

a negligible impact on the affected species and stocks.

Impact on Availability of Affected Species for Taking for Subsistence Uses

There are no relevant subsistence uses of marine mammals implicated by this action.

Endangered Species Act (ESA)

There are no ESA-listed marine mammals found in the action area; therefore, no consultation under the ESA is required. As described elsewhere in this document, SCWA and the Corps consulted with NMFS under Section 7 of the ESA regarding the potential effects of their operations and maintenance activities, including SCWA's estuary management program, on ESA-listed salmonids. As a result of this consultation, NMFS issued the Russian River Biological Opinion (NMFS 2008), which prescribes modifications to SCWA's estuary management activities.

National Environmental Policy Act (NEPA)

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), as implemented by the regulations published by the Council on Environmental Quality (40 CFR parts 1500–1508), and NOAA Administrative Order 216–6, NMFS prepared an Environmental Assessment (EA) to consider the direct, indirect and cumulative effects to the human environment resulting from issuance of an IHA to SCWA. NMFS signed a Finding of No Significant Impact on March 30, 2010. NMFS has reviewed the proposed application and preliminarily determined that there are no substantial changes to the proposed action or new environmental impacts or concerns. Therefore, NMFS has determined that a new or supplemental EA or Environmental Impact Statement is likely unnecessary. Before making a final determination in this regard and decision on whether or not to issue a Finding of No Significant Impact for this proposed action, NMFS will review public comments and information submitted by the public and others in response to this notice. The March 10, 2010 EA, referenced above is available for review at <http://www.nmfs.noaa.gov/pr/permits/incidental.htm>.

Proposed Authorization

As a result of these preliminary determinations, NMFS proposes to authorize the take of marine mammals incidental to SCWA's estuary management activities, provided the previously mentioned mitigation,

monitoring, and reporting requirements are incorporated.

Dated: March 14, 2011.

Helen M. Golde,

Deputy Director, Office of Protected Resources, National Marine Fisheries Service.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will provide the services to the Government.
2. The action will result in authorizing small entities to provide the services to the Government.
3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the services proposed for addition to the Procurement List.

End of Certification

Accordingly, the following services are added to the Procurement List:

Services

Service Type/Location: Contract Cook Support & Dining Facility Attendant, White Sands Missile Range, NM.
NPA: Tresco, Inc., Las Cruces, NM.
Contracting Activity: Dept of the Army, XR W6BB ACA White Sands Missile, NM.

The DoD contracting activity specifically identified its requirement as Contract Cook Support (CCS) and Dining Facility Attendant (DFA) Service in its Performance Work Statement (PWS). The dining facility (DFAC) associated with this service requirement is newly constructed and will be under the control and military management of the 2D Engineer Battalion when it relocates to White Sands Missile Range (WSMR) under a Base Realignment and Closure action. Food service personnel assigned to the battalion will operate and manage the DFAC and will be augmented by contractor-provided dining facility attendants (DFA).

The PWS describes the DFA service tasks as preparation of vegetables, dining room service (prepare, maintain, clean dining areas; clean condiment containers; clean spills and remove soiled dinnerware; clean dining room tables, chairs, booths; clean dining room walls, baseboards, window ledges, doors, doorframes, ceiling fans, pictures, wall art, artificial plants, light fixtures, etc); buss and replace tray carts during meal serving periods; service and maintain patron self-service area; clean and sanitize food service equipment, utensil cleaning, and dishwashing; clean pots, pans, utensils, storage shelves, and racks; facility maintenance and sanitation; and provide trash and garbage service.

Because the 2d Engineer Battalion is a deployable, combat unit, it may be absent from WSMR as its mission dictates. When deployed, the DFAC will be augmented by contractor-provided cooks to replace absent military food service personnel. The Contracting Officer stated that the military will retain management and operational control during deployments as a Government (civil service) contracting officer's representative will assume those duties. At no time will the contractor be responsible for the management and operational control of the DFAC.

Service Type/Location: Laundry & Dry Cleaning Service, F.E. Warren, AFB, WY.
NPA: Goodwill Industrial Services Corporation, Colorado Springs, CO.
Contracting Activity: Dept of the Air Force, FA4613 90 CONS LGC, F.E. Warren AFB, WY.
