What information is EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Title: Reporting and Recordkeeping Requirements Under EPA's WasteWise Program

ICR numbers: EPA ICR No. 1698.08, OMB Control No. 2050-0139

ICR status: This ICR is currently scheduled to expire on June 30, 2011. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA's voluntary WasteWise program encourages businesses and other organizations to reduce solid waste through waste prevention, recycling, and the purchase or manufacture of recycled-content products. WasteWise participants include partners, who commit to implementing waste reduction activities tailored to their specific needs, and endorsers who promote WasteWise and recruit organizations to join the program.

WasteWise requires partners to register for membership in the program. Previously, WasteWise used paper forms that we estimate took 40 hours for partners and 10 hours for endorsers to complete. In 2009, WasteWise implemented a Web-based data management and reporting system for the collection and reporting of data. Under the new Web-based system, partners and endorsers enter their data, on-line.

The *Partner Registration Form* identifies an organization and its facilities registering to participate in WasteWise, and requires the signature of a senior official that can commit the organization to the program. (This form completed on-line and is submitted electronically.) Within two months of registering, each partner is required to submit baseline data on existing waste reduction programs to EPA via an *Annual Assessment Form*. (This is an on-line form that is completed and submitted electronically.) Partners are also encouraged to set waste reduction goals for the upcoming year. On an annual basis, partners are required to report, via the *Annual Assessment Form*, on the accomplishments of their waste prevention and recycling activities. Partners report the amount of

waste prevented and recycled, amount of recycled-content materials purchased, and (where appropriate) the amount of recovered materials used in the manufacture of new products. They also provide WasteWise with information on total waste prevention revenue, total recycling revenue, total avoided purchasing costs due to waste prevention, and total avoided disposal costs due to recycling and waste prevention. Additionally, they are encouraged to submit new waste reduction goals.

Endorsers, which are typically trade associations or State/local governments, submit an *Endorser Registration Form* upon registering for the program. (This is an on-line form that is completed and is submitted electronically.) The *Endorser Registration Form* identifies the organization, the principal contact, and the activities to which the *Endorser* commits. EPA plans to expand the information requested of *Endorsers* by requiring them to submit a summary of their *endorser* activities annually. All registration and reporting information will be submitted electronically using the existing on-line, Web-based data management and reporting system.

EPA's WasteWise program uses the submitted information to (1) identify and recognize outstanding waste reduction achievements by individual organizations, (2) compile results that indicate overall accomplishments of WasteWise members, (3) identify cost-effective waste reduction strategies to share with other organizations, (4) identify topics on which to develop technical assistance materials and other information, and (5) further encourage the growth of industry-specific sustainable practices.

Burden Statement: The respondent burden for this collection is estimated to average 4 hours per response for the *Partner Registration Form*, 48 hours per response for the *Annual Assessment Form*, 4 hours per response for the *Endorser Registration Form*, and 3 hours per response for the *Endorser Annual Assessment Form*. This results in an estimated annual partner respondent burden of 51 hours for new partners, 48 hours for established partners, 7 hours for new endorsers, and 3 hours for established endorsers. The estimated number of respondents is 1,051 in Year 1; 1,138 in Year 2; and 1,225 in Year 3. Estimated total annual burden on all respondents is 28,899 hours in Year 1; 32,572 hours in Year 2; and 35,773 hours in Year 3.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a

Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 1,875.

Frequency of response: Annual.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 70,950.

Estimated total annual costs: \$0. This includes an estimated burden cost of \$0 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: January 31, 2011.
