SELECT—RC” must be preceded by the text “USPS” and must be printed in minimum 20-point bold sans serif typeface, uppercase letters, centered within the banner, and bordered above and below by minimum 1-point separator lines. There must be a 1/16-inch clearance above and below the text.

Each piece in a Parcel Select Regional Ground mailing must bear an additional price marking. Markings must appear in either the postage area or in the address area on the line directly above or two lines above the address if the marking appears alone (when no other information appears on that line). The following price markings are required:

Deposit and Entry

Parcel Select Regional Ground mailings may be entered according to the following levels:

OSCF Entry

- Mailings that are entered at the OSCF must include only mailpieces destined for zones local, 1, 2, and 3, but pieces may be destined for addresses outside that OSCF service area.
- No other mailings may be combined on the same postage statement or commingled in the same container with OSCF Parcel Select Regional Ground mailpieces.

ONDC Entry

- Mailings that are entered at the ONDC for zones local—8 are required to have the mailpieces within the ONDC service area segregated from the pieces outside the ONDC service area according to L601.
- No other mailings may be combined on the same postage statement or commingled in the same container with ONDC Parcel Select Regional Ground mailpieces.

Mailings may not be dropped in collection boxes, picked up by carriers, or entered at retail Post Office™ locations. All mailings must be presented for verification and acceptance where the permit is held. All such mailings must be deposited at locations and times specified by the postmaster or designee at the approved offices (co-located at OSCF and ONDC

locations) that will verify and accept the mailing.

A completed and signed PS Form 3605–R, *Postage Statement—Package Services*, must accompany all mailings, unless eVS is used.

Bacillus thuringiensis eCry3.1Ab Protein in Corn; Temporary Exemption From the Requirement of a Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation extends a temporary exemption from the requirement of a tolerance for residues of Bacillus thuringiensis eCry3.1Ab protein in corn or on the food and feed commodities of corn; corn, field; corn, sweet; and corn, pop, when used as a plant-incorporated protectant in accordance with the terms of Experimental Use Permit (EUP) No.

67979-EUP-8. Syngenta Seeds, Inc. submitted a petition to EPA under the Federal Food, Drug, and Cosmetic Act (FFDCA), requesting to extend the temporary tolerance exemption that was set to expire on June 1, 2012. This regulation eliminates the need to establish a maximum permissible level for residues of Bacillus thuringiensis eCry3.1Ab protein in corn. The temporary tolerance exemption now expires on March 1, 2013.

DATES: This regulation is effective March 16, 2011. Objections and requests for hearings must be received on or before May 16, 2011, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the SUPPLEMENTARY INFORMATION).
