Federal Register

Vol. 76, No. 49

Monday, March 14, 2011

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2010-0078]

Availability of an Environmental Assessment and Finding of No Significant Impact for a Biological Control Agent for Hawkweeds

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that the Animal and Plant Health Inspection Service (APHIS) has prepared an environmental assessment and finding of no significant impact relative to the release of the hawkweed gall wasp, *Aulacidea subterminalis*, into the continental United States as a biological control agent to reduce the severity of infestations of hawkweeds (*Hieracium* spp.). Based on its finding of no significant impact, APHIS has determined that an environmental impact statement need not be prepared.

FOR FURTHER INFORMATION CONTACT: Dr. Shirley A. Wager-Page, Chief, Pest Permitting Branch, Plant Health Programs, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737-1237; (301) 734-8453.

SUPPLEMENTARY INFORMATION:

Background

The Animal and Plant Health Inspection Service (APHIS) is proposing to issue permits for the release of the hawkweed gall wasp, *Aulacidea subterminalis*, into the continental United States for the biological control of hawkweeds (*Hieracium pilosella*, *H. aurantiacum*, *H. floribundum*, and *H. flagellare*).

On October 21, 2010, we published in the **Federal Register** (75 FR 64984-64985, Docket No. APHIS-2010-0078) a

notice¹ in which we announced the availability, for public review and comment, of an environmental assessment (EA) that examined the potential environmental impacts associated with the proposed release of this biological control agent into the continental United States.

We solicited comments on the EA for 30 days ending November 22, 2010. We received four comments, from a State agriculture department, a State conservation association, the U.S. Fish and Wildlife Service, and an anonymous commenter. Our responses to the issues raised in the comments can be found in Appendix 5 of the final EA (see footnote 1).

In this document, we are advising the public of our finding of no significant impact (FONSI) regarding the release of the hawkweed gall wasp into the continental United States for use as a biological control agent for the control of hawkweeds. The finding, which is based on the EA, reflects our determination that release of this biological control agent will not have a significant impact on the quality of the human environment.

The EA and FONSI may be viewed on the Regulations.gov Web site (see footnote 1). Copies of the EA and FONSI are also available for public inspection at USDA, room 1141, South Building, 14th Street and Independence Avenue, SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays. Persons wishing to inspect copies are requested to call ahead on (202) 690-2817 to facilitate entry into the reading room. In addition, copies may be obtained by calling or writing the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the title of the EA when requesting copies.

The EA has been prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500-1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA

Implementing Procedures (7 CFR part 372).

Done in Washington, DC, this 7th day of March 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

Farm Service Agency

Request for an Extension of a Currently Approved Information Collection; County Committee Elections

AGENCY: Farm Service Agency, USDA.

ACTION: Notice; request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Farm Service Agency (FSA) is seeking comments from all interested individuals and entities on an extension of a currently approved information collection associated with the FSA County Committee Elections. The collection of information from FSA farmers and ranchers is used to receive nominations from eligible voters for the County Committee.

DATES: We will consider comments that we receive by May 13, 2011.

Additional Information: We invite you to submit comments on this Notice. In your comment, include volume, date and page number of this issue of the **Federal Register**. You may submit comments by any of the following methods:

Mail: Kenneth Nagel, Field Operations Manager for the Deputy Administrator for Field Operations, Farm Service Agency, USDA, STOP 0542, 1400 Independence Avenue, Washington, DC 20250.

E-mail: Send comments to: Kenneth.nagel@wdc.usda.gov.

Fax: (202) 720-6974.

Comments also should be sent to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Kenneth Nagel, Field Operations Manager, telephone (202) 720-7890.

SUPPLEMENTARY INFORMATION:

Title: County Committee Election.
OMB Control Number: 0560-0229.
Expiration Date of Approval:

September 30, 2011.

Type of Request: Extension.

Abstract: This information collection is necessary to effectively allow farmers and ranchers to nominate potential candidates for the county committee election. FSA also requires reporting the participation rate of disadvantaged farmers and ranchers and the election result to USDA Secretary and the Congress, as specified in Soil Conservation and Domestic Allotment Act. Specifically, FSA county offices use the information annually or if needed through-out the year for special elections to create ballots for county committee elections.

FSA county offices compile information for ballots and reports from FSA-669A, Nomination Form for County FSA Committee Election, that an individual completes to nominate themselves or nominate any other person who is interested to serve on a FSA county committee, if eligible. The individuals also voluntarily specify their race, ethnicity, and gender on FSA-669A.

