

the public interest, which includes but is not limited to consideration of potential impacts on affected local communities and Tribes. The determination will be based on a number of factors, including an economic analysis. One part of the economic analysis is a non-use valuation survey that is designed to determine the potential benefits of dam removal that may accrue to members of the U.S. public who value such improvements regardless of whether they consume Klamath Basin fish or visit the Klamath Basin. Non-use valuation surveys, such as the one discussed herein, are routinely included as a part of the economic analysis for large-scale water development projects.

## II. Data

*Title:* Klamath Non-Use Valuation Survey.

*OMB Control Number:* 1090-0010.

*Type of Review:* Revision of an approved collection.

*Affected Entities:* Households.

*Respondent's Obligation:* Voluntary.

*Frequency of Response:* One time.

*Estimated Annual Number of*

*Respondents:* 10,400 households who will receive the survey (3200 respondents and 7,200 non-respondents).

*Estimated Total Annual Responses:* 3200.

*Estimated Time per Response:* The base for this survey is 10,400 households. The households will be divided into two mailing groups, at a 10/90 split. The first wave of mailings will be to 10% of the households. Each household will receive a prenotification postcard notification, which will take 30 seconds to read, followed by the first mailing of the survey. 17% of households are estimated to respond, which will take 30 minutes. Non-respondents will take 3 minutes. The second mailing will be sent to the remaining 83% of non-respondent households. 10% of the households are estimated to respond to the second mailing, taking 30 minutes. The second group of non-respondents are estimated to spend 3 minutes. The Department will then conduct preliminary analysis.

The second wave of mailings will be to the remaining 90% of the households. Each household will receive a prenotification postcard notification, which will take 30 seconds to read, followed by the first mailing of the survey. 17% of households are estimated to respond, which will take 30 minutes. Non-respondents will take 3 minutes. The second phase will be sent to the remaining 83% of non-respondent households. 10% of the

households are estimated to respond to the second mailing, taking 30 minutes. The second group of non-respondents are estimated to spend 3 minutes.

The second group of non-respondents will be sent a reminder letter, taking 30 seconds. The letter will provide the web address of the survey and a toll-free number and email for the respondent to call or write to get another copy of the survey. 5% of the households are estimated to complete the survey, taking 30 minutes.

After the reminder mailing, 20% of the nonrespondents will be sent a letter by Federal Express or Priority Mail with a letter and a much shorter version of the survey, taking approximately 30 seconds to read. It is assumed that 65% of the non-respondent households will have a phone number. For respondents with telephone numbers, the letter and survey will be followed by a phone call from a live operator who will either talk to the household or leave a message reiterating the higher incentive and offering to mail another copy of the survey if the household needs one. DOI expects that 20% of nonrespondents will complete the shorter survey after the phone call reminder, taking 10 minutes. The phone call without the completing the shorter survey is estimated to take 5 minutes. For the 35% of households without telephone numbers, DOI expects that 10% of nonrespondents will complete the survey after receiving the Federal Express letter. DOI estimates that 10% of nonrespondants will spend 5 minutes on the shorter survey and letter. DOI estimates 90% nonrespondents will spend 3 minutes on the survey and letter.

*Estimated Total Annual Burden Hours:* 2,571 hours.

## III. Request for Comments

On August 30, 2010, we published in the **Federal Register** a request for public comments on this proposed survey. Revisions were subsequently made to the survey in response to comments that were received. This notice provides the public with an additional opportunity to comment on the revised survey. The Department of the Interior invites comments on:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) The accuracy of the agency's estimate of the burden of the collection and the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other collection techniques or other forms of information technology.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose, or provide information to or for a Federal agency.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget control number.

Dated: February 11, 2011.

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

**[FWS-R1-R-2010-N220; 1265-0000-10137-S3]**

### Ridgefield National Wildlife Refuge, Clark County, WA; Final Comprehensive Conservation Plan and Finding of No Significant Impact for Environmental Assessment

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), announce the availability of our final comprehensive conservation plan (CCP) and finding of no significant impact (FONSI) for the environmental assessment (EA) for the Ridgefield National Wildlife Refuge (Refuge). In this final CCP, we describe how we will manage this Refuge for the next 15 years.

**ADDRESSES:** You may view or obtain copies of the final CCP and FONSI by any of the following methods. You may request a hard copy or CD-ROM.

*Agency Web Site:* Download the CCP/FONSI at <http://www.fws.gov/pacific/planning>.

*E-mail:*

[FW1PlanningComments@fws.gov](mailto:FW1PlanningComments@fws.gov).

Include "Ridgefield Refuge final CCP" in the subject line of the message.

*Mail:* Ridgefield National Wildlife Refuge, P.O. Box 457, Ridgefield, WA 98642.

*In-Person Viewing or Pickup:*  
Ridgefield National Wildlife Refuge,  
28908 NW. Main Avenue, Ridgefield,  
WA 98642.

