SUPPLEMENTARY INFORMATION:

I. General Information

This notice is directed to the public in general, and may be of interest to a wide range of stakeholders, including private citizens, federal, tribal, state and local governments, environmental consulting firms, industry representatives, environmental organizations and other public interest groups. Since others may also be interested, the Agency has not attempted to describe all the specific entities that may have interest in this notice. If you have any questions regarding the applicability of this action to a particular entity, consult the EPA personnel listed under FOR FURTHER INFORMATION CONTACT.

EPA is inviting the public to provide comments on the development of final guidance for Evaluating Vapor Intrusion to Indoor Air Pathway from Contaminated Groundwater and Soil (Subsurface Vapor Intrusion Guidance). A draft version of the Subsurface Vapor Intrusion Guidance was released in November 2002 (67 FR 71169), and a docket was established for public comments: Docket ID No. EPA–HQ–RCRA–2002–0033. The 2002 draft is available from the docket (http://www.regulations.gov) and at: http://www.epa.gov/oswer/vaporintrusion.

EPA is planning to issue the final Subsurface Vapor Intrusion Guidance by November 30, 2012, and has re-opened the docket for public comment. Comments previously provided to the docket on the 2002 draft of the Subsurface Vapor Intrusion Guidance, and any comment provided to the docket before May 14, 2011, will be considered in the development of the final document. The public will also be given an opportunity to provide comments on a new draft of the guidance in the spring of 2012. Details on how to provide new comments to the docket are provided under ADDRESSES.

II. Background

Vapor intrusion can occur when there is migration of volatile chemicals from contaminated groundwater or soil into a building. Volatile chemicals may include volatile organic compounds, select semi-volatile organic compounds, and under certain conditions some inorganic compounds, such as elemental mercury, radon, and hydrogen sulfide. Additional information about vapor intrusion can be found at http://www.epa.gov/oswer/vaporintrusion.

III. Listening Session

In addition to seeking written comments, an internet and telephone-accessible public listening session will be held on April 11, 2011. The listening session will be held at the conference center in EPA’s Potomac Yard South Building located at: 2777 Crystal Drive, Arlington, VA 22202. The listening session will begin at 9 a.m. and end at approximately 5 p.m.

The purpose of the listening session will be to allow all interested parties to provide comments on the development of the final Subsurface Vapor Intrusion Guidance. Advanced registration is requested for those wishing to attend the listening session. Registration can be by internet at http://www.epa.gov/oswer/vaporintrusion, by e-mail at foster.stiven@epa.gov, by phone 202–566–1191, or by faxing a registration request to 202–566–1934. In your registration, please reference the “Vapor Intrusion Guidance Listening Session,” your name, title, affiliation, full address and contact information. When you register, please indicate if you would like to make oral comments at the session. In general, each oral comment should be no more than 15 minutes in length. If, however, there are more requests for oral comments than the allotted time allows, the time limit for comments will be adjusted. Written comments will also be accepted at the listening sessions. A copy of the agenda for the listening session will be available at the meeting. If no speakers have registered by five calendar days prior to the listening session, it will be cancelled, and EPA will notify those registered of the cancellation.

Additional details about the listening session, including instructions attending via the internet, are available at: http://www.epa.gov/oswer/vaporintrusion. To participate by telephone only (and not internet) use 1–866–299–3188, access code 7036039924#.
