Amended Tolerance

PP 0E7802. (EPA-HQ-OPP-2010-1018). Interregional Research Project Number 4 (IR-4), Rutgers, The State University of New Jersey, 500 College Road East, Suite 201W., Princeton, NJ 08540, proposes to amend the tolerance in 40 CFR 180.441 for residues of the herbicide quizalofop-ethyl (ethyl-2-[4-(6-chloroquinoxalin-2-yl oxy)phenoxy]propanoate), including its metabolites and degradates, by removing the established tolerance for canola, seed at 1.0 ppm from the table in paragraph (a)(3) upon the approval of the aforementioned tolerances under Unit II. "New Tolerance", as the individual tolerance will be superseded by inclusion in rapeseed subgroup 20A, except flax, seed. The petition also proposes to remove section (a)(4), as these tolerances expired on June 14, 1999.

The petition, PP 0E7802, also proposes to amend the tolerances in 40 CFR part 180.441 by combining the tables for sections (a)(1) and (a)(3) into one table under section (a)(1), and by removing section (a)(3). The petition further proposes to revise the tolerance expression under section (a)(1) to read as follows: "Tolerances are established for residues of the herbicide quizalofop ethyl, including its metabolites and degradates, in or on the commodities in the table below. Compliance with the tolerance levels specified below is to be determined by measuring only those quizalofop ethyl residues convertible to 2-methoxy-6-chloroquinoxaline, expressed as the stoichiometric equivalent of quizalofop ethyl, in or on the commodity."

The petition, PP 0E7802, additionally proposes to revise the tolerance expression under section (a)(2) to read as follows: "Tolerances are established for residues of the herbicide quizalofop ethyl, including its metabolites and degradates, in or on the commodities in the table below. Compliance with the tolerance levels specified below is to be determined by measuring only those quizalofop ethyl residues convertible to quizalofop (2-[4-(6-chloroquinoxalin-2-yl-oxy)phenoxy]propanoic acid), expressed as quizalofop, in or on the commodity."

Finally, the petition proposes to revise the tolerance expression under section (c) to read as follows: "Tolerances with regional registrations. Tolerances with regional registration are established for residues of the herbicide

quizalofop ethyl, including its metabolites and degradates, in or on the commodities in the table below.

Compliance with the tolerance levels specified below is to be determined by measuring only those quizalofop ethyl residues convertible to 2-methoxy-6-chloroquinoxaline, expressed as the stoichiometric equivalent of quizalofop ethyl, in or on the commodity." Contact: Laura E. Nollen, (703) 305-7390, Registration Division (7505P), e-mail address: nollen.laura@epa.gov.

New Tolerance Exemptions

1. PP 0E7697. (EPA-HQ-OPP-2010-0271). Novozymes, North America, Inc., P.O. Box 576, 77 Perry Chapel Church Road, Franklinton, NC 27525, proposes to establish an exemption from the requirement of a tolerance for residues of lipase, triacylglycerol (CAS Reg. No. 9001-62-1), under 40 CFR 180.950 when used as an inert ingredient in pesticide formulations as an aid in the removal of lipids when used in contact surface sanitizers. The petitioner believes no analytical method is needed because this petition is a request for an exemption from the requirement of a tolerance without numerical limitations. Contact: Elizabeth Fertich, (703) 347-8560, Registration Division (7505P), e-mail address: fertich.elizabeth@epa.gov.

2. PP 0F7778. (EPA-HQ-OPP-2011-0012). Marrone Bio Innovations, Inc., EPA Company No. 84059, 2121 Second St., Suite B-107, Davis, CA 95618, proposes to establish an exemption from the requirement of a tolerance for residues of the biological insecticide, *Burkholderia sp strain A396*, under 40 CFR part 180 in or on all agricultural commodities. An analytical method for detecting and measuring the levels of the pesticide residue for *Burkholderia sp strain A396* is not applicable. It is expected that when used as proposed, *Burkholderia sp strain A396* would not result in residues that are of toxicological concern. Contact: Anna Gross, (703) 305-5614, Biopesticides and Pollution Prevention Division (7511P), e-mail address: gross.anna@epa.gov.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2009-1017; FRL-8863-4]

Product Cancellation Order for Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations, voluntarily requested by the registrants and accepted by the Agency, of the products listed in Tables 1, 2, and 3 of Unit II., pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows the November 10, 2010 and November 17, 2010 **Federal Register** Notices of Receipt of Requests from the registrants listed in Table 4 of Unit II. to voluntarily cancel these product registrations. In these notices, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency received comments on the November 10, 2010 notice but none merited its further review of the requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective as noted in Unit IV. of this cancellation order.

FOR FURTHER INFORMATION CONTACT: Maia Tatinclaux, Pesticide Re-evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 347-0123; fax number: (703) 308-8090; e-mail address: tatinclaux.maia@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale,

distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How can I get copies of this document and other related information?

EPA has established a docket for this action under docket identification (ID) number EPA-HQ-OPP-2009-1017. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of

operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

II. What action is the agency taking?

This notice announces the cancellation, as requested by registrants, of 117 products registered under FIFRA section 3. These registrations are listed in sequence by registration number in Tables 1, 2, and 3 of this unit.

