RETRIEVABILITY:
Electronic records are retrieved by using automated searches. Name, tracking number, application status, SSN, and date of birth may be used to retrieve records in the Medical Exemption Program.

ACCESSIBILITY (INCLUDING SAFEGUARDS):
All records in the Medical Exemption program at the Volpe Center and MANILA are protected from unauthorized access through appropriate administrative, physical, and technical safeguards. Electronic files are stored in separate databases at MANILA and the Volpe Center that are secured by password security, encryption, firewalls, and secured operating systems and to which only authorized personnel with a specific “need to know” have access. Paper files are stored in file cabinets in a locked file room to which only authorized MANILA personnel with a specific “need to know” have access. Physical access to the Volpe Center and MANILA is restricted to authorized personnel. All access to the electronic system and paper files is logged and monitored. Access to electronic records is password protected, and the scope of access for each password is limited to the official need of each individual authorized access.

RETENTION AND DISPOSAL:
The proposed Medical Exemption Program records schedule has been submitted to the U.S. National Archives and Records Administration (NARA) and is pending approval. Medical Exemption Program applications with a status of accepted are assigned a disposition date of 10 years. All other applications are assigned a disposition date of 3 years after the application date or 30 days after a status change to deceased, whichever occurs first. Medical Exemption Program applications are destroyed at the end of each calendar year following the disposition date. Hardcopy documents that have been entered and scanned into the Med-Ex application are assigned a 30-day disposition date following the disposition date assigned to the electronic record and destroyed at the end of the calendar year.
