

modeling. As a default method to account for differences in dosimetry between the animal models and humans, EPA previously applied a direct body-weight conversion from the model to humans (*i.e.*, $BW^{1/1}$) for non-cancer endpoints, in the absence of chemical-specific data. In contrast, EPA applies a dosimetric adjustment factor (DAF) based on body weight raised to the three-quarter power ($BW^{3/4}$) for cancer assessments. By adopting the adjustment, this document moves in the direction of harmonizing the approach for assessing cancer and noncancer endpoints.

In addition to laying out the computational method for interspecies extrapolation, the document also addresses the issue of changes to the interspecies uncertainty factor (UF_A). The document recommends a reduced interspecies UF_A (with a default value of 3) in lieu of a default of 10 for the reference dose (RfD) calculation. The quantitative significance of this procedure with regard to the magnitude of an RfD will depend on the body weight of the species (as well as the value assigned to the UF_A) and may be more or less than the current procedure of dividing by the default composite UF_A of 10.

$BW^{3/4}$ scaling for derivation of the human equivalent dose is recommended as the default approach for RfDs for remote, as well as portal-of-entry effects. It is noted that this scaling is not inclusive of lethal or frank effects for which maximum concentration (C_{max}) may be the most appropriate dose metric and that such effects are not among those effects recommended for use in deriving RfDs (USEPA, 2002). This default approach generally applies to different durations of exposure. The reader is encouraged to read the document carefully, however, in order to fully understand how to apply the policy appropriately. Additionally, although non-oral RfDs can be estimated (*e.g.*, a dermal RfD), this document focuses only on oral RfDs and for this document the acronym refers only to RfDs for oral exposure.

It is recognized that this procedure, as with all default procedures, may not always predict oral exposures associated with precise toxicologically-equivalent doses for specific chemicals. It should be emphasized that other biological information not discussed in this document may inform interspecies adjustments. As a general default procedure, however, it may be anticipated to provide a reasonable description of average behavior of many chemicals much of the time.

Even though this document is not a binding rule, EPA is issuing it in a manner consistent with the procedures in the Administrative Procedure Act that are generally applicable to rulemaking, including providing opportunity for public comment. EPA considered and responded to all significant public comments as it prepared the document.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

February 18, 2011.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, 44 U.S.C. 3501—3520. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology, and (e) ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a currently valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before April 26, 2011. If you anticipate that you will be submitting PRA comments, but find it

difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to the Federal Communications Commission via e-mail to PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Judith B. Herman, Office of Managing Director, (202) 418-0214. For additional information, contact Judith B. Herman, OMD, 202-418-0214 or e-mail judith-b.herman@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1113.

Title: Commercial Mobile Alert System (CMAS).

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 1,253 respondents; 1,253 responses.

Estimated Time per Response: .5 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. 151, 154(i), 154(j), 154(o), 218, 219, 230, 256, 301, 302(a), 303(f), 303(g), 303(j), 303(r), 403, 621(b)(3), and 621(d).

Total Annual Burden: 627 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission will submit this expiring information collection after this comment period to the Office of Management and Budget (OMB) to obtain the three year clearance from them. The Commission is reporting a 502 hour increase in the total annual burden. The Commission will submit this collection to the OMB as a revision.

This information collection is being submitted because, in the *Third Report and Order* in PS Docket No. 07-287, FCC 08-184, the Commission adopted rules that require Commercial Mobile Service (CMS) providers to collect information subject to the Paperwork Reduction Act. In the *Third Report and Order*, the Commission adopted rules obligating entities participating in the Commercial Mobile Alert System (CMAS) to provide written election of intent to participate in the CMAS.

All CMS providers are required to submit a CMAS election, including those that were not licensed at the time of the initial deadline for filing an

election with the FCC. In addition, any CMS provider choosing to withdraw its election must notify the Commission at least sixty (60) days prior to withdrawal of its election. The information collected will be the CMS provider's contact information and its election, *i.e.*, "yes" or "no", on whether it intends to provide commercial mobile service alerts.

The Commission will use this information collected to meet its statutory requirement under the WARN Act to accept licensees' election filings

and to establish an effective CMAS that will provide the public with effective mobile alerts in a manner that imposes minimal regulatory burdens on affected entities.

Federal Communications Commission.
