SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

The information collection requirements contained in the Notice of Funds Availability for the Section 9004 Repowering Assistance Payments to Eligible Biorefineries program published on June 12, 2009, were approved by the Office of Management and Budget (OMB) under emergency clearance procedures and assigned OMB Control Number 0570-0058. As noted in the June 12, 2009 notice, the Agency sought emergency clearance to comply with the time frames mandated by a Presidential Memorandum in order to implement the Program as quickly as possible, having determined that providing for public comment under the normal procedure would unduly delay the provision of benefits associated with this Program and be contrary to the public interest. Now, however, in accordance with the Paperwork Reduction Act of 1995, the Agency is seeking standard OMB approval of the reporting and recordkeeping requirements contained in the interim rule. In the publication of the proposed rule on April 16, 2010, the Agency solicited comments on the estimated burden. The Agency received no comments in response to this solicitation. This information collection requirement will not become effective until approved by OMB. Upon approval of this information collection, the Agency will publish a notice in the **Federal Register**.

I. Funding Opportunity Description

A. Purpose of the Program. The purpose of this program is to provide financial incentives to biorefineries in existence on June 18, 2008, the date of the enactment of the Food, Conservation, and Energy Act of 2008 (the 2008 Farm Bill) (Pub. L. 110-246), to replace the use of fossil fuels used to produce heat or power at their facilities by installing new systems that use renewable biomass, or to produce new energy from renewable biomass.

B. Statutory Authority. This program is authorized under Title IX, Section 9001, of the Food, Conservation, and Energy Act of 2008 (Pub. L. 110-246).

C. Definition of Terms. The definitions applicable to this Notice are published at 7 CFR 4288.2.

II. Award Information

A. Available funds. The Agency is authorizing at least \$25 million for this program in Fiscal Year 2011, in addition to any carry-over funds from Fiscal Year 2010.

B. Number of payments. The number of payments will depend on the number of participating biorefineries.

C. Amount of payments. The Agency will determine the amount of payments to be made to a biorefinery taking into consideration the percentage reduction in fossil fuel used by the biorefinery (including the quantity of fossil fuels a renewable biomass system is replacing) and the cost and cost-effectiveness of the renewable biomass system.

D. Payment limitations. There is no minimum payment amount that an individual biorefinery can receive. The maximum amount an individual biorefinery can receive under this Notice is 50 percent of total eligible project costs up to a maximum of \$5 million.

E. Project costs. Eligible project costs will be only for project related construction costs for repowering improvements associated with the equipment, installation, engineering, design, site plans, associated professional fees, permits and financing fees. Any project costs incurred by the applicant prior to application for payment assistance under this Notice will be ineligible for payment assistance.

F. Type of instrument. Payment agreement.

III. Eligibility Information

A. Eligible applicants. To be eligible for this program, an applicant must be a biorefinery that has been in existence on June 18, 2008, utilizing only renewable biomass for replacement fuel.

B. Ineligible projects. A project is not eligible under this Notice if it is using feedstocks for repowering that are feed grain commodities that received benefits under Title I of the Food, Conservation, and Energy Act of 2008.

C. Other eligibility requirements.

Multiple submissions. Corporations and entities with more than one biorefinery can submit an application for only one of their biorefineries. However, if a corporation or entity has multiple biorefineries located at the same location, the entity may submit an application that covers such biorefineries provided the heat and power used in the multiple biorefineries are centrally produced.

Cost Effectiveness. To be eligible, the project must have a simple payback period of no more than 10 years (*i.e.*, must be awarded at least 5 points for cost-effectiveness under 7 CFR 4288.21(b)(1)).

Percentage of reduction of fossil fuel use. To be eligible, the applicant must demonstrate that the repowering project has an anticipated annual reduction in fossil fuel use of at least 40 percent (*i.e.*, the application must be awarded at least 5 points for percentage of reduction of fossil fuel use under 7 CFR 4288.21(b)(2)).

Full project financing. The applicant must demonstrate that it has sufficient funds or has obtained commitments for sufficient funds to complete the repowering project taking into account the amount of the payment request in the application.

IV. Fiscal Year 2011 Application and Submission Information

A. To request applications. Application materials, including application forms, regulations, instructions, and other materials related to this program, are available from the USDA Rural Development State Office, Renewable Energy Coordinator and the USDA Rural Development Web site at http://www.rurdev.usda.gov/BCP_RepoweringAssistance.html.

B. Content and form of submission. Applicants must submit a signed original and one copy of an application containing all the information specified in 7 CFR 4288.20(b) and (c).

C. Submission dates and times. Applications to participate in this program for Fiscal Year 2011 must be submitted between March 11, 2011 and

June 9, 2011. Applications received after 4:30 pm June 9, 2011, regardless of their postmark, will not be considered by the Agency for Fiscal Year 2011 payments.

D. Payment provisions. Fiscal Year 2011 payments will be made according to the provisions specified in 7 CFR 4288.13(b) and (c) and in 7 CFR 4288.24.

V. Application Review and Selection Information

The Agency will evaluate projects based on the cost, cost-effectiveness, and capacity of projects to reduce fossil fuels. The cost of the project will be taken into consideration in the context of each project's ability to economically produce energy from renewable biomass to replace its dependence on fossil fuels. Projects with higher costs that are less efficient will not score well. The scoring criteria are designed to evaluate projects on simple payback as well as the percentage of fossil fuel reduction.

A. Review. The Agency will review applications submitted under this Notice in accordance with 7 CFR 4288.21(a).

B. Scoring. The Agency will score applications submitted under this Notice in accordance with 7 CFR 4288.21(b).

C. Ranking and selecting applications. All scored applications will be ranked by the Agency as soon after June 9, 2011 as possible. The Agency will consider the score an application has received compared to the scores of other applications in the priority list, with higher scoring applications receiving first consideration for payments. Using the application scoring criteria point values specified in 7 CFR 4288.21, the Agency will select applications for payments.

D. Availability of funds. As applications are funded, if insufficient funds remain to pay the next highest scoring application, the Agency may elect to pay a lower scoring application. Before this occurs, the Agency will provide the applicant of the higher scoring application the opportunity to reduce the amount of its payment request to the amount of funds available. If the applicant agrees to lower its payment request, it must certify that the purposes of the project can be met, and the Agency must determine the project is feasible at the lower amount.

VI. Administration Information

A. Notice of eligibility. The provisions of 7 CFR 4288.23 apply to this Notice. These provisions include notifying an applicant determined to be eligible for participation and notifying an applicant

determined to be ineligible, including their application score and ranking and the score necessary to qualify for payments.

(4) *Reporting.* Upon completion of the repowering project funded under this Notice, the biorefinery must submit a report, in accordance with 7 CFR 4288.5(c), to the Agency annually for the first 3 years after completion of the project. The reports are to be submitted as of October 1 of each year.

(5) *Exception authority.* The provisions of 7 CFR 4288.7 apply to this Notice.

(6) *Succession and control of facilities and production.* The provisions of 7 CFR 4288.25 apply to this Notice.