**FOR FURTHER INFORMATION CONTACT:** Bob Flores, Project Leader, (360) 887-4109.

**SUPPLEMENTARY INFORMATION:**

**Introduction**

With this notice, we complete the CCP process for the Refuge. The Service started this process through a notice of intent in the **Federal Register** (71 FR 43787; August 2, 2006). We released the Draft CCP/EA to the public, announcing and requesting comments in a notice of availability in the **Federal Register** (75 FR 34154; June 16, 2010).

The Refuge is located in Washington along the Columbia River. It was established to secure vital winter habitat for dusky Canada geese and other waterfowl. The Refuge encompasses 5,218 acres of marshes, grasslands, and woodlands on 5 units. We preserve the natural Columbia River floodplain on the Carty, Roth, and Ridgeport Dairy units. We manage the River 'S' and Bachelor Island units to provide habitat for waterfowl and other wildlife. Sandhill cranes, shorebirds, and a variety of songbirds stop at the Refuge during spring and fall migrations. Some bird species, such as mallards, great blue herons, and red-tailed hawks, nest and reside on the Refuge year-round.

We announce our decision and the availability of the FONSI for the final CCP in accordance with National Environmental Policy Act (NEPA) (40 CFR 1506.6(b)) requirements. We completed a thorough analysis of impacts on the human environment, which we included in the draft CCP/EA.

The CCP will guide us in managing and administering the Refuge for the next 15 years. Alternative 2, as we described in the draft CCP, is the foundation for the CCP.

**Background**

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee) (Refuge Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. We will review and update the CCP at least every 15 years in accordance with the Refuge Administration Act.

**CCP Alternatives, Including Selected Alternative**

During our CCP planning process we identified several issues. To address the issues, we developed and evaluated the following alternatives in our Draft CCP/EA.

*Alternative 1 (No Action)*

Under Alternative 1, we would have continued to manage and where feasible restore habitat for dusky Canada geese, other Canada geese subspecies, cackling geese, other waterfowl, and imperiled Federal and State listed species. Hunting would continue on the River 'S' Unit's 760-acre hunt area. The current 4.3-mile auto tour route would remain open year round. The Refuge would continue to coordinate with its Friends groups, local educators, and Tribes to conduct environmental and cultural education and interpretation programs.

*Alternative 2 (Preferred Alternative)*

Under Alternative 2, our preferred alternative, we would continue to protect, maintain, and, where feasible, restore habitat for priority species, including dusky Canada geese, other waterfowl, and imperiled Federal and State listed species. We would maintain high-quality green forage for geese in improved pastures and wet meadows, and increase cropland and wet meadow acreage. Wetlands would be managed to increase productivity and reduce water pumping costs. Invasive species and State- and county-listed noxious weeds would continue to be a primary management concern. Enhancing and restoring bottomland forest and oak woodland habitats would increase. We would complete habitat assessments to guide stream and tidally influenced wetland restorations. We would conduct feasibility studies for reintroducing native species such as Columbian white-tailed deer and western pond turtle, and inventory and monitoring efforts would increase.

Under Alternative 2, current public use areas and closures would continue, the waterfowl hunt area would remain unchanged, and changes in wetland management would improve the hunt program over time. A new access point to the River 'S' Unit, including a 2-lane bridge and 1-mile entrance road, would be developed. The current auto tour route would be open year round, and shortened slightly to provide habitat for dusky Canada geese and cranes. A new 1.5-mile dike-top walking trail would be constructed. Environmental and cultural resources education and interpretation would increase.

*Alternative 3*

Under Alternative 3, actions to protect, maintain, and restore habitat for priority species are the same as those under Alternative 2. Current public use areas and closures would continue. The waterfowl hunt area/location would remain the same; however, core dusky habitat on the south end of the River 'S' Unit (207 acres) would be closed to goose hunting. The existing access point to the River 'S' Unit would be retained; a new 2-lane bridge would be constructed to eliminate the at-grade railroad crossing; and the entrance road would be widened, requiring either land acquisition or easement modification. The existing auto tour route would not change. A new 1.5-mile dike-top walking trail would be constructed. Environmental and cultural education and interpretation would increase.

*Alternative 4*

Under Alternative 4, actions to protect, maintain, and restore habitat for priority species would be the same as those under Alternatives 2 and 3, except that slightly more crops would be grown, and the total wildlife sanctuary area closed to public use would be reduced slightly. This alternative would, however, provide the largest contiguous sanctuary for dusky Canada geese and sandhill cranes on the Refuge's south end. A new access point to the River 'S' Unit, including a 2-lane bridge and 1-mile entrance road, would be developed. The south end of the River 'S' Unit would be closed to public use during waterfowl and crane migration, to benefit dusky Canada geese and sandhill cranes. The south end of the River 'S' Unit (207 acres) would be closed to hunting, and the south end of the auto tour route would be closed during waterfowl season (October 1-March 15), reducing its length from 4.3 miles to 2.6 miles during that time. To offset the loss of these hunting opportunities, 250 acres of Bachelor Island would be opened to waterfowl hunting. The northern portion of this area would be closed early to hunting (January 15) to prevent disturbance to a great blue heron nesting colony. A new 1.5-mile dike-top walking trail would be constructed. Environmental and cultural education and interpretation would increase.

