

Inventory can be corrected. The correction mechanism ensures the accuracy of the Inventory without imposing an unreasonable burden on the chemical industry. Without the Inventory correction mechanism, a company that submitted incorrect information would have to file a premanufacture notification (PMN) under TSCA section 5 to place the correct chemical substance on the Inventory whenever the previously reported substance is found to be misidentified. This would impose a much greater burden on both EPA and the submitter than the existing correction mechanism. This information collection applies to reporting and recordkeeping activities associated with the correction of misreported chemical substances found on the TSCA Inventory.

Responses to the collection of information are voluntary. Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average about 2.25 hours per response. Burden is defined in 5 CFR 1320.3(b).

Respondents/Affected Entities: Entities potentially affected by this action are manufacturers or importers of chemical substances, mixtures or categories listed on the TSCA Inventory and regulated under TSCA section 8, who had reported to the initial effort to establish the TSCA Inventory in 1979, and who need to make a correction to that submission.

Frequency of Collection: On occasion.

Estimated average number of responses for each respondent: 1.

Estimated Number of Respondents: 9.

Estimated Total Annual Burden on Respondents: 20 hours.

Estimated Total Annual Costs: \$1,174.

Changes in Burden Estimates: This request reflects no change in the total estimated respondent burden from that currently in the OMB inventory.

Dated: March 11, 2011.

Director, Collection Strategies Division.

Title: Hazardous Waste Specific Unit Requirements, and Special Waste Processes and Types (Renewal).

ICR numbers: EPA ICR No. 1572.10, OMB Control No. 2050-0050.

ICR Status: This ICR is scheduled to expire on March 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR provides a discussion of all of the information collection requirements associated with specific unit standards applicable to owners and operators of facilities that treat, store, or dispose of hazardous wastes as defined by 40 CFR part 261. It includes a detailed description of the data items and respondent activities associated with each requirement and with each hazardous waste management unit at a facility. The specific units and processes included in this ICR are: Tank systems, Surface impoundments, Waste piles, Land treatment, Landfills, Incinerators, Thermal treatment, Chemical, physical, and biological treatment, Miscellaneous (subpart X), Drip pads, Process vents, Equipment leaks, Containment buildings, Recovery/recycling.

With each information collection covered in this ICR, EPA is aiding the goal of complying with its statutory mandate under RCRA to develop standards for hazardous waste treatment, storage, and disposal facilities, to protect human health and the environment. Without the information collection, the agency cannot assure that the facilities are designed and operated properly.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 112 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Facilities that treat, store, or dispose of hazardous wastes and State, Local, or Tribal governments.

Estimated Number of Respondents: 5,452.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 1,032,373.

Estimated Total Annual Cost: \$43,154,199, which includes \$36,316,003 annualized labor costs and

\$6,838,196 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 405,897 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to an increase in the number of respondents from 3,326 to 5,452, as well as a change in accounting methods.

Dated: March 14, 2011.

Richard T. Westlund,

Acting Director, Collection Strategies Division.
