Animal and Plant Health Inspection Service

[Docket No. APHIS–2011–0011]

Availability of an Environmental Assessment for Field Testing Fowl Laryngotracheitis-Marek’s Disease Vaccine, Serotype 3, Live Marek’s Disease Vector

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that the Animal and Plant Health Inspection Service has prepared an environmental assessment concerning authorization to ship for the purpose of field testing, and then to field test, an unlicensed Fowl Laryngotracheitis-Marek’s Disease Vaccine, Serotype 3, Live Marek’s Disease Vector. The environmental assessment, which is based on a risk analysis prepared for the field testing of this vaccine, examines the potential effects that field testing this veterinary vaccine could have on the quality of the human environment. Based on the risk analysis, we have reached a preliminary determination that field testing this veterinary vaccine will not have a significant impact on the quality of the human environment, and that an environmental impact statement need not be prepared. We intend to authorize shipment of this vaccine for field testing following the close of the comment period for this notice unless new substantial issues bearing on the effects of this action are brought to our attention. We also intend to issue a U.S. Veterinary Biological Product license for this vaccine, provided the field test data support the conclusions of the environmental assessment and the issuance of a finding of no significant impact and the product meets all other requirements for licensing.

DATES: We will consider all comments that we receive on or before April 8, 2011.

ADDRESSES: You may submit comments by either of the following methods:

- Postal Mail/Commercial Delivery: Please send one copy of your comment to Docket No. APHIS–2011–0011, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road, Unit 118, Riverdale, MD 20737–1238. Please state that your comment refers to Docket No. APHIS–2011–0011. Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690–2817 before coming.
- Other Information: Additional information about APHIS and its programs is available on the Internet at http://www.aphis.usda.gov.

FOR FURTHER INFORMATION CONTACT: Dr. Albert P. Morgan, Section Leader, Operational Support Section, Center for Veterinary Biologics, Policy, Evaluation, and Licensing, VS, APHIS, 4700 River Road Unit 148, Riverdale, MD 20737–1231; phone (301) 734–8245, fax (301) 734–4314.

For information regarding the environmental assessment or the risk analysis, or to request a copy of the environmental assessment (as well as the risk analysis with confidential business information removed), contact Dr. Patricia L. Foley, Risk Manager, Center for Veterinary Biologics, Policy, Evaluation, and Licensing VS, APHIS, 1920 Dayton Avenue, P.O. Box 844, Ames, IA 50010; phone (515) 337–6100, fax (515) 337–6120.

SUPPLEMENTARY INFORMATION: Under the Virus-Serum-Toxin Act (21 U.S.C. 151 et seq.), a veterinary biological product must be shown to be pure, safe, potent, and efficacious before a veterinary biological product license may be issued. A field test is generally necessary to satisfy prelicensing requirements for veterinary biological products. Prior to conducting a field test on an unlicensed product, an applicant must obtain approval from the Animal and Plant Health Inspection Service (APHIS), as well as obtain APHIS’ authorization to ship the product for field testing.

To determine whether to authorize shipment and grant approval for the field testing of the unlicensed product referenced in this notice, a risk analysis has been prepared to assess the potential effects of this product on the safety of animals, public health, and the environment. Based on the risk analysis, APHIS has prepared an environmental assessment (EA) concerning the field testing of the following unlicensed veterinary biological product:

Requester: Biomune Company.
Product: Fowl Laryngotracheitis-Marek’s Disease Vaccine, Serotype 3, Live Marek’s Disease Vector.
Field Test Locations: Alabama, Delaware, Pennsylvania, and Texas.

The above-mentioned product consists of a live recombinant Marek’s disease virus vector expressing certain fowl laryngotracheitis virus proteins. The vaccine is for in ovo vaccination of 18-day-old chick embryos or for the subcutaneous vaccination of healthy day-of-age chicks as an aid in the prevention of Marek’s Disease and infectious laryngotracheitis.

The EA has been prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 et seq.), (2) regulations of the Council on Environmental Quality for implementing the procedural provision of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS’ NEPA Implementing Procedures (7 CFR part 372).

Unless substantial issues with adverse environmental impacts are raised in response to this notice, APHIS intends to issue a finding of no significant impact (FONSI) based on the EA and authorize shipment of the above product for the initiation of field tests following the close of the comment period for this notice.

Because the issues raised by field testing and by issuance of a license are
identical, APHIS has concluded that the EA that is generated for field testing would also be applicable to the proposed licensing action. Provided that the field test data support the conclusions of the original EA and the issuance of a FONSI, APHIS does not intend to issue a separate EA and FONSI to support the issuance of the product license, and would determine that an environmental impact statement need not be prepared. APHIS intends to issue a veterinary biological product license for this vaccine following completion of the field test provided no adverse impacts on the human environment are identified and provided the product meets all other requirements for licensing.

Done in Washington, DC, this 4th day of March 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

DEPARTMENT OF AGRICULTURE

Forest Service

Dixie Resource Advisory Committee

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Dixie Resource Advisory Committee will meet in Cedar City, Utah. The committee is meeting as authorized under the Secure Rural Schools and Community Self-Determination Act. The purpose of this meeting is to make recommendations for Title II projects. The March 16, 2011 meeting has been cancelled.

DATES: Wednesday, March 30, 2011.

ADDRESSES: The meeting will be held at Paiute Tribe of Utah Headquarters, 440 North Paiute Drive (200 East), Cedar City, Utah. The public is invited to attend the meetings.

FOR FURTHER INFORMATION CONTACT:

Kenton Call, RAC Coordinator, Dixie National Forest, (435) 865–3730; e-mail: ccall@fs.fed.us.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8 a.m. and 8 p.m., Eastern Standard Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The meeting is open to the public. A public forum will begin at 3:15 p.m. (PST) on the first meeting day. The following business will be conducted: Comments and questions from the public to the committee. Persons who wish to bring related matters to the attention of the Committee may file written statements with the Committee staff before or after the meeting.

Dated: March 1, 2011.

Rick Brazell,
Forest Supervisor.
