

	Docket Nos.
Peetz Logan Interconnect, LLC	ER11-2970-000.

On February 22, 2011, the Federal Energy Regulatory Commission (Commission) announced that a Technical Conference on Priority Rights to New Participant-Funded Transmission will be held on Tuesday, March 15, 2011, from 9:30 a.m. to 3:15 p.m. (EDT). The staff-led conference will be held in the Commission Meeting Room at the Commission's headquarters at 888 First Street, NE., Washington, DC 20426. The conference will be open for the public to attend and advance registration is not required. Members of the Commission may attend the conference. On March 7, 2011, the Commission issued a supplemental notice with an agenda for the conference.

Discussions at the conference may address matters at issue in the above-referenced individual proceedings that are either pending or within their rehearing period. The March 7 Notice omitted two proceedings before the Commission that are either pending or within their rehearing period. This supplemental notice reflects the addition of the following proceedings:

Hudson Transmission Partners, LLC, Docket No. ER11-3017-000; and Peetz Logan Interconnect, LLC, Docket No. ER11-2970-000.

A free webcast of the technical conference will be available. Anyone with internet access who desires to listen to this event can do so by navigating to the Calendar of Events on the Commission's Web site and locating this event in the Calendar. The event will contain a link to its webcast. The Capitol Connection provides technical support for webcasts and will offer the option of listening to the conference via phone-bridge for a fee. If you have any questions about the webcast, visit <http://www.CapitolConnection.org> or call (703) 993-3100.

This conference will also be transcribed. Transcripts will be available immediately, for a fee, from Ace Reporting Company (202-347-3700 or 800-336-6646).

FERC conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations please send an e-mail to accessibility@ferc.gov or call toll free (866) 208-3372 (voice) or (202) 502-8659 (TTY), or send a fax to (202) 208-2106 with the requested accommodations.

Title: NESHAP for Primary Aluminum Reduction Plants (Renewal).

ICR Numbers: EPA ICR Number 1767.06, OMB Control Number 2060-0360.

ICR Status: This ICR is scheduled to expire on April 30, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not

conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart LL.

Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2,010 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of primary aluminum reduction plants.

Estimated Number of Respondents: 16.

Frequency of Response: Initially, semiannually and annually.

Estimated Total Annual Hour Burden: 80,398.

Estimated Total Annual Cost: \$7,599,556, which includes \$7,508,208 in labor costs and \$91,348 in operation and maintenance (O&M) costs. There are no annualized capital/startup costs for this ICR.

Changes in the Estimates: There is no change in the calculation methodology for labor hours and Agency costs in this ICR compared to the previous ICR. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Secondly, the growth rate for the respondents is very low, negative, or non-existent. It should be noted that there is an apparent increase of 352 hours in respondent labor hours. This is due to a mathematical error in the previous ICR.

The increase in cost to Respondents and the Agency is due to updating of the labor rates to reflect the most recent available estimates. There are no changes to the capital/startup or operation and maintenance costs.

Dated: March 11, 2011.

John Moses,

Director, Collection Strategies Division.
