**Major Issues Raised by Korea**

On January 31, 2011, Korea requested consultations concerning antidumping measures regarding corrosion-resistant carbon steel flat products from Korea. Korea challenges what it describes as the “use of the practice of zeroing negative dumping margins in administrative reviews, sunset reviews, and liquidations of antidumping duties with and without reviews, concerning the case of corrosion-resistant carbon steel flat products from Korea,” as well as “the imposition of cash deposit requirements and the final assessment of antidumping duties pursuant thereto” and “the ongoing conduct reflected by the use of the zeroing methodology in successive proceedings in that case.”

Korea also states that it would like to raise the following “matters”: (1) The Tariff Act of 1930, in particular, sections 731, 751, 752, 771(35)(A) and (B), and 777A(c) and (d); (2) the Statement of Administrative Action that accompanied the Uruguay Round Agreements Act, H.R. Doc. No. 103-316, vol. I; (3) implementing regulations of the Department of Commerce, 19 CFR section 351, in particular, sections 351.212(b) and (c), 351.218, and 351.414; (4) the Import Administration Antidumping Manual (1997 edition), including the computer program(s) to which it refers; (5) the Department of Commerce Policy Bulletin 98.3, “Policies Regarding the Conduct of Five-year (‘Sunset’) Reviews of Antidumping and Countervailing Duty Orders” (“Sunset Policy Bulletin”), 63 FR 18871 (16 April 1998); (6) “the general procedures and methodology employed by the United States for determining dumping margins in administrative reviews, sunset reviews, and duty assessment determinations”; and (7) “the general procedures and methodology
