Notice of Proposed Revision to Guidance for the Use of Binding Arbitration Under the Administrative Dispute Resolution Act of 1996

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of Proposed Revision to Guidance.

SUMMARY: On March 4, 2004, the Federal Motor Carrier Safety Administration (FMCSA) published its Guidance for the use of binding arbitration in Agency civil penalty forfeiture proceedings in which the only issues remaining to be resolved are the amount of the civil penalty owed and the length of time in which to pay it. The Guidance provides that FMCSA use a form of arbitration known as “Night Baseball,” under which each party gives to the Arbitrator its proposal for the civil penalty in a sealed envelope. After the Arbitrator makes a written determination as to what he or she believes the civil penalty should be, the envelopes are opened. The Arbitrator then selects the proposed civil penalty that is closer to his or her determination. FMCSA is proposing to revise the Guidance to eliminate the “Night Baseball” format, and to replace it with a format in which the Arbitrator determines the final civil penalty and the amount of time in which to pay it.

II. Background

On March 4, 2004, FMCSA published in the Federal Register (69 FR 10288) its Guidance for the use of binding arbitration as an alternative dispute resolution technique in Agency civil penalty forfeiture proceedings in which the only issues remaining to be resolved are the amount of the civil penalty owed and the length of time in which to pay it. Under the Guidance’s “Night Baseball” format, each party presents to the Arbitrator evidence supporting the penalty it considers appropriate for the case as a whole without stating what that amount is. Following the hearing, each party provides the Arbitrator and the opposing party with a sealed envelope containing the amount of the total proposed civil penalty for the case and, if necessary, a proposed payment plan. Before opening the envelopes, the Arbitrator determines in writing the total civil penalty and, if necessary, a payment plan. The Arbitrator then opens the envelopes and selects the proposed civil penalty and payment plan that is closer to his or her determination.

FMCSA is proposing to eliminate the “Night Baseball” format from the Guidance. Several years of experience with this format have revealed that final civil penalties are rarely identical to the Arbitrator’s determination, and occasionally not close at all. For example, in one case, the final civil penalty was $1,001 even though the Arbitrator determined that the civil penalty should be $2,700. That is because the $1,001 penalty proposed by the respondent was closer to the Arbitrator’s determination than the claimant’s proposal of $4,500. In
another case, the claimant proposed a $34,090 civil penalty while the respondent proposed a $6,630 civil penalty. Because the Arbitrator's decision was $28,000, the higher proposal was chosen. The format has, in fact, incentivized strategy over substance and merit—the very result it was designed to avoid. In addition, the "Night Baseball" format requires parties to persuade the Arbitrator to accept the wisdom of their positions without being able to reveal the actual civil penalty they propose. This is difficult to do, and the process prevents the Arbitrator from receiving all of the information that might be helpful in reaching a determination.

FMCSA believes that the fairest civil penalty will be the amount determined by the Arbitrator following a full hearing. This will allow the parties to try to persuade the Arbitrator why a certain proposed civil penalty will be just. The Arbitrator will then decide, on the merits, the civil penalty and, if necessary, the amount of time in which to pay it. The remainder of the 2004 Guidance would continue unchanged.

Exemption Decision

This Notice addresses 8 individuals who have requested renewal of their exemptions in accordance with FMCSA procedures. FMCSA has evaluated these 9 applications for renewal on their merits and decided to extend each exemption for a renewable two-year period. They are:

The exemptions are extended subject to the following conditions: (1) That each individual has a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provides a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retains a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local law enforcement official.
