

or molten form; and (3) mixtures containing 90 percent or less magnesium in granular or powder form, by weight, and one or more of certain non-magnesium granular materials to make magnesium-based reagent mixtures, including lime, calcium metal, calcium silicon, calcium carbide, calcium carbonate, carbon, slag coagulants, fluorspar, nepheline syenite, feldspar, alumina (Al<sub>2</sub>O<sub>3</sub>), calcium aluminate, soda ash, hydrocarbons, graphite, coke, silicon, rare earth metals/mischmetal, cryolite, silica/fly ash, magnesium oxide, periclase, ferroalloys, dolomite lime, and colemanite.<sup>3</sup>

The merchandise subject to the order is currently classifiable under items 8104.19.00 and 8104.30.00 of the Harmonized Tariff Schedule of the United States (“HTSUS”). Although the HTSUS items are provided for convenience and customs purposes, the written description of the subject merchandise is dispositive.

#### *Continuation of the Order*

As a result of the determinations by the Department and the ITC that revocation of the antidumping duty order would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby orders the continuation of the antidumping order on magnesium metal from the PRC. U.S. Customs and Border Protection will continue to collect antidumping duty cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of the continuation of the order will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act, the Department intends to initiate the next five-year review of the order not later than 30 days prior to the fifth anniversary of the effective date of continuation.

*Antidumping Duty Order: Pure Magnesium in Granular Form From the People's Republic of China*, 66 FR 57936 (November 19, 2001).

<sup>3</sup> This third exclusion for magnesium-based reagent mixtures is based on the exclusion for reagent mixtures in the 2000–2001 investigations of magnesium from the PRC, Israel, and Russia. See *Notice of Final Determination of Sales at Less Than Fair Value: Pure Magnesium in Granular Form From the People's Republic of China*, 66 FR 49345 (September 27, 2001); *Notice of Final Determination of Sales at Less Than Fair Value: Pure Magnesium From Israel*, 66 FR 49349 (September 27, 2001); *Notice of Final Determination of Sales at Not Less Than Fair Value: Pure Magnesium From the Russian Federation*, 66 FR 49347 (September 27, 2001). These mixtures are not magnesium alloys because they are not chemically combined in liquid form and cast into the same ingot.

This five-year (sunset) review and this notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act.

#### **SUPPLEMENTARY INFORMATION:**

#### **Postponement of Preliminary Determination**

On November 10, 2010, the Department of Commerce (“the Department”) initiated an antidumping duty investigation on multilayered wood flooring from the People’s Republic of China.<sup>1</sup> The notice of initiation stated that, unless postponed, the Department would issue its preliminary determination no later than 140 days after the date of issuance of the initiation, in accordance with section 733(b)(1)(A) of the Tariff Act of 1930, as amended (“the Act”). The preliminary determination is currently due no later than March 30, 2011.

On March 3, 2011, the Coalition for American Hardwood Parity (“Petitioners”), made a timely request, pursuant to 19 CFR 351.205(b)(2) and (e), for a postponement of the

#### **Persulfates From the People's Republic of China: Preliminary Results of the 2009-2010 Antidumping Duty Administrative Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** In response to a request from an interested party, the Department of Commerce ("the Department") is conducting an administrative review of the antidumping duty order on persulfates from the People's Republic of China ("PRC") covering the period July 1, 2009, through June 30, 2010. This administrative review covers one producer/exporter of the subject merchandise, *i.e.*, United Initiators (Shanghai) Co., Ltd. ("United Initiators").

We preliminarily determine that United Initiators does not qualify for a separate rate because it did not respond to the Department's request for information; thus, as adverse facts available, we are assigning to United Initiators, as part of the PRC-wide entity, the PRC-wide rate. If these preliminary results are adopted in our final results of this review, we will instruct U.S. Customs and Border Protection ("CBP") to assess antidumping duties on all appropriate entries of subject merchandise exported

by United Initiators during the period of review ("POR"). We invite interested parties to comment on these preliminary results.

**DATES:** *Effective Date:* March 11, 2011.

**FOR FURTHER INFORMATION CONTACT:**

Brandon Petelin or Charles Riggle, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-8173 or (202) 482-0650, respectively.

**SUPPLEMENTARY INFORMATION:**

**Background**

On July 7, 1997, the Department published in the **Federal Register** the antidumping duty order on persulfates from the PRC.<sup>1</sup> On July 1, 2010, the Department published a notice of opportunity to request an administrative review of the antidumping duty order on persulfates from the PRC.<sup>2</sup> In accordance with 19 CFR 351.213(b)(1), on July 30, 2010, FMC Corporation, a domestic producer of persulfates, requested that the Department conduct an administrative review of United Initiators' exports to the United States for the POR July 1, 2009, through June 30, 2010. Pursuant to this request, the Department published a notice of initiation of the administrative review of the antidumping duty order on persulfates from the PRC.<sup>3</sup>

On October 5, 2010, the Department issued an antidumping duty questionnaire to United Initiators. On October 8, 2010, we confirmed that United Initiators signed for and received

<sup>2</sup> See *Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity To Request Administrative Review*, 75 FR 38074 (July 1, 2010).

<sup>3</sup> See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 75 FR 60076 (September 29, 2010) ("*September 29 Initiation Notice*"). In the initiation notice that published on August 31, 2010, the Department incorrectly initiated an administrative review of the company FMC Corporation, the domestic producer of persulfates, for the instant administrative review of persulfates from the PRC. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Deferral of Initiation of Administrative Review*, 75 FR 53274 (August 31, 2010). However, in the initiation notice that published on September 29, 2010, the Department retracted its initiation of an administrative review of FMC Corporation. See *September 29 Initiation Notice*, 75 FR at 60081-82, n.9.

our mailing of the antidumping duty questionnaire. United Initiators did not respond to the Department's antidumping duty questionnaire. On January 3, 2011, the Department placed on the record of this administrative review the UPS International Air Waybill receipt and delivery confirmation for the questionnaire issued to United Initiators to confirm that we mailed, and United Initiators received and signed for, the questionnaire.

**Scope of the Order**

The products covered by this review are persulfates, including ammonium, potassium, and sodium persulfates. The chemical formula for these persulfates are, respectively, (NH<sub>4</sub>)<sub>2</sub>S<sub>2</sub>O<sub>8</sub>, K<sub>2</sub>S<sub>2</sub>O<sub>8</sub>, and Na<sub>2</sub>S<sub>2</sub>O<sub>8</sub>. Potassium persulfates are currently classifiable under subheading 2833.40.10 of the *Harmonized Tariff Schedule of the United States* ("HTSUS"). Sodium persulfates are classifiable under HTSUS subheading 2833.40.20. Ammonium and other persulfates are classifiable under HTSUS subheadings 2833.40.50 and 2833.40.60. Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope of this review is dispositive.

**Non-Market Economy Country Status**

In every case conducted by the Department involving the PRC, the PRC has been treated as a non-market economy ("NME") country.<sup>4</sup> In accordance with section 771(18)(C)(i) of the Tariff Act of 1930, as amended ("Act"), any determination that a foreign country is an NME country shall remain in effect until revoked by the administering authority. Because no interested party in this case has contested such treatment, the Department continues to treat the PRC as an NME country.

**PRC-Wide Rate and Use of Facts Available**

In proceedings involving NME countries, the Department begins with a rebuttable presumption that all companies within the country are subject to government control and, thus, should be assigned a single antidumping duty deposit rate. It is the Department's policy to assign all