Estimate of Respondent Burden: Public reporting burden for this collection of information is estimated to average 10 minutes per response. The average travel time, which is included in the total burden, is estimated to be 1 hour per respondent.

Respondents: Any individual with farming interest in the Local Administrative Area (LAA) (eligible voters).

Estimated Number of Respondents: 10,000.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual of Responses: 10,000.

Estimated Total Annual Burden Hours: 6,700.

We are requesting comments on all aspects of this information collection to help us to:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility and clarity of the information to be collected;

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated,

electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses received in response to this notice, including names and addresses, when provided, will be a matter of public records. Comments will be summarized and included in the request for Office of Management and Budget approval of the information collection.

Signed in Washington, DC on March 8, 2011.

Carolyn B. Cooksie,

Acting Administrator, Farm Service Agency.

BILLING CODE 3410-05-P

DEPARTMENT OF AGRICULTURE

Foreign Agricultural Service

Notice of Funding Availability: Inviting Applications for McGovern-Dole International Food for Education and Child Nutrition Program's Micronutrient-Fortified Food Aid Products Pilot

Announcement Type: New.
Catalog of Federal Domestic Assistance (CFDA) Number: 10.608.

Summary: The Foreign Agricultural Service (FAS) announces it is inviting proposals for the McGovern-Dole International Food for Education and Child Nutrition (McGovern-Dole) Program Micronutrient-Fortified Food Aid Products Pilot (MFFAPP). Up to \$9 million of funding is available for the MFFAPP. Eligible applicants may submit proposals through June 10, 2011. The MFFAPP is administered through FAS's McGovern-Dole International Food for Education and Child Nutrition (McGovern-Dole) Program.

Dates: All applications must be received by 5 p.m. Eastern Standard Time, June 10, 2011. Applications received after this date will not be considered.

For Further Information Contact: Food Assistance Division, Office of Capacity Building and Development, Foreign Agricultural Service, Portals Office Building, Suite 400, 1250 Maryland Avenue, SW., Washington, DC 20024; by phone: (202) 720-4221; by fax: (202) 690-0251; or by e-mail at ppded@fas.usda.gov.

Supplementary Information:

I. Funding Opportunity Description

A. Authority: The MFFAPP uses the authority of the McGovern-Dole Program, which is authorized by the Farm Security and Rural Investment Act of 2002, as amended.

B. Purpose: Under the MFFAPP, participants will have access to resources to introduce and field test new or improved micronutrient-fortified food aid products. FAS defines micronutrient-fortified food aid products as foods used for direct feeding that are nutritionally enhanced with vitamin or mineral additions to address the micronutrient deficiencies of a population or group. The food aid products must be designed to meet the energy and nutrient needs of populations served by the McGovern-Dole Program, including school-aged children, children under 5 years of age, pregnant and lactating mothers, and infants. The process of micronutrient fortification must take place in the United States and use U.S. origin products. The participant may develop a new product or improve an existing product, either directly or by contracting with another party. This pilot does not support field testing for products that already exist or have been recently developed.

Through this pilot, FAS hopes to identify new products that provide the most improvement in nutrition for the targeted beneficiaries in the most cost-effective manner. FAS will examine each proposal for its appropriateness to the beneficiary population and targeted country context, its intended impact on the nutrition of program beneficiaries, and the expected outcomes of the pilot project.

C. Priorities: 1. FAS is seeking to maximize the cost effectiveness of implementing this pilot. Therefore, FAS will give priority consideration to otherwise acceptable proposals that will develop and field test food aid products in conjunction with current or already-approved future activities under the McGovern-Dole Program in the following countries: Afghanistan, Angola, Bangladesh, Benin, Bolivia, Burkina Faso, Cambodia, Cameroon, Chad, Ethiopia, Guatemala, Guinea-Bissau, Haiti, Kenya, Lao PDR, Liberia, Madagascar, Malawi, Mali, Mozambique, Nepal, Nicaragua, Niger, Pakistan, Republic of Congo, Rwanda, Senegal, Sierra Leone, and Uganda.

2. FAS will also consider, but will give a lower priority to, proposals for projects to develop and field test food aid products, whether or not in conjunction with current or already-approved future activities under the McGovern-Dole Program, in countries other than those listed in Section I.C.1., provided that the project is short term and supports sustainability efforts and the country meets the following criteria:
