

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-5415-N-38]

Notice of Availability: Notice of Funding Availability for HUD's Fiscal Year (FY) 2010 Section 202 Supportive Housing for the Elderly Program**AGENCY:** Office of the Chief Human Capital Officer, HUD.**ACTION:** Notice.

SUMMARY: HUD announces the availability on its Web site of the applicant information, submission deadlines, funding criteria, and other requirements for HUD's FY2010 Section 202 NOFA. Approximately \$371 million in capital advance funds, plus associated project rental assistance contract (PRAC) funds is made available through this NOFA, by the Consolidated Appropriations Act, 2010 (Pub. L. 111-117, approved December 16, 2009). The Section 202 program provides funding for the development and operation of supportive housing for very low-income persons 62 years of age or older. Applicants planning to submit an application in response to this NOFA should also review HUD's Fiscal Year 2010 Notice of Funding Availability (NOFA) Policy Requirements and General Section that HUD posted on June 7, 2010 (FR 5415-N-01) for program thresholds and additional information and instructions to assist in submitting an application.

The notice providing information regarding the application process, funding criteria and eligibility requirements can be found using the Department of Housing and Urban Development agency link on the Grants.gov/Find Web site at <http://www.grants.gov/search/agency.do>. A link to Grants.gov is also available on the HUD Web site at <http://www.hud.gov/offices/adm/grants/fundsavail.cfm>.

The Catalogue of Federal Domestic Assistance (CFDA) number for this program is 14.157, Section 202 Supportive Housing for the Elderly. Applications must be submitted electronically through *Grants.gov*.

FOR FURTHER INFORMATION CONTACT:

Questions regarding specific program requirements should be directed to the agency contact identified in the program NOFA. Program staff will not be available to provide guidance on how to prepare the application. Questions regarding the 2010 General Section should be directed to the Office of Grants Management and Oversight at (202) 708-0667 or the NOFA

SUPPLEMENTARY INFORMATION:**Background**

Ellicott Slough National Wildlife Refuge was established in 1975 under the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the Emergency Wetlands Resources Act of 1986 (16 U.S.C. 3901-3932). The nearly 300-acre Ellicott Slough National Wildlife Refuge, located in Santa Cruz County, California, consists of three noncontiguous units within the Watsonville Slough System. The Refuge was established to protect the endangered Santa Cruz long-toed salamander, and currently supports 2 of the 20 known breeding populations of the salamander.

We announce our decision and the availability of the FONSI for the final CCP for Ellicott Slough in accordance with National Environmental Policy Act (NEPA) (40 CFR 1506.6(b)) requirements. We completed a thorough analysis of impacts on the human environment, which we included in the EA that accompanied the draft CCP.

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee) (Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Administration Act.

Our Draft CCP and Environmental Assessment (EA) were available for a 30-day public review and comment period, which we announced via several methods, including press releases, updates to constituents, and a **Federal Register** notice (75 FR 44806, July 29, 2010). The Draft CCP/EA identified and evaluated three alternatives for

managing the Refuge for the next 15 years.

Under Alternative A (No Action), management would continue unchanged. Alternative B (the Selected Alternative) would standardize the wildlife monitoring and surveying program; develop a habitat management plan including an adaptive vegetation management plan; assess contaminants and disease; pursue climate change modeling; identify additional habitat for boundary expansion; continue planning and redesign of a breeding pond; assess the need and plan for new breeding ponds; develop habitat, mosquito, and water management plans, and a visitor services plan; improve energy efficiency; develop a trail system; expand the in-class environmental education program to other schools; and expand on-site restoration education. Alternative C includes all actions in Alternative B, and would expand natural resource surveys, expand control of additional priority invasive vegetation, identify buffer habitat for boundary expansion and acquisition, remove invasive wildlife, reintroduce native plants historically found on the Refuge, improve trail access, and improve outreach to the community.

We received 10 letters on the Draft CCP and EA during the review and comment period. Comments focused on mosquito control and listed species management. We incorporated comments we received into the CCP when appropriate, and we responded to the comments in an appendix to the CCP. In the FONSI, we selected Alternative B for implementation. The FONSI documents our decision and is based on the information and analysis contained in the EA.

Under the selected alternative, the Refuge will achieve an optimal balance of biological resource objectives and visitor services opportunities. Habitat management and associated biological resource monitoring will be improved. Visitor service opportunities will focus on quality wildlife-dependent recreation with expanded environmental education opportunities. In addition, interpretation, wildlife observation, and photography programs will be improved and/or expanded.

The selected alternative best meets the Refuges' purposes, vision, and goals; contributes to the Refuge System mission; addresses the significant issues and relevant mandates; and is consistent with principles of sound fish and wildlife management. Based on the associated environmental assessment, this alternative is not expected to result in significant environmental impacts

and therefore does not require an environmental impact statement.

Dated: March 7, 2011.
