

A. Establishments of Multi-Establishment Firms

Selection procedures will assign all active mineral establishments of multi-establishment firms to the mail component of the universe, except for those in industries classified in the Support Activities for Mining subsector. In these selected industries, where activities are not easily attributable to individual locations or establishments, firms will be asked to report their basic data for several establishments at a nation-wide level on a consolidated report form. Approximately seven percent of establishments of multi-establishment firms will not be required to file separate reports because they will be included in consolidated company reports. We estimate that the census mail canvass for 2012 will include approximately 8,000 establishments of multi-establishment firms.

B. Single-Establishment Firms With Payroll

As an initial step in the selection process, we will analyze the universe for mining. The analysis will produce a set of industry-specific payroll cutoffs that we will use to distinguish large versus small single-establishment firms within each industry. This payroll size distinction will affect selection as follows:

1. Large Single-Establishment Firms

Selection procedures will assign large single-establishment firms having annualized payroll (from Federal administrative records) that equals or exceeds the cut off for their industry to the mail component of the universe. We estimate that the census mail canvass for 2012 will include approximately 7,100 firms in this category. These firms will receive a standard form.

2. Small Single-Establishment Firms

Small single-establishment firms in the crushed stone, sand and gravel, and crude petroleum and natural gas industries, where application of the cutoff for non-mail establishments results in a larger number of small establishments included in the mail

canvass, will receive a short form. The short form will collect basic statistics and other essential information that is not available from administrative records.

The short form will be mailed to approximately 1,200 single-establishment firms in these industries which are larger than the non-mail cutoff for their industry, but which have an annual payroll under a certain criteria.

The approximately 9,600 remaining single-establishment firms with payroll will be represented in the census by data from Federal administrative records.

Notice of Petitions by Firms for Determination of Eligibility To Apply for Trade Adjustment Assistance

AGENCY: Economic Development Administration, Department of Commerce.

ACTION: Notice and Opportunity for Public Comment.

Pursuant to Section 251 of the Trade Act of 1974, as amended (19 U.S.C. 2341 *et seq.*), the Economic Development Administration (EDA) has received petitions for certification of eligibility to apply for Trade Adjustment Assistance from the firms listed below. Accordingly, EDA has initiated investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each of these firms contributed importantly to the total or partial separation of the firm’s workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

Certain Circular Welded Non-Alloy Steel Pipe From Mexico: Extension of Time Limit for Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Mark Flessner or Robert James, AD/CVD Enforcement Office 7, Import Administration, International Trade Administration, U.S. Department of

Commerce, 14th Street and Constitution Avenue, NW., Washington DC 20230; telephone: (202) 482-6312 and (202) 482-0649, respectively.

SUPPLEMENTARY INFORMATION:

Background

On December 15, 2010, the Department of Commerce (the Department) published the preliminary results of administrative review of certain circular welded non-alloy steel pipe from Mexico for the November 1, 2008, through October 31, 2009, period of review. *See Certain Circular Welded Non-Alloy Steel Pipe From Mexico: Preliminary Results of Antidumping Duty Administrative Review*, 75 FR 78216 (December 15, 2010). The final results for this administrative review are currently due no later than April 14, 2011.

Extension of Time Limits for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to complete the final results of an administrative review within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the 120 day time period for the final results to 180 days.

The Department has determined it is not practicable to complete this review within the statutory time limit because of significant issues that require additional time to evaluate. These issues include complicated questions involving various cost accounting issues, use of multiple unaffiliated suppliers' costs, and proper application

of facts available. Accordingly, the Department is extending the time limit for completion of the final results of this administrative review until no later than June 13, 2011, which is 180 days after the date on which the preliminary results of review were published.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: March 10, 2011.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.
