

Rule 104 of Regulation M (17 CFR 242.104)—Stabilizing and Other Activities in Connection with an Offering permits stabilizing by a distribution participant during a distribution so long as the distribution participant discloses information to the market and investors. This rule requires disclosure in offering materials of the potential stabilizing transactions and that the distribution participant inform the market when a stabilizing bid is made. It also requires the distribution participants (*i.e.* the syndicate manager) to maintain information regarding syndicate covering transactions and penalty bids and disclose such information to the Self-Regulatory Organization (SRO).

There are approximately 745 respondents per year that require an aggregate total of 149 hours to comply with this rule. Each respondent makes an estimated 1 annual response. Each response takes approximately 0.20 hours (12 minutes) to complete. Thus, the total compliance burden per year is 149 burden hours. The total internal labor compliance cost for the respondents is approximately \$9,983.00, resulting in a cost of compliance for the respondent per response of approximately \$13.40 (*i.e.*, \$9,983/745 responses).
