

FAA that have contributed significantly to the agency's ability to meet its regulatory obligations.

In recent years, the level of effort in ARAC has been reduced to the point that the FAA believes it may be appropriate to reorganize the committee in order to align the structure more closely with its current level of effort while maintaining its effectiveness. The FAA is considering reconstituting a new ARAC that reduces the over-arching layer of 55 members to a maximum of 25, eliminates the Executive Committee, while continuing to achieve balance across the broad spectrum of aviation stakeholders and interests. The FAA invites interested persons to participate in this request for comments by submitting written comments, data, or views. The most helpful comments clearly explain the reason for any position.
