Request for Information on Conditions Relating to Cancer to Consider for the World Trade Center Health Program

AGENCY: National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice and request for public comments.

SUMMARY: The Director of the National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC) serves as the World Trade Center (WTC) Program Administrator for certain functions related to the WTC Health Program established by the James Zadroga 9/11 Health and Compensation Act (Pub. L. 111-347). In accordance with Section 3312(a)(5)(A) of that Act, the WTC Program Administrator is conducting a review of all available scientific and medical evidence to determine if, based on the scientific evidence, cancer or a certain type of cancer should be added to the applicable list of health conditions covered by the World Trade Center Health Program.

The WTC Program Administrator is requesting information on the following: (1) Relevant reports, publications, and case information of scientific and medical findings where exposure to

airborne toxins, any other hazard, or any other adverse condition resulting from the September 11, 2001 terrorist attacks, is substantially likely to be a significant factor in aggravating, contributing to, or causing cancer or a type of cancer; (2) clinical findings from the Clinical Centers of Excellence providing monitoring and treatment services to WTC responders (*i.e.*, those persons who performed rescue, recovery, clean-up and remediation work on the WTC disaster sites) and community members directly exposed to the dust cloud on 9/11/01; and (3) input on the scientific criteria to be used by experts to evaluate the weight of the medical and scientific evidence regarding such potential health conditions.

DATES: Comments must be received by March 31, 2011.
