information that may disclose: Trade secrets and commercial or financial information obtained from a person and privileged or confidential; and information the premature disclosure of which would be likely to significantly frustrate implementation of a proposed agency action. The meeting from 9:30 a.m. until 12:30 p.m. on Friday, February 25, 2011 is open to the public.

If you need special accommodations due to a disability, please contact: Institute of Museum and Library Services, 1800 M Street, NW., 9th Fl., Washington, DC 20036. Telephone: (202) 653–4676; TDD (202) 653–4614 at least seven (7) days prior to the meeting date.

Dated: February 17, 2011.

Nancy Weiss,
General Counsel.

NUCLEAR REGULATORY COMMISSION

Draft Regulatory Guide: Issuance, Availability

AGENCY: Nuclear Regulatory Commission.

FOR FURTHER INFORMATION CONTACT: Satish Aggarwal, U. S. Nuclear Regulatory Commission, Washington, DC 20555–0001, telephone: 301–251–7627 or e-mail: Satish.Aggarwal@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC or Commission) is issuing for public comment a draft guide in the agency’s “Regulatory Guide” series. This series was developed to describe and make available to the public such information as methods that are acceptable to the NRC staff for implementing specific parts of the NRC’s regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses. The draft regulatory guide (DG), entitled “Qualification of Connection Assemblies for Nuclear Power Plants,” is temporarily identified by its task number, DG–1254, which should be mentioned in all related correspondence. DG–1254 is proposed Revision 1 of Regulatory Guide 1.156, dated November 1987.

This guide describes a method that the NRC considers acceptable for complying with the Commission’s regulations on the environmental qualification of connection assemblies and environmental seals in combination with cables or wires as assemblies for service in nuclear power plants. The environmental qualification helps ensure that connection assemblies can perform their safety functions during and after a design-basis event.

In 10 CFR 50.49, “Environmental Qualification of Electric Equipment Important to Safety for Nuclear Power Plants,” the NRC requires that certain electric equipment important to safety be qualified for its application and specified performance. The regulation also identifies requirements for establishing environmental qualification methods and qualification parameters.

II. Further Information

The NRC staff is soliciting comments on DG–1254. Comments may be accompanied by relevant information or supporting data and should mention DG–1254 in the subject line. Comments submitted in writing or in electronic form will be made available to the public in their entirety through the NRC’s Agencywide Documents Access and Management System (ADAMS).

Comments would be most helpful if received by April 27, 2011. Comments received after that date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Although a time limit is given, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

ADDRESSES: You may submit comments by any one of the following methods. Please include Docket ID NRC–2011–0046 in the subject line of your comments. Comments submitted in writing or in electronic form will be posted on the NRC Web site and on the Federal rulemaking Web site Regulations.gov. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their
comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed.

Mail comments to: Cindy K. Bladey, Chief, Rules, Announcements, and Directives Branch (RADB), Office of Administration, Mail Stop: TBW–05–B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, or by fax to RADB at 301–492–3446.

You can access publicly available documents related to this notice using the following methods:

- NRC's Public Document Room (PDR): The public may examine and have copied for a fee publicly available documents at the NRC’s PDR, Room O1 F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland.

- NRC's Agencywide Documents Access and Management System (ADAMS): Publicly available documents created or received at the NRC are available electronically at the NRC’s Electronic Reading Room at http://www.nrc.gov/reading-rm/adams.html. From this page, the public can gain entry into ADAMS, which provides text and image files of NRC’s public documents. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC’s PDR reference staff at 1–800–397–4209, 301–415–4737, or by e-mail to pdr.resource@nrc.gov. The Transfer Order is provided at the end of this notice and is available electronically under ADAMS Accession Number ML110280485.

Federal rulemaking Web site: Public comments and supporting materials related to this notice can be found at http://www.regulations.gov by searching on Docket ID: NRC–2011–0042.

FOR FURTHER INFORMATION CONTACT: Ken Kalman, Project Manager, Decommissioning and Uranium Recovery Licensing Directorate, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; Telephone: 301–415–6664; fax number 301–415–5369; e-mail: kenneth.kalman@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC has signed an Order (copy included) dated February 14, 2011, transferring Source Material License SNM–928 for the Cimarron Facility in Crescent, Oklahoma to the Cimarron Environmental Response Trust (Trust). The Trust will be administered by Environmental Properties Management, LLC.