TABLE 1—PRODUCT CANCELLATIONS

EPA Reg. No.	Product name	Active ingredients

III. Summary of Public Comments Received and Agency Response to Comments

Comments were received from the American Mosquito Control Association

and the IR-4 Project on temephos. Both organizations emphasized the benefits of temephos as it is used in public health for mosquito control and requested that EPA extend the comment

period for these product cancellations. However, the Agency recognizes the role of temephos in mosquito control and has agreed to a 4-year phase-out of the product registrations to

accommodate this need and allow registrants time to develop replacement products. The current temephos products would not be cancelled until December 30, 2015. For these reasons, the Agency does not believe that the comment period should be extended.

IV. Cancellation Order

Pursuant to FIFRA section 6(f), EPA hereby approves the requested cancellations of the registrations identified in Tables 1, 2, and 3 of Unit II. Accordingly, the Agency hereby orders that the product registrations identified in Tables 1, 2, and 3 of Unit II. are cancelled. The effective date of the cancellation of the products listed in Tables 1 and 3 of this notice is February 25, 2011. The effective date of the cancellation of the products listed in Table 2 is December 31, 2015. Any distribution, sale, or use of existing stocks of the products identified in Tables 1, 2, and 3 of Unit II. in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI. will be a violation of FIFRA.

V. What is the agency's authority for taking this action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request. The notices of receipt for this action were published for comment in the **Federal Register** issues of November 10, 2010 (75 FR 69073) (FRL-8851-5) and November 17, 2010 (75 FR 70256) (FRL-8850-1). The comment periods closed on December 10, 2010 and December 17, 2010 respectively.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The existing stocks provisions for the products subject to this order are as follows.

A. For All Products Listed in Table 1 of Unit II

The registrants may continue to sell and distribute existing stocks of products listed in Table 1 of Unit II.

until February 25, 2012, which is 1 year after the publication of the Cancellation Order in the **Federal Register**.

Thereafter, the registrants are prohibited from selling or distributing products listed in Table 1, except for export in accordance with FIFRA section 17, or proper disposal. Persons other than the registrants may sell, distribute, or use existing stocks of products listed in Table 1 of Unit II. until existing stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

B. For All Products Listed in Table 2 of Unit II

After December 31, 2015, registrants are prohibited from selling or distributing existing stocks of products containing temephos labeled for all uses.

After December 31, 2016, persons other than registrants are prohibited from selling or distributing existing stocks of products containing temephos labeled for all uses.

After December 31, 2016, existing stocks of products containing temephos labeled for all uses, already in the hands of users can be used legally until they are exhausted, provided that such use complies with the EPA-approved label and labeling of the affected product.

C. For All Products Listed in Table 3 of Unit II

All sale or distribution by the registrant of existing stocks is prohibited after publication of the cancellation order in the **Federal Register**, unless that sale or distribution is solely for the purpose of facilitating disposal or export of the product.

Existing stocks may be sold and distributed by persons other than the registrant for 120 days from the effective date of the cancellation order.

Existing stocks may be used until exhausted, provided that such use complies with the EPA-approved label and labeling of the product.

List of Subjects

Environmental protection, Pesticides and pests.

Dated: February 8, 2011.

Richard P. Keigwin, Jr.,

Director, Pesticide Re-evaluation Division,
Office of Pesticide Programs.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA/100/R-11/001; FRL-9270-7]

Notice of Availability; Recommended Use of Body Weight^{3/4} as the Default Method in Derivation of the Oral Reference Dose

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of "Recommended Use of Body Weight^{3/4} as the Default Method in Derivation of the Oral Reference Dose" (referred to hereafter as BW^{3/4}). This document was developed as part of an Agency-wide guidance development program by a technical panel of the U.S. EPA's Risk Assessment Forum, composed of scientists from across the Agency. Selected drafts were peer reviewed internally by EPA scientists and externally by experts from academia, industry, environmental groups and other government agencies.

DATES: The document will be available for use by EPA risk assessors on February 25, 2011.

ADDRESSES: The Guidelines are available electronically through the EPA Web site at <http://www.epa.gov/raf/publications/interspecies-extrapolation.htm>. A limited number of paper copies will be available from EPA's National Service Center for Environmental Publications (NSCEP), P.O. Box 42419, Cincinnati, OH 45242; telephone (800) 490-9198 or (513) 489-8695; facsimile: (513) 489-8190. Please provide your name, mailing address and the title and number of the requested publication. Additionally, copies of the document will be available for inspection at EPA headquarters and regional libraries, through the U.S. Government Depository Library program.

FOR FURTHER INFORMATION CONTACT: Dr. Michael W. Broder, Risk Assessment Forum, Office of the Science Advisor (8105R), U.S. Environmental Protection Agency, Washington, DC 20460; telephone (202) 564-3393 or e-mail: broder.michael@epa.gov.

SUPPLEMENTARY INFORMATION: In order to assess the toxicity of a particular chemical in the absence of human data, EPA relies on the use of animal models as surrogates. EPA endorses a hierarchy of approaches to derive human equivalent oral exposures from data from laboratory animal species, with the preferred approach being physiologically based toxicokinetic
