NUCLEAR REGULATORY COMMISSION

[Docket No. 50-305; NRC-2008-0484]

Dominion Energy Kewaunee, Inc.; Kewaunee Power Station; Notice of Issuance of Renewed Facility Operating License No. DPR-43 for an Additional 20-Year Period; Record of Decision

Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC, the Commission) has issued a renewed facility operating license No. DPR-43 to Dominion Energy Kewaunee, Inc. (licensee), the operator of the Kewaunee Power Station (KPS). Renewed facility operating license No. DPR-43 authorizes operation of KPS by the licensee at reactor core power levels not in excess of 1772 megawatts thermal, in accordance with the provisions of the KPS renewed license and its technical specifications.

The notice also serves as the record of decision for the renewal of facility operating license No. DPR-43, consistent with Title 10 of the Code of Federal Regulations Section 51.103 (10 CFR 51.103). As discussed in the final supplemental environmental impact statement (FSEIS) for KPS, dated August 2010, the Commission has considered a range of reasonable alternatives that included supercritical coal-fired generation; natural gas combined-cycle generation; a combination of conservation, efficiency, wood-fired generation, and wind power; and non-renewal of the operating license. The factors considered in the record of decision can be found in the supplemental environmental impact statement (SEIS) for KPS.

KPS is a pressurized-water reactor located near the Town of Carlton, Wisconsin. The application for the renewed license complied with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. As required by the Act and the Commission's regulations in 10 CFR Chapter I, the Commission has made appropriate findings, which are set forth in the license. Prior public notice of the action involving the proposed issuance of the renewed license and of an opportunity for a hearing regarding the

proposed issuance of the renewed license was published in the **Federal Register** on October 1, 2008 (73 FR 57154).

For further details with respect to this action, see: (1) Dominion Energy Kewaunee, Inc. license renewal application for KPS dated August 12, 2008, as supplemented by letters through November 23, 2010; (2) the Commission's safety evaluation report (NUREG-1958), published in January 2011; (3) the licensee's updated safety analysis report; and (4) the Commission's final environmental impact statement (NUREG-1437, Supplement 40), for KPS, published in August 2010. These documents are available at the NRC's Public Document Room, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, and can be viewed from the NRC Public Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>.

Box 371954, Pittsburgh, Pennsylvania 15250-7954 (<http://www.gpoaccess.gov>), 202-512-1800. The Postal Service explains that commercial First-Class Mail Parcels refers to the First-Class Mail Commercial Base Parcels and the First-Class Mail Commercial Plus Parcels price categories of the First-Class Mail Parcels product. *Id.* at 1, n.1. the Private Express Statutes. This proposal does not affect the current market dominant retail First-Class Mail Parcels offerings.

The Postal Service includes the following attachments with its Request:
