

(king mackerel, Spanish mackerel, cero, cobia, little tunny, and, in the Gulf of Mexico only, dolphin and bluefish) is managed under the Fishery Management Plan for the Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic (FMP). The FMP was prepared by the Gulf of Mexico and South Atlantic Fishery Management Councils (Councils) and is implemented under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

Based on the Councils' recommended total allowable catch and the allocation ratios in the FMP, on April 30, 2001 (66 FR 17368, March 30, 2001) NMFS implemented a commercial quota of 2.25 million lb (1.02 million kg) for the eastern zone (Florida) of the Gulf migratory group of king mackerel. That quota is further divided into separate quotas for the Florida east coast subzone and the northern and southern Florida west coast subzones. The quota implemented for the Florida east coast subzone is 1,040,625 lb (472,020 kg) (50 CFR 622.42(c)(1)(i)(A)(1)).

Under 50 CFR 622.43(a)(3), NMFS is required to close any segment of the king mackerel commercial sector when its quota has been reached, by filing a notification with the Office of the Federal Register. NMFS has determined that the commercial quota of 1,040,625 lb (472,000 kg) for Gulf group king mackerel in the Florida east coast subzone will be reached on February 26, 2011. Accordingly, the commercial sector for king mackerel in the Florida east coast subzone is closed at 12:01 a.m., local time, February 26, 2011, until 12:01 a.m., local time, April 1, 2011.

From November 1 through March 31 the Florida east coast subzone of the Gulf group king mackerel is that part of the eastern zone north of 25°20.4' N. lat. (a line directly east from the Miami-Dade/Monroe County, FL, boundary) to 29°25' N. lat. (a line directly east from the Flagler/Volusia County, FL, boundary). Beginning April 1, the boundary between Atlantic and Gulf groups of king mackerel shifts south and west to the Monroe/Collier County boundary on the west coast of Florida. From April 1 through October 31, king mackerel harvested along the east coast of Florida, including all of Monroe County, are considered to be Atlantic group king mackerel.

Classification

This action responds to the best available information recently obtained from the fisheries. The Assistant Administrator for Fisheries, NOAA

(AA), finds that the need to immediately implement this action to close the Florida east coast subzone to commercial king mackerel fishing constitutes good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such prior notice and opportunity for public comment is unnecessary and contrary to the public interest. Such procedures would be unnecessary because the rule implementing the quota and the associated requirement for closure of the commercial harvest when the quota is reached or projected to be reached has already been subject to notice and comment, and all that remains is to notify the public of the closure.

Allowing prior notice and opportunity for public comment on this action would be contrary to the public interest because any delay in the closure of the commercial harvest could result in the commercial quota being exceeded. There is a need to immediately implement this action to protect the king mackerel resource because the capacity of the fishing fleet allows for rapid harvest of the quota. Prior notice and opportunity for public comment would require time and would potentially result in a harvest well in excess of the established quota.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

This action is taken under 50 CFR 622.43(a) and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 23, 2011.

RIN 0648-XA237

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 610 in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; modification of a closure.

SUMMARY: NMFS is opening directed fishing for pollock in Statistical Area 610 of the Gulf of Alaska (GOA). This action is necessary to fully use the A season allowance of the 2011 total allowable catch (TAC) of pollock in Statistical Area 610 of the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), February 27, 2011, through 1200 hrs, A.l.t., March 10, 2011. Comments must be received at the following address no later than 4:30 p.m., A.l.t., March 10, 2011.

ADDRESSES: Send comments to James W. Balsiger, Regional Administrator, Alaska Region, NMFS, Attn: Ellen Sebastian. You may submit comments, identified by RIN 0648-XA237, by any one of the following methods:

- *Electronic Submissions:* Submit all electronic public comments via the Federal eRulemaking Portal <http://www.regulations.gov>.
- *Mail:* P.O. Box 21668, Juneau, AK 99802.
- *Fax:* (907) 586-7557.
- *Hand delivery to the Federal Building:* 709 West 9th Street, Room 420A, Juneau, AK.

Instructions: All comments received are a part of the public record. Comments will generally be posted without change. All Personal Identifying Information (for example, name, address, *etc.*) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

NMFS will accept anonymous comments (enter N/A in the required fields, if you wish to remain anonymous). You may submit attachments to electronic comments in Microsoft Word, Excel, WordPerfect, or Adobe PDF file formats only.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

NMFS closed directed fishing for pollock in Statistical Area 610 of the GOA under § 679.20(d)(1)(iii) on January 23, 2011 (76 FR 4082, January 24, 2011).

As of February 16, 2011, NMFS has determined that approximately 4,693 metric tons of pollock remain in the directed fishing allowance for pollock in Statistical Area 610 of the GOA.

Therefore, in accordance with § 679.25(a)(1)(i), (a)(2)(i)(C), and (a)(2)(iii)(D), and to fully utilize the A season allowance of the 2011 TAC of pollock in Statistical Area 610 of the GOA, NMFS is terminating the previous closure and is reopening directed fishing pollock in Statistical Area 610 of the GOA. The Administrator, Alaska Region (Regional Administrator) considered the following factors in reaching this decision: (1) The current catch of pollock in Statistical Area 610 of the GOA and, (2) the harvest capacity and stated intent on future harvesting patterns of vessels in participating in this fishery.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the opening of the pollock fishery in Statistical Area 610 of the GOA. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery, to allow the industry to plan for the fishing season, and to avoid potential disruption to the fishing fleet and processors. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of February 15, 2011.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Without this inseason adjustment, NMFS could not allow pollock fishery in Statistical Area 610 of the GOA to be harvested in an expedient manner and in accordance with the regulatory schedule. Under § 679.25(c)(2), interested persons are invited to submit

written comments on this action to the above address until March 10, 2011.

This action is required by § 679.25 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 23, 2011.

Margo Schulze-Haugen,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-XA252

Fisheries of the Exclusive Economic Zone Off Alaska; Atka Mackerel in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Atka mackerel in the Bering Sea subarea and Eastern Aleutian district (BS/EAI) of the Bering Sea and Aleutian Island management area (BSAI) by vessels participating in the BSAI trawl limited access fishery. This action is necessary to prevent exceeding the A season allowance of the 2011 Atka mackerel total allowable catch (TAC) in these areas allocated to vessels participating in the BSAI trawl limited access fishery.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), February 23, 2011, through 1200 hrs, A.l.t., June 10, 2011.

FOR FURTHER INFORMATION CONTACT: Steve Whitney, 907-586-7269.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The A season allowance of the 2011 Atka mackerel TAC, in the BS/EAI, allocated to vessels participating in the BSAI trawl limited access fishery was established as a directed fishing allowance of 1,429 metric tons by the final 2010 and 2011 harvest specifications for groundfish in the BSAI (75 FR 11778, March 12, 2010) and inseason adjustment (76 FR 1539, January 11, 2011).

In accordance with § 679.20(d)(1)(iii), the Administrator, Alaska Region, NMFS, finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Atka mackerel by vessels participating in the BSAI trawl limited access fishery in the BS/EAI.

After the effective dates of this closure, the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, (AA) finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such a requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of the Atka mackerel fishery in the BS/EAI for vessels participating in the BSAI trawl limited access fishery. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of February 22, 2011. The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 23, 2011.
