacy of EPA's requested research budget. At the meeting, a work group of the chartered SAB will receive briefings on the requested research budget for Fiscal Year 2012 and develop a draft report for review by the full chartered SAB. The report will provide comments on the requested budget, in light of EPA's research needs. Previous SAB budget advisories are on the SAB Web site at <http://www.epa.gov/sab>.

Availability of Meeting Materials: The agenda and other materials in support of the meeting will be placed on the SAB Web site at <http://www.epa.gov/sab> in advance.

Procedures for Providing Public Input: Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office.

Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit comments on the topics included in this advisory activity and/or the group conducting the activity. They should send their comments directly to the Designated Federal Officer for the relevant advisory committee. **Oral Statements:** In general, individuals or groups requesting an oral presentation at a public meeting will be limited to five minutes per speaker, with no more than a total of one hour for all speakers. Interested parties should contact Dr. Nugent, DFO, in writing (preferably via e-mail) at the contact information noted above by February 28, 2011 to be placed on a list of public speakers for the meeting. **Written Statements:** Written statements should be received in the SAB Staff Office by February 28, 2011 so that the information may be made available to the chartered SAB members for their consideration and placed on the SAB Web site for public information. Written statements should be supplied to the DFO in the following formats: One hard copy with original signature, and one electronic copy via e-mail (acceptable file format: Adobe Acrobat PDF,

WordPerfect, MS Word, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format). Submitters are asked to provide versions of each document submitted with *and* without signatures, because the SAB Staff Office does not publish documents with signatures on its Web sites.

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Angela Nugent at (202) 564-2218, or nugent.angela@epa.gov. To request accommodation of a disability, please contact Dr. Nugent, preferably at least 10 days prior to the meeting, to give EPA as much time as possible to process your request.

The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. Methyl Bromide; Notice of Receipt of Requests To Voluntarily Amend Registrations To Terminate Certain Soil Uses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, EPA is issuing a

notice of receipt of requests by the registrants to voluntarily amend their methyl bromide product registrations to terminate or delete one or more soil uses. The requests would delete all methyl bromide soil uses that do not meet the definition of a "critical use," a "quarantine application," or a "pre-shipment application" with the exception of the following uses: (1) Soils to be planted with caneberries (use allowed until December 31, 2014), fresh market tomatoes grown in California (use allowed until December 31, 2012), fresh market peppers grown in California (use allowed until December 31, 2012), Vidalia onions grown in Georgia (use allowed until December 31, 2012), ginger grown in Hawaii (use allowed until December 31, 2012); (2) soils on golf courses and athletic/recreational fields for resurfacing/replanting of turf (use allowed until December 31, 2013), and (3) tobacco seedling trays (use allowed until December 31, 2014). These requests would not affect post-harvest fumigant products. In addition, the Agency received a request from Soil Chemicals Corporation dba Cardinal Professional Products to voluntarily amend methyl bromide product registration 8536-12 to terminate or delete all soil uses. This request does not cover the post harvest uses on the label. The requests would not terminate the last methyl bromide products registered for use in the United States. EPA intends to grant these requests at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the requests, or unless the registrants withdraw their requests. If these requests are granted, any sale, distribution, or use of products listed in this notice will be permitted after the uses are deleted only if such sale, distribution, or use is consistent with the terms as described in the final order.