**Comments**

We solicited comments on the Draft CCP/EA from June 16, 2010, to July 16, 2010 (75 FR 34154; June 16, 2010). We received 16 comment letters, forms, or emails on the Draft CCP/EA. To address public comments, minor changes and

clarifications were made to the final CCP where we determined it would be appropriate.

#### Selected Alternative

After considering the comments we received, we have selected Alternative 2 for implementation. By implementing Alternative 2, we will protect, maintain, and, where feasible, restore habitat for dusky Canada geese, other waterfowl, and imperiled species. We will maintain high-quality green forage in pastures and wet meadows, and increase cropland and wet meadow acreage. Wetlands will be managed to increase productivity and reduce pumping costs. Invasive species and noxious weeds will continue to be a primary management concern. Enhancing and restoring bottomland forest and oak woodland habitats will increase. We will complete habitat assessments to guide stream and tidally influenced wetland restorations. We will conduct feasibility studies for reintroducing native species such as Columbian white-tailed deer and western pond turtle, and inventory and monitoring efforts will increase.

Current public use areas and closures will continue, the waterfowl hunt area will remain unchanged, and changes in wetland management will improve the hunt program over time. A new access point to the River 'S' Unit will be developed. The existing auto tour route will be open year round, and shortened slightly, to provide habitat for dusky Canada geese and cranes. A new dike-top walking trail will be constructed. Environmental and cultural education and interpretation programs will increase.

Dated: December 20, 2010.

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[LLMT926000-11-L14200000-BJ0000]

#### Notice of Filing of Plats of Survey; Montana

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of filing of plats of survey.

**SUMMARY:** The Bureau of Land Management (BLM) will file the plat of survey of the lands described below in the BLM Montana State Office, Billings, Montana, on March 18, 2011.

**DATES:** Protests of the survey must be filed before March 18, 2011 to be considered.

**ADDRESSES:** Protests of the survey should be sent to Branch of Cadastral Survey, Bureau of Land Management, 5001 Southgate Drive, Billings, Montana 59101-4669.

**FOR FURTHER INFORMATION CONTACT:** Josh Alexander, Cadastral Surveyor, Branch of Cadastral Survey, Bureau of Land Management, 5001 Southgate Drive, Billings, Montana 59101-4669, telephone (406) 896-5123 or (406) 896-5009.

**SUPPLEMENTARY INFORMATION:** This survey was executed at the request of the Bureau of Land Management, Dillon Field Office, and was necessary to determine federal interest lands.

The lands we surveyed are:

#### Principal Meridian, Montana

T. 2 S., R. 3 W.

The plat, in one sheet, representing the dependent resurvey of Mineral Survey No. 5856B, Charity Mill Site and Supplemental Plat, Township 2 South, Range 3 West, Principal Meridian, Montana, was accepted January 27, 2011.

We will place a copy of the plat, in one sheet, in the open files. It will be available to the public as a matter of information. If the BLM receives a protest against this survey, as shown on this plat, in one sheet, prior to the date of the official filing, we will stay the filing pending our consideration of the protest. We will not officially file this plat, in one sheet, until the day after we have accepted or dismissed all protests and they have become final, including decisions or appeals.

**Authority:** 43 U.S.C. Chap. 3.

Dated: February 9, 2011.

### Bureau of Land Management

[LLMTC 00900.L16100000.DP0000]

#### Notice of Public Meeting, Eastern Montana Resource Advisory Council Meeting

**AGENCY:** Bureau of Land Management, Interior, Montana, Billings and Miles City Field Offices.

**ACTION:** Notice of public meeting.

**SUMMARY:** In accordance with the Federal Land Policy and Management Act (FLPMA) and the Federal Advisory Committee Act of 1972 (FACA), the U.S. Department of the Interior, Bureau of Land Management (BLM) Eastern Montana Resource Advisory Council (RAC), will meet as indicated below.

**DATES:** The next regular meeting of the Eastern Montana Resource Advisory Council will be held on Mar. 24, 2011 in Miles City, Montana. The meeting will start at 8:00 a.m. and adjourn at approximately 3:30 p.m.

**ADDRESSES:** When determined, the meeting location will be announced in a news release.

**FOR FURTHER INFORMATION CONTACT:** Mark Jacobsen, Public Affairs Specialist, BLM Eastern Montana/Dakotas District, 111 Garryowen Road, Miles City, Montana 59301. Telephone: (406) 233-2831.

**SUPPLEMENTARY INFORMATION:** The 15-member Council advises the Secretary of the Interior through the Bureau of Land Management on a variety of planning and management issues associated with public land management in Montana. At these meetings, topics will include: Miles City and Billings Field Office manager updates, subcommittee briefings, work sessions and other issues that the council may raise. All meetings are open to the public and the public may present written comments to the Council. Each formal Council meeting will also have time allocated for hearing public comments. Depending on the number of persons wishing to comment and time available, the time for individual oral comments may be limited. Individuals who plan to attend and need special assistance, such as sign language interpretation, tour transportation or other reasonable accommodations should contact the BLM as provided above.

Dated: February 8, 2011.
