

of the most current information regarding the meeting.

**Request for Comments**

The NTP invites written comments on the draft reports, which should be received by March 22, 2011, to enable review by the panel and NTP staff prior to the meeting. Persons submitting written comments should include their name, affiliation, mailing address, phone, e-mail, and sponsoring organization (if any) with the document. Written comments received in response to this notice will be posted on the NTP Web site, and the submitter will be identified by name, affiliation, and/or sponsoring organization.

Public input at this meeting is also invited, and time is set aside for the presentation of oral comments on the draft reports. In addition to in-person oral comments at the meeting at the NIEHS, public comments can be presented by teleconference line. There will be 50 lines for this call; availability will be on a first-come, first-served basis. The available lines will be open from 8 a.m. until adjournment on April 5, although public comments will be received only during the formal public comment period for each draft report. Each organization is allowed one time slot per draft report. At least 7 minutes will be allotted to each speaker, and if time permits, may be extended to 10 minutes at the discretion of the chair. Persons wishing to make an oral presentation are asked to register via online registration at <http://ntp.niehs.nih.gov/go/36051>, phone, or e-mail (see ADDRESSES above) by March 29, 2011, and if possible, to send a copy of the statement or talking points at that time to Ms Andrews. Written statements can supplement and may expand the oral presentation. Registration for oral comments will also be available at the meeting, although time allowed for presentation by on-site registrants may be less than that for pre-registered speakers and will be determined by the number of persons who register on-site.

**Background Information on NTP Panels**

NTP panels are technical, scientific advisory bodies established on an “as needed” basis to provide independent scientific peer review and to advise the NTP on agents of public health concern, new/revised toxicological test methods, or other issues. These panels help ensure transparent, unbiased, and scientifically rigorous input to the program for its use in making credible decisions about human hazard, setting research and testing priorities, and providing information to regulatory agencies about alternative methods for toxicity screening. The NTP welcomes nominations of scientific experts for upcoming panels. Scientists interested in serving on an NTP panel should provide a current *curriculum vita* to Ms. Andrews (see ADDRESSES). The authority for NTP panels is provided by 42 U.S.C. 217a; section 222 of the Public Health Service (PHS) Act, as amended. The panel is governed by the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), which sets forth standards for the formation and use of advisory committees.

**Proposed Projects**

*Title:* Information Comparison with Insurance Data.

*OMB No.:* 0970-0342.

*Description:* The Deficit Reduction Act of 2005 amended Section 452 of the Social Security Act (the Act) to

authorize the Secretary, through the Federal Parent Locator Service (FPLS), to conduct comparisons of information concerning individuals owing past-due child support with information maintained by insurers (or their agents) concerning insurance claims, settlements, awards, and payments. Public Law 109-171, § 7306. The Federal Office of Child Support Enforcement (OCSE) operates the FPLS in accordance with section 453(a)(1) of the Act. The Federal Case Registry of Child Support Orders (FCR) is maintained in the FPLS in accordance with section 453(h)(1) of the Act.

At the option of an insurer, the comparison may be accomplished by either of the following methods. Under the first method, an insurer or the insurer's agent will submit to OCSE information concerning claims, settlements, awards, and payments. OCSE will then compare that information with information pertaining to individuals owing past-due support.

Under the second method, OCSE will furnish to the insurer or the insurer's agent a file containing information pertaining to individuals owing past-due support. The insurer or the insurer's agent will then compare that information with information pertaining to claims, settlements, awards, and payments. The insurer will furnish the information resulting from the comparison to OCSE.

On a daily basis OCSE will furnish the results of a comparison to the State agencies responsible for collecting child support from the individuals by transmitting the Insurance Match Response Record. The results of the comparison will be used by the State agencies to collect from the insurance proceeds past-due child support owed by the individuals.

*Respondents:* insurers or their agents, including the U.S. Department of Labor and State agencies administering workers compensation programs, and the Insurance Services Office (ISO).

**ANNUAL BURDEN ESTIMATES**

Instrument	Number of respondents	Number of responses per respondent	Average burden per response	Total burden hours
Insurance Match Agreement .....	18	1	0.5	9
Insurance Match File .....	18	52	0.5	468

Estimated Total Annual Burden Hours: 477.

In compliance with the requirements of Section 506(c)(2)(A) of the Paperwork Reduction Act of 1995, the

Administration for Children and Families is soliciting public comment on the specific aspects of the information collection described above. Copies of the proposed collection of

information can be obtained and comments may be forwarded by writing to the Administration for Children and Families, Office of Administration, Office of Information Services, 370

L'Enfant Promenade, SW., Washington, DC 20447, Attn: ACF Reports Clearance Officer. E-mail address: *infocollection@acf.hhs.gov*. All requests should be identified by the title of the information collection.

The Department specifically requests comments on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

**Proposed Information Collection Activity; Comment Request**

*Title:* National Survey of Early Care and Education.

*OMB No.:* New Collection.  
*Billing Accounting Code (BAC):* 418423 (CAN G999916).

*Description:* The Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), is proposing a data collection activity as part of the National Survey of Early Care and Education (NSECE) which will be conducted December, 2011 through June, 2012. The objective of the NSECE is to document the nation's current need for and availability of early care and education and including school-age care (ECE/SA), and to deepen our understanding of the extent to which families' needs and preferences coordinate well with providers' offerings and constraints. The proposed collection will consist of four survey components: (1) A survey of households with children under the age of 13 for participation in a questionnaire on the need for and use of early care and education (Household Interview), (2) a survey of households with individuals

providing care for children under the age of 13 in a residential setting (Home-based Provider Interview), (3) a survey of providers of care to children under 13 in a non-residential setting (Center-based Provider Interview), and (4) a survey conducted with individuals employed in center-based child care programs (Workforce Provider Interview).

These data collection efforts will provide urgently needed information about the provision of ECE/SA across the country and spanning many sectors of care providers such as community-based child care, Head Start, school-based Pre-K, family child care, family, friend and neighbor care, and after-school programs. The study will also dramatically extend the available resources for understanding how families use, seek, and cope with the ECE/SA choices that are available to them. Perhaps most significantly, the NSECE will allow the policy and research communities to merge data from families and providers at the local level—where the two actually meet.

*Respondents:* General population households, home-based and center-based child care providers (including public schools) serving children under 13, and selected staff members from center-based child care providers (including public schools) serving children under 13.

Instrument	Annual number of respondents	Number of responses per respondent	Average burden hours per response	Estimated annual burden hours
Household screener .....	83,767	1	.1	8,377
Household Interview .....	17,512	1	.75	13,134
Home-Based Provider Interview .....	11,260	1	.3	3,378
Center-Based Provider Interview .....	12,520	1	.67	8,389
Workforce Provider Interview .....	9,390	1	.33	3,099

Estimated Total Annual Burden Hours: 36,377.

In compliance with the requirements of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the information collection described above. Copies of the proposed collection of information can be obtained and comments may be forwarded by writing to the Administration for Children and Families, Office of Planning, Research and Evaluation, 370 L'Enfant Promenade, SW., Washington, DC 20447, Attn: OPRE Reports Clearance Officer. E-mail address: *OPREinfocollection@acf.hhs.gov*. All

requests should be identified by the title of the information collection.

The Department specifically requests comments on (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to

comments and suggestions submitted within 60 days of this publication.
